

Christ Church Cathedral Reinstatement Bill

Government Bill

As reported from the Environment Committee

Commentary

Recommendation

The Environment Committee has examined the Christ Church Cathedral Reinstatement Bill and recommends that it be passed with the amendments shown.

Introduction

The Christ Church Cathedral was significantly damaged in the 6.3 magnitude earthquake on 22 February 2011. Almost seven years later the Cathedral remains damaged and barricaded due to disagreements and prolonged litigation over its future. The Cathedral's central location means that delays to a decision about its future continue to affect the wider recovery and regeneration of Christchurch.

In September 2017, the Synod of the Anglican Church accepted an offer from the Government for the Cathedral's reinstatement. The offer included a recommendation that legislation be passed to facilitate the timely reinstatement of the Cathedral. Allowing for a faster process would provide the Christchurch community and the Cathedral owners with certainty and confidence in the project.

This bill seeks to fulfil that recommendation by allowing the Governor-General, on advice of the Minister in charge of the legislation, to make Orders in Council regarding the reinstatement of the Cathedral. This bill is similar to the Hurunui/Kaikōura Earthquakes Recovery Act 2016, but it includes more constraints on ministerial powers.

Explaining the reason for this legislation

We consider it important that any person reading this legislation should understand the context in which it came about. It should be made clear that the approach it proposes comes out of a long period of facilitation, negotiation, and investigation, the suc-

cess of which was assisted by two key reports facilitated by the Government. They include the Cathedral Working Group Recommendation Report of 2016.

To provide this context, we recommend inserting clause 2A, Background to this Act, as a new preliminary provision.

Making the legislation’s purpose clear

The bill’s purpose is to facilitate the reinstatement of Christ Church Cathedral. However, we would like it to clearly acknowledge the importance of the Cathedral’s reinstatement for the wider regeneration of Christchurch. Therefore, we recommend amending clause 3(1) to include recognition of the Cathedral’s contribution to cultural, social, and economic wellbeing, its importance to Christchurch’s regeneration, and its heritage value.

Our proposed clause 3(2) would retain the three aspects of the Act’s purpose from the bill as introduced, but would make it clear that any, or all of them, fit within the legislation’s purpose.

Definition of “Cathedral” and “Cathedral area”

We recommend amending the definition of **Cathedral** in clause 4 so that it includes existing or new ancillary buildings and improvements. This would make it clear that, for the purposes of this legislation, the definition of Cathedral could include new ancillary buildings and improvements.

We recommend amending the definition of **Cathedral area** to the correct legal description. We also recommend inserting a map of the Cathedral area in Schedule 3 as an aid to interpretation.

Definition of “reinstatement”

Recognising the Cathedral Working Group Recommendation Report

The Cathedral Working Group Recommendation Report (CWG Report) is largely the basis for the agreement that was reached with the Synod of the Anglican Church to reinstate the Cathedral. We consider that the bill should reference this report.

To do this, we recommend inserting paragraph (aa) in the definition of “reinstatement” so that this could include any activity that the CWG Report contemplates as being a reinstatement activity.

We also recommend the following further changes to the definition of “reinstatement”.

We recommend replacing paragraph (c) in the definition to make it clear that construction, reconstruction, or restoration of any part of the Cathedral would be included in the definition of reinstatement.

It is likely that some new materials would need to be used for the Cathedral’s reinstatement. To make it clear that the definition of reinstatement includes the use of any new materials we recommend inserting paragraph (fa).

We also recommend inserting clause 4(2) to clarify that reinstatement for the purposes of the bill could include activity that is not full reinstatement or reinstatement to the original condition.

Acts that could be affected by Orders in Council

Clause 7 of the bill would allow the Minister to recommend the making of an Order in Council that grants exemptions from, modifies, or extends the Acts in Schedule 2. We recommend amending Schedule 2 so that it also includes the following Acts:

- Building Act 2004
- Land Transfer Act 2017
- Local Government Act 1974
- Local Government Act 2002
- Public Works Act 1981
- Reserves Act 1977.

We consider it sensible to add these Acts as it is likely they will be relevant to the reinstatement project.

Responsible Ministers to be consulted about draft orders

As introduced, clause 8(1) proposes that if an Order in Council relates to the Heritage New Zealand Pouhere Taonga Act 2014 or the Resource Management Act 1991, the Minister responsible for administering that Act must be consulted. Clause 18 of the bill provides for additional Acts to be specified by Order in Council.

Because we are proposing to list additional Acts under Schedule 2, we recommend replacing clause 8(1)(e) and (f) with a single clause 8(1)(e). This would require the Minister responsible for this legislation to consult the Minister in charge of any Act that an Order in Council relates to. This would also capture any additional Acts that might be added under clause 18.

Entities able to propose Orders in Council

We recommend inserting clause 8(4) to make it clear that only the joint venture or other entity managing the reinstatement of the Cathedral, or the Panel, would be able to propose that the Minister recommend the making of an order.

Engagement with local authorities about draft orders

We recommend amending clause 9(1)(a)(i) to ensure that relevant local authorities are provided with information about proposed Orders in Council and their comments are sought. The information to be provided by the Minister is set out under clause 9(2).

We note that fostering good relationships and open communication with local authorities and other interested groups will be important for ensuring the project's success.

Changes to timeframes

Various clauses in the bill allow for comments or recommendations to be made to the Minister about a draft order or a proposed draft order.

In the bill as introduced, the timeframe for this is 20 working days. We recommend amending clauses 8(1)(d)(ii), 9(1)(c), and 14(2) to reduce this to 15 working days. We consider that 15 working days strikes the right balance between providing a check on the Minister's power and facilitating reinstatement in a timely manner.

Judicial review

Clause 22 proposes that an application for review relating to an Order in Council under the Judicial Review Procedure Act 2016 must be made within 28 days. We consider this timeframe appropriate to provide certainty for the Cathedral reinstatement project. This also provides an additional check that is not included in the Hurunui/Kaikōura Earthquakes Recovery Act 2016.

In the bill as introduced, clause 22(2)(a) would require that an application for judicial review be filed within 28 days of the making of a recommendation, decision, or order. We recommend amending paragraph (a) to provide that applications for review must be made within 28 days after the publication of the Minister's reasons for recommending that the relevant order be made. This would ensure that the Order in Council and the Minister's reasons were public for the entire 28 day timeframe.

We note that, once an Order in Council is published, it is important for it to be readily available.

We also urge that, where possible, the Cathedral's design process should take into account the values of accessibility and inclusivity.
