

Energy (Fuels, Levies, and References) Biofuel Obligation Repeal Bill

Government Bill

Explanatory note

General policy statement

The Government's policy is to review the emissions trading scheme in the Climate Change Response Act 2002 and associated supporting arrangements and to repeal Part 3A of the Energy (Fuels, Levies, and References) Act 1989 (which compels the supply of biofuels into the fuel system in New Zealand in substitution for fossil fuels).

This Bill repeals Part 3A. Repealing Part 3A will remove the obligation to supply biofuels in substitution for fossil fuels at a time of international concern about mandatory obligations, research demonstrating varying greenhouse gas emission benefits, and warnings about biofuels' effect on food supply and biodiversity. Importantly, repeal of Part 3A does not limit the power to impose environmental or sustainability standards and specifications with which biofuels supplied in New Zealand must comply.

Clause by clause analysis

Clause 1 is the Title clause.

Clause 2 provides that the Bill comes into force on the day after the date on which the Bill receives the Royal assent.

Clause 3 provides that the Bill amends the Energy (Fuels, Levies, and References) Act 1989.

Part 1 repeals Part 3A of the Energy (Fuels, Levies, and References) Act 1989, which contains the biofuel obligation.

Part 2 makes consequential amendments as a result of that repeal.
