Schedule 4
The Warsaw Convention as amended by the Hague Protocol of 1955
and the Montreal Additional Protocols Nos 1 and 2 and Protocol
No 4 of 1975

s 254

Convention for the Unification of Certain Rules Relating to
International Carriage by Air

Chapter I
Scope—Definitions

Article 1

1. This Convention applies to all international carriage of persons, baggage or cargo performed by aircraft for reward. It applies equally to gratuitous carriage by aircraft performed by an air transport undertaking.
2. For the purposes of this Convention, the expression *international carriage* means any carriage in which, according to the agreement between the parties, the place of departure and the place of destination, whether or not there be a break in the carriage or a transshipment, are situated either within the territories of two High Contracting Parties or within the territory of a single High Contracting Party if there is an agreed stopping place within the territory of another State, even if that State is not a High Contracting Party. Carriage between two points within the territory of a single High Contracting Party without an agreed stopping place within the territory of another State is not international carriage for the purposes of this Convention.
3. Carriage to be performed by several successive air carriers is deemed, for the purposes of this Convention, to be one undivided carriage if it has been regarded by the parties as a single operation, whether it had been agreed upon under the form of a single contract or of a series of contracts, and it does not lose its international character merely because one contract or a series of contracts is to be performed entirely within the territory of the same State.

Article 2

1. This Convention applies to carriage performed by the State or by legally constituted public bodies provided it falls within the conditions laid down in Article 1.
2. In the carriage of postal items the carrier shall be liable only to the relevant postal administration in accordance with the rules applicable to the relationship between the carriers and the postal administrations.

3. Except as provided in paragraph 2 of this Article, the provisions of this Convention shall not apply to the carriage of postal items.

Chapter II

Documents of carriage

Section 1—Passenger ticket

Article 3

1. In respect of the carriage of passengers a ticket shall be delivered containing:
 - a) an indication of the places of departure and destination;
 - b) if the places of departure and destination are within the territory of a single High Contracting Party, one or more agreed stopping places being within the territory of another State, an indication of at least one such stopping place;
 - c) a notice to the effect that, if the passenger's journey involves an ultimate destination or stop in a country other than the country of departure, the Warsaw Convention may be applicable and that the Convention governs and in most cases limits the liability of carriers for death or personal injury and in respect of loss of or damage to baggage.
2. The passenger ticket shall constitute *prima facie* evidence of the conclusion and conditions of the contract of carriage. The absence, irregularity or loss of the passenger ticket does not affect the existence or the validity of the contract of carriage which shall, none the less, be subject to the rules of this Convention. Nevertheless, if, with the consent of the carrier, the passenger embarks without a passenger ticket having been delivered, or if the ticket does not include the notice required by paragraph 1 c) of this Article, the carrier shall not be entitled to avail himself of the provisions of Article 22.

Section 2—Baggage check

Article 4

1. In respect of the carriage of registered baggage, a baggage check shall be delivered, which, unless combined with or incorporated in a passenger ticket which complies with the provisions of Article 3, paragraph 1, shall contain:
 - a) an indication of the places of departure and destination;
 - b) if the places of departure and destination are within the territory of a single High Contracting Party, one or more agreed stopping places being within the territory of another State, an indication of at least one such stopping place;
 - c) a notice to the effect that, if the carriage involves an ultimate destination or stop in a country other than the country of departure, the Warsaw

Convention may be applicable and that the Convention governs and in most cases limits the liability of carriers in respect of loss of or damage to baggage.

2. The baggage check shall constitute *prima facie* evidence of the registration of the baggage and of the conditions of the contract of carriage. The absence, irregularity or loss of the baggage check does not affect the existence or the validity of the contract of carriage which shall, none the less, be subject to the rules of this Convention. Nevertheless, if the carrier takes charge of the baggage without a baggage check having been delivered or if the baggage check (unless combined with or incorporated in the passenger ticket which complies with the provisions of Article 3, paragraph 1 c)) does not include the notice required by paragraph 1 c) of this Article, he shall not be entitled to avail himself of the provisions of Article 22, paragraph 2.

Section III—Documentation relating to cargo

Article 5

1. In respect of the carriage of cargo an air waybill shall be delivered.
2. Any other means which would preserve a record of the carriage to be performed may, with the consent of the consignor, be substituted for the delivery of an air waybill. If such other means are used, the carrier shall, if so requested by the consignor, deliver to the consignor a receipt for the cargo permitting identification of the consignment and access to the information contained in the record preserved by such other means.
3. The impossibility of using, at points of transit and destination, the other means which would preserve the record of the carriage referred to in paragraph 2 of this Article does not entitle the carrier to refuse to accept the cargo for carriage.

Article 6

1. The air waybill shall be made out by the consignor in three original parts.
2. The first part shall be marked “for the carrier”; it shall be signed by the consignor. The second part shall be marked “for the consignee”; it shall be signed by the consignor and by the carrier. The third part shall be signed by the carrier and handed by him to the consignor after the cargo has been accepted.
3. The signature of the carrier and that of the consignor may be printed or stamped.
4. If, at the request of the consignor, the carrier makes out the air waybill, he shall be deemed, subject to proof to the contrary, to have done so on behalf of the consignor.

Article 7

When there is more than one package:

- a) the carrier of cargo has the right to require the consignor to make out separate air waybills;
- b) the consignor has the right to require the carrier to deliver separate receipts when the other means referred to in paragraph 2 of Article 5 are used.

Article 8

The air waybill and the receipt for the cargo shall contain:

- a) an indication of the places of departure and destination;
- b) if the places of departure and destination are within the territory of a single High Contracting Party, one or more agreed stopping places being within the territory of another State, an indication of at least one such stopping place; and
- c) an indication of the weight of the consignment.

Article 9

Non-compliance with the provisions of Articles 5 to 8 shall not affect the existence or the validity of the contract of carriage, which shall, none the less, be subject to the rules of this Convention including those relating to limitation of liability.

Article 10

1. The consignor is responsible for the correctness of the particulars and statements relating to the cargo inserted by him or on his behalf in the air waybill or furnished by him or on his behalf to the carrier for insertion in the receipt for the cargo or for insertion in the record preserved by the other means referred to in paragraph 2 of Article 5.
2. The consignor shall indemnify the carrier against all damage suffered by him, or by any other person to whom the carrier is liable, by reason of the irregularity, incorrectness or incompleteness of the particulars and statements furnished by the consignor or on his behalf.
3. Subject to the provisions of paragraphs 1 and 2 of this Article, the carrier shall indemnify the consignor against all damage suffered by him, or by any other person to whom the consignor is liable, by reason of the irregularity, incorrectness or incompleteness of the particulars and statements inserted by the carrier or on his behalf in the receipt for the cargo or in the record preserved by the other means referred to in paragraph 2 of Article 5.

Article 11

1. The air waybill or the receipt for the cargo is *prima facie* evidence of the conclusion of the contract, of the acceptance of the cargo and of the conditions of carriage mentioned therein.
2. Any statements in the air waybill or the receipt for the cargo relating to the weight, dimensions and packing of the cargo, as well as those relating to the number of packages, are *prima facie* evidence of the facts stated; those relating

to the quantity, volume and condition of the cargo do not constitute evidence against the carrier except so far as they both have been, and are stated in the air waybill to have been, checked by him in the presence of the consignor, or relate to the apparent condition of the cargo.

Article 12

1. Subject to his liability to carry out all his obligations under the contract of carriage, the consignor has the right to dispose of the cargo by withdrawing it at the airport of departure or destination, or by stopping it in the course of the journey on any landing, or by calling for it to be delivered at the place of destination or in the course of the journey to a person other than the consignee originally designated, or by requiring it to be returned to the airport of departure. He must not exercise this right of disposition in such a way as to prejudice the carrier or other consignors and he must repay any expenses occasioned by the exercise of this right.
2. If it is impossible to carry out the orders of the consignor the carrier must so inform him forthwith.
3. If the carrier obeys the orders of the consignor for the disposition of the cargo without requiring the production of the part of the air waybill or the receipt for the cargo delivered to the latter, he will be liable, without prejudice to his right of recovery from the consignor, for any damage which may be caused thereby to any person who is lawfully in possession of that part of the air waybill or the receipt for the cargo.
4. The right conferred on the consignor ceases at the moment when that of the consignee begins in accordance with Article 13. Nevertheless, if the consignee declines to accept the cargo, or if he cannot be communicated with, the consignor resumes his right of disposition.

Article 13

1. Except when the consignor has exercised his right under Article 12, the consignee is entitled, on arrival of the cargo at the place of destination, to require the carrier to deliver the cargo to him, on payment of the charges due and on complying with the conditions of carriage.
2. Unless it is otherwise agreed, it is the duty of the carrier to give notice to the consignee as soon as the cargo arrives.
3. If the carrier admits the loss of the cargo, or if the cargo has not arrived at the expiration of seven days after the date on which it ought to have arrived, the consignee is entitled to enforce against the carrier the rights which flow from the contract of carriage.

Article 14

The consignor and the consignee can respectively enforce all the rights given them by Articles 12 and 13, each in his own name, whether he is acting in his own interest or

in the interest of another, provided that he carries out the obligations imposed by the contract of carriage.

Article 15

1. Articles 12, 13 and 14 do not affect either the relations of the consignor and the consignee with each other or the mutual relations of third parties whose rights are derived either from the consignor or from the consignee.
2. The provisions of Articles 12, 13 and 14 can only be varied by express provision in the air waybill or the receipt for the cargo.

Article 16

1. The consignor must furnish such information and such documents as are necessary to meet the formalities of customs, octroi or police before the cargo can be delivered to the consignee. The consignor is liable to the carrier for any damage occasioned by the absence, insufficiency or irregularity of any such information or documents, unless the damage is due to the fault of the carrier, his servants or agents.
2. The carrier is under no obligation to enquire into the correctness or sufficiency of such information or documents.

Chapter III Liability of the carrier

Article 17

The carrier is liable for damage sustained in the event of the death or wounding of a passenger or any other bodily injury suffered by a passenger, if the accident which caused the damage so sustained took place on board the aircraft or in the course of any of the operations of embarking or disembarking.

Article 18

1. The carrier is liable for damage sustained in the event of the destruction or loss of, or damage to, any registered baggage, if the occurrence which caused the damage so sustained took place during the carriage by air.
2. The carrier is liable for damage sustained in the event of the destruction or loss of, or damage to, cargo upon condition only that the occurrence which caused the damage so sustained took place during the carriage by air.
3. However, the carrier is not liable if he proves that the destruction, loss of, or damage to, the cargo resulted solely from one or more of the following:
 - a) inherent defect, quality or vice of that cargo;
 - b) defective packing of that cargo performed by a person other than the carrier or his servants or agents;

- c) an act of war or an armed conflict;
 - d) an act of public authority carried out in connexion with the entry, exit or transit of the cargo.
4. The carriage by air within the meaning of the preceding paragraphs of this Article comprises the period during which the baggage or cargo is in the charge of the carrier, whether in an airport or on board an aircraft, or, in the case of a landing outside an airport, in any place whatsoever.
 5. The period of the carriage by air does not extend to any carriage by land, by sea or by river performed outside an airport. If, however, such carriage takes place in the performance of a contract for carriage by air, for the purpose of loading, delivery or transshipment, any damage is presumed, subject to proof to the contrary, to have been the result of an event which took place during the carriage by air.

Article 19

The carrier is liable for damage occasioned by delay in the carriage by air of passengers, baggage or cargo.

Article 20

In the carriage of passengers and baggage, and in the case of damage occasioned by delay in the carriage of cargo, the carrier shall not be liable if he proves that he and his servants and agents have taken all necessary measures to avoid the damage or that it was impossible for them to take such measures.

Article 21

1. In the carriage of passengers and baggage, if the carrier proves that the damage was caused by or contributed to by the negligence of the person suffering the damage the Court may, in accordance with the provisions of its own law, exonerate the carrier wholly or partly from his liability.
2. In the carriage of cargo, if the carrier proves that the damage was caused by or contributed to by the negligence or other wrongful act or omission of the person claiming compensation, or the person from whom he derives his rights, the carrier shall be wholly or partly exonerated from his liability to the claimant to the extent that such negligence or wrongful act or omission caused or contributed to the damage.

Article 22 (as it reads where Additional Protocol No. 1 applies)

1. In the carriage of persons the liability of the carrier for each passenger is limited to the sum of 8 300 Special Drawing Rights. Where, in accordance with the law of the court seised of the case, damages may be awarded in the form of periodic payments, the equivalent capital value of the said payments shall not exceed this limit. Nevertheless, by special contract, the carrier and the passenger may agree to a higher limit of liability.

2. In the carriage of registered baggage and of cargo, the liability of the carrier is limited to a sum of 17 Special Drawing Rights per kilogramme, unless the consignor has made, at the time when the package was handed over to the carrier, a special declaration of interest in delivery at destination and has paid a supplementary sum if the case so requires. In that case the carrier will be liable to pay a sum not exceeding the declared sum, unless he proves that that sum is greater than the consignor's actual interest in delivery at destination.
3. As regards objects of which the passenger takes charge himself the liability of the carrier is limited to 332 Special Drawing Rights per passenger.
4. The sums mentioned in terms of the Special Drawing Right in this Article shall be deemed to refer to the Special Drawing Right as defined by the International Monetary Fund. Conversion of the sums into national currencies shall, in case of judicial proceedings, be made according to the value of such currencies in terms of the Special Drawing Right at the date of the judgment. The value of a national currency, in terms of the Special Drawing Right, of a High Contracting Party which is a Member of the International Monetary Fund, shall be calculated in accordance with the method of valuation applied by the International Monetary Fund, in effect at the date of the judgment, for its operations and transactions. The value of a national currency, in terms of the Special Drawing Right, of a High Contracting Party which is not a Member of the International Monetary Fund, shall be calculated in a manner determined by that High Contracting Party.

Nevertheless, those States which are not Members of the International Monetary Fund and whose law does not permit the application of the provisions of paragraphs 1, 2 and 3 of Article 22 may, at the time of ratification or accession or at any time thereafter, declare that the limit of liability of the carrier in judicial proceedings in their territories is fixed at a sum of 125 000 monetary units per passenger with respect to paragraph 1 of Article 22; 250 monetary units per kilogramme with respect to paragraph 2 of Article 22; and 5 000 monetary units per passenger with respect to paragraph 3 of Article 22. This monetary unit corresponds to sixty-five and a half milligrammes of gold of millesimal fineness nine hundred. These sums may be converted into the national currency concerned in round figures. The conversion of these sums into national currency shall be made according to the law of the State concerned.

Article 22 (as it reads where Additional Protocol No. 2 applies but not Protocol No. 4)

1. In the carriage of persons the liability of the carrier for each passenger is limited to the sum of 16 600 Special Drawing Rights. Where, in accordance with the law of the court seised of the case, damages may be awarded in the form of periodic payments, the equivalent capital value of the said payments shall not exceed this limit. Nevertheless, by special contract, the carrier and the passenger may agree to a higher limit of liability.

2. a) In the carriage of registered baggage and of cargo, the liability of the carrier is limited to a sum of 17 Special Drawing Rights per kilogramme, unless the passenger or consignor has made, at the time when the package was handed over to the carrier, a special declaration of interest in delivery at destination and has paid a supplementary sum if the case so requires. In that case the carrier will be liable to pay a sum not exceeding the declared sum, unless he proves that that sum is greater than the passenger's or consignor's actual interest in delivery at destination.
- b) In the case of loss, damage or delay of part of registered baggage or cargo, or of any object contained therein, the weight to be taken into consideration in determining the amount to which the carrier's liability is limited shall be only the total weight of the package or packages concerned. Nevertheless, when the loss, damage or delay of a part of the registered baggage or cargo or of an object contained therein, affects the value of other packages covered by the same baggage check or the same air waybill, the total weight of such package or packages shall also be taken into consideration in determining the limit of liability.
3. As regards objects of which the passenger takes charge himself the liability of the carrier is limited to 332 Special Drawing Rights per passenger.
4. The limits prescribed in this Article shall not prevent the court from awarding, in accordance with its own law, in addition, the whole or part of the court costs and of the other expenses of the litigation incurred by the plaintiff. The foregoing provision shall not apply if the amount of the damages awarded, excluding court costs and other expenses of the litigation, does not exceed the sum which the carrier has offered in writing to the plaintiff within a period of six months from the date of the occurrence causing the damage, or before the commencement of the action, if that is later.
5. The sums mentioned in terms of the Special Drawing Right in this Article shall be deemed to refer to the Special Drawing Right as defined by the International Monetary Fund. Conversion of the sums into national currencies shall, in case of judicial proceedings, be made according to the value of such currencies in terms of the Special Drawing Right at the date of the judgment. The value of a national currency, in terms of the Special Drawing Right, of a High Contracting Party which is a Member of the International Monetary Fund, shall be calculated in accordance with the method of valuation applied by the International Monetary Fund, in effect at the date of the judgment, for its operations and transactions. The value of a national currency, in terms of the Special Drawing Right, of a High Contracting Party which is not a Member of the International Monetary Fund, shall be calculated in a manner determined by that High Contracting Party.

Nevertheless, those States which are not Members of the International Monetary Fund and whose law does not permit the application of the provisions of paragraphs 1, 2 a) and 3 of Article 22 may, at the time of ratification or acces-

sion or at any time thereafter, declare that the limit of liability of the carrier in judicial proceedings in their territories is fixed at a sum of 250 000 monetary units per passenger with respect to paragraph 1 of Article 22; 250 monetary units per kilogramme with respect to paragraph 2 a) of Article 22; and 5 000 monetary units per passenger with respect to paragraph 3 of Article 22. This monetary unit corresponds to sixty-five and a half milligrammes of gold of millesimal fineness nine hundred. These sums may be converted into the national currency concerned in round figures. The conversion of these sums into national currency shall be made according to the law of the State concerned.

The conversion of this sum into the national currency shall be made according to the law of the State concerned.

Article 23

1. Any provision tending to relieve the carrier of liability or to fix a lower limit than that which is laid down in this Convention shall be null and void, but the nullity of any such provision does not involve the nullity of the whole contract, which shall remain subject to the provisions of this Convention.
2. Paragraph 1 of this Article shall not apply to provisions governing loss or damage resulting from the inherent defect, quality or vice of the cargo carried.

Article 24

1. In the carriage of passengers and baggage, any action for damages, however founded, can only be brought subject to the conditions and limits set out in this Convention, without prejudice to the question as to who are the persons who have the right to bring suit and what are their respective rights.
2. In the carriage of cargo, any action for damages, however founded, whether under this Convention or in contract or in tort or otherwise, can only be brought subject to the conditions and limits of liability set out in this Convention without prejudice to the question as to who are the persons who have the right to bring suit and what are their respective rights. Such limits of liability constitute maximum limits and may not be exceeded whatever the circumstances which gave rise to the liability.

Article 25

In the carriage of passengers and baggage, the limits of liability specified in Article 22 shall not apply if it is proved that the damage resulted from an act or omission of the carrier, his servants or agents, done with intent to cause damage or recklessly and with knowledge that damage would probably result; provided that, in the case of such

act or omission of a servant or agent, it is also proved that he was acting within the scope of his employment.

Article 25A

1. If an action is brought against a servant or agent of the carrier arising out of damage to which this Convention relates, such servant or agent, if he proves that he acted within the scope of his employment, shall be entitled to avail himself of the limits of liability which that carrier himself is entitled to invoke under Article 22.
2. The aggregate of the amounts recoverable from the carrier, his servants and agents, in that case, shall not exceed the said limits.

2. In the case of damage, the person entitled to delivery must complain to the carrier forthwith after the discovery of the damage, and, at the latest, within seven days from the date of receipt in the case of baggage and fourteen days from the date of receipt in the case of cargo. In the case of delay the complaint must be made at the latest within twenty-one days from the date on which the baggage or cargo have been placed at his disposal.

An action for damages must be brought, at the option of the plaintiff, in the territory of one of the High Contracting Parties, either before the court having jurisdiction where the carrier is ordinarily resident, or has his principal place of business, or has an establishment by which the contract has been made or before the court having jurisdiction at the place of destination.

2. Questions of procedure shall be governed by the law of the court seised of the case.

Article 29

1. The right to damages shall be extinguished if an action is not brought within two years, reckoned from the date of arrival at the destination, or from the date on which the aircraft ought to have arrived, or from the date on which the carriage stopped.

Article 30

1. In the case of carriage to be performed by various successive carriers and falling within the definition set-out in the third paragraph of Article 1, each carrier who accepts passengers, baggage or cargo is subjected to the rules set out in this Convention, and is deemed to be one of the contracting parties to the contract of carriage in so far as the contract deals with that part of the carriage which is performed under his supervision.
2. In the case of carriage of this nature, the passenger or his representative can take action only against the carrier who performed the carriage during which the accident or the delay occurred, save in the case where, by express agreement, the first carrier assumed liability for the whole journey.
3. As regards baggage or cargo, the passenger or consignor will have a right of action against the first carrier, and the passenger or consignee who is entitled to delivery will have a right of action against the last carrier, and further, each may take action against the carrier who performed the carriage during which the destruction, loss, damage or delay took place. These carriers will be jointly and severally liable to the passenger or to the consignor or consignee.

Article 30A

Nothing in this Convention shall prejudice the question whether a person liable for damage in accordance with its provisions has a right of recourse against any other person.

Schedule 5 The Guadalajara Convention

s 254

Part 1

The English Text

Convention,

Supplementary to the Warsaw Convention, for the Unification of Certain Rules Relating to International Carriage by Air Performed by a Person Other Than the Contracting Carrier.

The States signatory to the present Convention

NOTING that the Warsaw Convention does not contain particular rules relating to international carriage by air performed by a person who is not a party to the agreement for carriage

CONSIDERING that it is therefore desirable to formulate rules to apply in such circumstances

HAVE AGREED AS FOLLOWS:

Article I

In this Convention:

- (a) “Warsaw Convention” means the Convention for the Unification of Certain Rules Relating to International Carriage by Air signed at Warsaw on 12 October 1929, or the Warsaw Convention as amended at The Hague, 1955, according to whether the carriage under the agreement referred to in paragraph (b) is governed by the one or by the other;
- (b) “contracting carrier” means a person who as a principal makes an agreement for carriage governed by the Warsaw Convention with a passenger or consignor or with a person acting on behalf of the passenger or consignor;
- (c) “actual carrier” means a person, other than the contracting carrier, who, by virtue of authority from the contracting carrier, performs the whole or part of the carriage contemplated in paragraph (b) but who is not with respect to such part a successive carrier within the meaning of the Warsaw Convention. Such authority is presumed in the absence of proof to the contrary.

Article II

If an actual carrier performs the whole or part of carriage which, according to the agreement referred to in Article I, paragraph (b), is governed by the Warsaw Convention, both the contracting carrier and the actual carrier shall, except as otherwise pro-

vided in this Convention, be subject to the rules of the Warsaw Convention, the former for the whole of the carriage contemplated in the agreement, the latter solely for the carriage which he performs.

Article III

1. The acts and omissions of the actual carrier and of his servants and agents acting within the scope of their employment shall, in relation to the carriage performed by the actual carrier, be deemed to be also those of the contracting carrier.
2. The acts and omissions of the contracting carrier and of his servants and agents acting within the scope of their employment shall, in relation to the carriage performed by the actual carrier, be deemed to be also those of the actual carrier. Nevertheless, no such act or omission shall subject the actual carrier to liability exceeding the limits specified in Article 22 of the Warsaw Convention. Any special agreement under which the contracting carrier assumes obligations not imposed by the Warsaw Convention or any waiver of rights conferred by that Convention or any special declaration of interest in delivery at destination contemplated in Article 22 of the said Convention, shall not affect the actual carrier unless agreed to by him.

Article IV

Any complaint to be made or order to be given under the Warsaw Convention to the carrier shall have the same effect whether addressed to the contracting carrier or to the actual carrier. Nevertheless, orders referred to in Article 12 of the Warsaw Convention shall only be effective if addressed to the contracting carrier.

Article V

In relation to the carriage performed by the actual carrier, any servant or agent of that carrier or of the contracting carrier shall, if he proves that he acted within the scope of his employment, be entitled to avail himself of the limits of liability which are applicable under this Convention to the carrier whose servant or agent he is unless it is proved that he acted in a manner which, under the Warsaw Convention, prevents the limits of liability from being invoked.

Article VI

In relation to the carriage performed by the actual carrier, the aggregate of the amounts recoverable from that carrier and the contracting carrier, and from their servants and agents acting within the scope of their employment, shall not exceed the highest amount which could be awarded against either the contracting carrier or the actual carrier under this Convention, but none of the persons mentioned shall be liable for a sum in excess of the limit applicable to him.

Article VII

In relation to the carriage performed by the actual carrier, an action for damages may be brought, at the option of the plaintiff, against that carrier or the contracting carrier, or against both together or separately. If the action is brought against only one of those carriers, that carrier shall have the right to require the other carrier to be joined in the proceedings, the procedure and effects being governed by the law of the court seised of the case.

Article VIII

Any action for damages contemplated in Article VII of this Convention must be brought, at the option of the plaintiff, either before a court in which an action may be brought against the contracting carrier, as provided in Article 28 of the Warsaw Convention, or before the court having jurisdiction at the place where the actual carrier is ordinarily resident or has his principal place of business.

Article IX

1. Any contractual provision tending to relieve the contracting carrier or the actual carrier of liability under this Convention or to fix a lower limit than that which is applicable according to this Convention shall be null and void, but the nullity of any such provision does not involve the nullity of the whole agreement, which shall remain subject to the provisions of this Convention.
2. In respect of the carriage performed by the actual carrier, the preceding paragraph shall not apply to contractual provisions governing loss or damage resulting from the inherent defect, quality or vice of the cargo carried.
3. Any clause contained in an agreement for carriage and all special agreements entered into before the damage occurred by which the parties purport to infringe the rules laid down by this Convention, whether by deciding the law to be applied, or by altering the rules as to jurisdiction, shall be null and void. Nevertheless, for the carriage of cargo arbitration clauses are allowed, subject to this Convention, if the arbitration is to take place in one of the jurisdictions referred to in Article VIII.

Article X

Except as provided in Article VII, nothing in this Convention shall affect the rights and obligations of the two carriers between themselves.

Article XI

Until the date on which this Convention comes into force in accordance with the provisions of Article XIII, it shall remain open for signature on behalf of any State which at that date is a Member of the United Nations or of any of the Specialised Agencies.

Article XII

1. This Convention shall be subject to ratification by the signatory States.
2. The instruments of ratification shall be deposited with the Government of the United States of Mexico.

Article XIII

1. As soon as five of the signatory States have deposited their instruments of ratification of this Convention, it shall come into force between them on the ninetieth day after the date of the deposit of the fifth instrument of ratification. It shall come into force for each state ratifying thereafter on the ninetieth day after the deposit of its instrument of ratification.
2. As soon as this Convention comes into force, it shall be registered with the United Nations and the International Civil Aviation Organisation by the Government of the United States of Mexico.

Article XIV

1. This Convention shall, after it has come into force, be open for accession by any State Member of the United Nations or any of the Specialised Agencies.
2. The accession of a State shall be effected by the deposit of an instrument of accession with the Government of the United States of Mexico and shall take effect as from the ninetieth day after the date of such deposit.

Article XV

1. Any Contracting State may denounce this Convention by notification addressed to the Government of the United States of Mexico.
2. The Denunciation shall take effect six months after the date of receipt by the Government of the United States of Mexico of the notification of denunciation.

Article XVI

1. Any Contracting State may at the time of its ratification of or accession to this Convention or at any time thereafter declare by notification to the Government of the United States of Mexico that the Convention shall extend to any of the territories for whose international relations it is responsible.
2. The Convention shall, ninety days after the date of the receipt of such notification by the Government of the United States of Mexico, extend to the territories named therein.
3. Any Contracting State may denounce this Convention in accordance with the provisions of Article XV separately for any or all of the territories for the international relations of which such State is responsible.

Article XVII

No reservation may be made to this Convention.

Article XVIII

The Government of the United States of Mexico shall give notice to the International Civil Aviation Organization and to all States Members of the United Nations or of any of the Specialised Agencies:

- (a) of any signature of this Convention and the date thereof;
- (b) of the deposit of any instrument of ratification or accession and the date thereof;
- (c) of the date on which this Convention comes into force in accordance with Article XIII, paragraph 1;
- (d) of the receipt of any notification of denunciation and the date thereof;
- (e) of the receipt of any declaration or notification made under Article XVI and the date thereof.

IN WITNESS WHEREOF the undersigned Plenipotentiaries, having been duly authorised, have signed this Convention.

DONE at Guadalajara on the eighteenth day of September One Thousand Nine Hundred and Sixty-one in three authentic texts drawn up in the English, French and Spanish languages. In case of any inconsistency, the text in the French language, in which language the Warsaw Convention of 12 October 1929 was drawn up, shall prevail. The Government of the United States of Mexico will establish an official translation of the text of the Convention in the Russian language.

This Convention shall be deposited with the Government of the United States of Mexico with which, in accordance with Article XI, it shall remain open for signature, and that Government shall send certified copies thereof to the International Civil Aviation Organization and to all States Members of the United Nations or of any Specialised Agency.

Convention for the Unification of Certain Rules For International Carriage by Air

The States Parties To This Convention

RECOGNIZING the significant contribution of the Convention for the Unification of Certain Rules Relating to International Carriage by Air signed in Warsaw on 12 October 1929, hereinafter referred to as the “Warsaw Convention”, and other related instruments to the harmonization of private international air law;

RECOGNIZING the need to modernize and consolidate the Warsaw Convention and related instruments;

RECOGNIZING the importance of ensuring protection of the interests of consumers in international carriage by air and the need for equitable compensation based on the principle of restitution;

REAFFIRMING the desirability of an orderly development of international air transport operations and the smooth flow of passengers, baggage and cargo in accordance with the principles and objectives of the Convention on International Civil Aviation, done at Chicago on 7 December 1944;

CONVINCED that collective State action for further harmonization and codification of certain rules governing international carriage by air through a new Convention is the most adequate means of achieving an equitable balance of interests;

HAVE AGREED AS FOLLOWS:

Chapter I

General provisions

Article 1—Scope of application

1. This Convention applies to all international carriage of persons, baggage or cargo performed by aircraft for reward. It applies equally to gratuitous carriage by aircraft performed by an air transport undertaking.
2. For the purposes of this Convention, the expression *international carriage* means any carriage in which, according to the agreement between the parties, the place of departure and the place of destination, whether or not there be a break in the carriage or a transshipment, are situated either within the territories of two States Parties, or within the territory of a single State Party if there is an agreed stopping place within the territory of another State, even if that State is not a State Party. Carriage between two points within the territory of a single

State Party without an agreed stopping place within the territory of another State is not international carriage for the purposes of this Convention.

3. Carriage to be performed by several successive carriers is deemed, for the purposes of this Convention, to be one undivided carriage if it has been regarded by the parties as a single operation, whether it had been agreed upon under the form of a single contract or of a series of contracts, and it does not lose its international character merely because one contract or a series of contracts is to be performed entirely within the territory of the same State.
4. This Convention applies also to carriage as set out in Chapter V, subject to the terms contained therein.

Article 2—Carriage performed by State and carriage of postal items

1. This Convention applies to carriage performed by the State or by legally constituted public bodies provided it falls within the conditions laid down in Article 1.
2. In the carriage of postal items, the carrier shall be liable only to the relevant postal administration in accordance with the rules applicable to the relationship between the carriers and the postal administrations.
3. Except as provided in paragraph 2 of this Article, the provisions of this Convention shall not apply to the carriage of postal items.

Chapter II

Documentation and duties of the parties relating to the carriage of passengers, baggage and cargo

Article 3—Passengers and baggage

1. In respect of carriage of passengers, an individual or collective document of carriage shall be delivered containing:
 - (a) an indication of the places of departure and destination;
 - (b) if the places of departure and destination are within the territory of a single State Party, one or more agreed stopping places being within the territory of another State, an indication of at least one such stopping place.
2. Any other means which preserves the information indicated in paragraph 1 may be substituted for the delivery of the document referred to in that paragraph. If any such other means is used, the carrier shall offer to deliver to the passenger a written statement of the information so preserved.
3. The carrier shall deliver to the passenger a baggage identification tag for each piece of checked baggage.
4. The passenger shall be given written notice to the effect that where this Convention is applicable it governs and may limit the liability of carriers in respect

of death or injury and for destruction or loss of, or damage to, baggage, and for delay.

5. Non-compliance with the provisions of the foregoing paragraphs shall not affect the existence or the validity of the contract of carriage, which shall, nonetheless, be subject to the rules of this Convention including those relating to limitation of liability.

Article 4—Cargo

1. In respect of the carriage of cargo, an air waybill shall be delivered.
2. Any other means which preserves a record of the carriage to be performed may be substituted for the delivery of an air waybill. If such other means are used, the carrier shall, if so requested by the consignor, deliver to the consignor a cargo receipt permitting identification of the consignment and access to the information contained in the record preserved by such other means.

Article 5—Contents of air waybill or cargo receipt

The air waybill or the cargo receipt shall include:

- (a) an indication of the places of departure and destination;
- (b) if the places of departure and destination are within the territory of a single State Party, one or more agreed stopping places being within the territory of another State, an indication of at least one such stopping place; and
- (c) an indication of the weight of the consignment.

Article 6—Document relating to the nature of the cargo

The consignor may be required, if necessary, to meet the formalities of customs, police and similar public authorities to deliver a document indicating the nature of the cargo. This provision creates for the carrier no duty, obligation or liability resulting therefrom.

Article 7—Description of air waybill

1. The air waybill shall be made out by the consignor in three original parts.
2. The first part shall be marked “for the carrier”; it shall be signed by the consignor. The second part shall be marked “for the consignee”; it shall be signed by the consignor and by the carrier. The third part shall be signed by the carrier who shall hand it to the consignor after the cargo has been accepted.
3. The signature of the carrier and that of the consignor may be printed or stamped.
4. If, at the request of the consignor, the carrier makes out the air waybill, the carrier shall be deemed, subject to proof to the contrary, to have done so on behalf of the consignor.

Article 8—Documentation for multiple packages

When there is more than one package:

- (a) the carrier of cargo has the right to require the consignor to make out separate air waybills;
- (b) the consignor has the right to require the carrier to deliver separate cargo receipts when the other means referred to in paragraph 2 of Article 4 are used.

Article 9—Non-compliance with documentary requirements

Non-compliance with the provisions of Articles 4 to 8 shall not affect the existence or the validity of the contract of carriage, which shall, nonetheless, be subject to the rules of this Convention including those relating to limitation of liability.

Article 10—Responsibility for particulars of documentation

1. The consignor is responsible for the correctness of the particulars and statements relating to the cargo inserted by it or on its behalf in the air waybill or furnished by it or on its behalf to the carrier for insertion in the cargo receipt or for insertion in the record preserved by the other means referred to in paragraph 2 of Article 4. The foregoing shall also apply where the person acting on behalf of the consignor is also the agent of the carrier.
2. The consignor shall indemnify the carrier against all damage suffered by it, or by any other person to whom the carrier is liable, by reason of the irregularity, incorrectness or incompleteness of the particulars and statements furnished by the consignor or on its behalf.
3. Subject to the provisions of paragraphs 1 and 2 of this Article, the carrier shall indemnify the consignor against all damage suffered by it, or by any other person to whom the consignor is liable, by reason of the irregularity, incorrectness or incompleteness of the particulars and statements inserted by the carrier or on its behalf in the cargo receipt or in the record preserved by the other means referred to in paragraph 2 of Article 4.

Article 11—Evidentiary value of documentation

1. The air waybill or the cargo receipt is *prima facie* evidence of the conclusion of the contract, of the acceptance of the cargo and of the conditions of carriage mentioned therein.
2. Any statements in the air waybill or the cargo receipt relating to the weight, dimensions and packing of the cargo, as well as those relating to the number of packages, are *prima facie* evidence of the facts stated; those relating to the quantity, volume and condition of the cargo do not constitute evidence against the carrier except so far as they both have been, and are stated in the air waybill or the cargo receipt to have been, checked by it in the presence of the consignor, or relate to the apparent condition of the cargo.

Article 12—Right of disposition of cargo

1. Subject to its liability to carry out all its obligations under the contract of carriage, the consignor has the right to dispose of the cargo by withdrawing it at the airport of departure or destination, or by stopping it in the course of the journey on any landing, or by calling for it to be delivered at the place of destination or in the course of the journey to a person other than the consignee originally designated, or by requiring it to be returned to the airport of departure. The consignor must not exercise this right of disposition in such a way as to prejudice the carrier or other consignors and must reimburse any expenses occasioned by the exercise of this right.
2. If it is impossible to carry out the instructions of the consignor, the carrier must so inform the consignor forthwith.
3. If the carrier carries out the instructions of the consignor for the disposition of the cargo without requiring the production of the part of the air waybill or the cargo receipt delivered to the latter, the carrier will be liable, without prejudice to its right of recovery from the consignor, for any damage which may be caused thereby to any person who is lawfully in possession of that part of the air waybill or the cargo receipt.
4. The right conferred on the consignor ceases at the moment when that of the consignee begins in accordance with Article 13. Nevertheless, if the consignee declines to accept the cargo, or cannot be communicated with, the consignor resumes its right of disposition.

Article 13—Delivery of the cargo

1. Except when the consignor has exercised its right under Article 12, the consignee is entitled, on arrival of the cargo at the place of destination, to require the carrier to deliver the cargo to it, on payment of the charges due and on complying with the conditions of carriage.
2. Unless it is otherwise agreed, it is the duty of the carrier to give notice to the consignee as soon as the cargo arrives.
3. If the carrier admits the loss of the cargo, or if the cargo has not arrived at the expiration of seven days after the date on which it ought to have arrived, the consignee is entitled to enforce against the carrier the rights which flow from the contract of carriage.

Article 14—Enforcement of the rights of consignor and consignee

The consignor and the consignee can respectively enforce all the rights given to them by Articles 12 and 13, each in its own name, whether it is acting in its own interest or in the interest of another, provided that it carries out the obligations imposed by the contract of carriage.

Article 15—Relations of consignor and consignee or mutual relations of third parties

1. Articles 12, 13 and 14 do not affect either the relations of the consignor and the consignee with each other or the mutual relations of third parties whose rights are derived either from the consignor or from the consignee.
2. The provisions of Articles 12, 13 and 14 can only be varied by express provision in the air waybill or the cargo receipt.

Article 16—Formalities of Customs, Police or other public authorities

1. The consignor must furnish such information and such documents as are necessary to meet the formalities of customs, police and any other public authorities before the cargo can be delivered to the consignee. The consignor is liable to the carrier for any damage occasioned by the absence, insufficiency or irregularity of any such information or documents, unless the damage is due to the fault of the carrier, its servants or agents.
2. The carrier is under no obligation to enquire into the correctness or sufficiency of such information or documents.

Chapter III

Liability of the carrier and extent of compensation for damage

Article 17—Death and injury of passengers—Damage to baggage

1. The carrier is liable for damage sustained in case of death or bodily injury of a passenger upon condition only that the accident which caused the death or injury took place on board the aircraft or in the course of any of the operations of embarking or disembarking.
2. The carrier is liable for damage sustained in case of destruction or loss of, or of damage to, checked baggage upon condition only that the event which caused the destruction, loss or damage took place on board the aircraft or during any period within which the checked baggage was in the charge of the carrier. However, the carrier is not liable if and to the extent that the damage resulted from the inherent defect, quality or vice of the baggage. In the case of unchecked baggage, including personal items, the carrier is liable if the damage resulted from its fault or that of its servants or agents.
3. If the carrier admits the loss of the checked baggage, or if the checked baggage has not arrived at the expiration of twenty-one days after the date on which it ought to have arrived, the passenger is entitled to enforce against the carrier the rights which flow from the contract of carriage.
4. Unless otherwise specified, in this Convention the term “baggage” means both checked baggage and unchecked baggage.

Article 18—Damage to cargo

1. The carrier is liable for damage sustained in the event of the destruction or loss of, or damage to, cargo upon condition only that the event which caused the damage so sustained took place during the carriage by air.
2. However, the carrier is not liable if and to the extent it proves that the destruction, or loss of, or damage to, the cargo resulted from one or more of the following:
 - (a) inherent defect, quality or vice of that cargo;
 - (b) defective packaging of that cargo performed by a person other than the carrier or its servants or agents;
 - (c) an act of war or an armed conflict;
 - (d) an act of public authority carried out in connection with the entry, exit or transit of the cargo.
3. The carriage by air within the meaning of paragraph 1 of this Article comprises the period during which the cargo is in the charge of the carrier.
4. The period of the carriage by air does not extend to any carriage by land, by sea or by inland waterway performed outside an airport. If, however, such carriage takes place in the performance of a contract for carriage by air, for the purpose of loading, delivery or transshipment, any damage is presumed, subject to proof to the contrary, to have been the result of an event which took place during the carriage by air. If a carrier, without the consent of the consignor, substitutes carriage by another mode of transport for the whole or part of a carriage intended by the agreement between the parties to be carriage by air, such carriage by another mode of transport is deemed to be within the period of carriage by air.

Article 19—Delay

The carrier is liable for damage occasioned by delay in the carriage by air of passengers, baggage or cargo. Nevertheless, the carrier shall not be liable for damage occasioned by delay if it proves that it and its servants and agents took all measures that could reasonably be required to avoid the damage or that it was impossible for it or them to take such measures.

Article 20—Exoneration

If the carrier proves that the damage was caused or contributed to by the negligence or other wrongful act or omission of the person claiming compensation, or the person from whom he or she derives his or her rights, the carrier shall be wholly or partly exonerated from its liability to the claimant to the extent that such negligence or wrongful act or omission caused or contributed to the damage. When by reason of death or injury of a passenger compensation is claimed by a person other than the passenger, the carrier shall likewise be wholly or partly exonerated from its liability to the extent that it proves that the damage was caused or contributed to by the negli-

gence or other wrongful act or omission of that passenger. This Article applies to all the liability provisions in the Convention, including paragraph 1 of Article 21.

Article 21—Compensation in case of death or injury of passengers

1. For damages arising under paragraph 1 of Article 17 not exceeding 128 821 Special Drawing Rights for each passenger, the carrier shall not be able to exclude or limit its liability.
2. The carrier shall not be liable for damages arising under paragraph 1 of Article 17 to the extent that they exceed for each passenger 128 821 Special Drawing Rights if the carrier proves that:
 - (a) such damage was not due to the negligence or other wrongful act or omission of the carrier or its servants or agents; or
 - (b) such damage was solely due to the negligence or other wrongful act or omission of a third party.

Article 22—Limits of liability in relation to delay, baggage and cargo

1. In the case of damage caused by delay as specified in Article 19 in the carriage of persons, the liability of the carrier for each passenger is limited to 5 346 Special Drawing Rights.
2. In the carriage of baggage, the liability of the carrier in the case of destruction, loss, damage or delay is limited to 1 288 Special Drawing Rights for each passenger unless the passenger has made, at the time when the checked baggage was handed over to the carrier, a special declaration of interest in delivery at destination and has paid a supplementary sum if the case so requires. In that case the carrier will be liable to pay a sum not exceeding the declared sum, unless it proves that the sum is greater than the passenger's actual interest in delivery at destination.
3. In the carriage of cargo, the liability of the carrier in the case of destruction, loss, damage or delay is limited to a sum of 22 Special Drawing Rights per kilogramme, unless the consignor has made, at the time when the package was handed over to the carrier, a special declaration of interest in delivery at destination and has paid a supplementary sum if the case so requires. In that case the carrier will be liable to pay a sum not exceeding the declared sum, unless it proves that the sum is greater than the consignor's actual interest in delivery at destination.
4. In the case of destruction, loss, damage or delay of part of the cargo, or of any object contained therein, the weight to be taken into consideration in determining the amount to which the carrier's liability is limited shall be only the total weight of the package or packages concerned. Nevertheless, when the destruction, loss, damage or delay of a part of the cargo, or of an object contained therein, affects the value of other packages covered by the same air waybill, or the same receipt or, if they were not issued, by the same record preserved by

the other means referred to in paragraph 2 of Article 4, the total weight of such package or packages shall also be taken into consideration in determining the limit of liability.

5. The foregoing provisions of paragraphs 1 and 2 of this Article shall not apply if it is proved that the damage resulted from an act or omission of the carrier, its servants or agents, done with intent to cause damage or recklessly and with knowledge that damage would probably result; provided that, in the case of such act or omission of a servant or agent, it is also proved that such servant or agent was acting within the scope of its employment.
6. The limits prescribed in Article 21 and in this Article shall not prevent the court from awarding, in accordance with its own law, in addition, the whole or part of the court costs and of the other expenses of the litigation incurred by the plaintiff, including interest. The foregoing provision shall not apply if the amount of the damages awarded, excluding court costs and other expenses of the litigation, does not exceed the sum which the carrier has offered in writing to the plaintiff within a period of six months from the date of the occurrence causing the damage, or before the commencement of the action, if that is later.

Article 23—Conversion of Monetary Units

1. The sums mentioned in terms of Special Drawing Right in this Convention shall be deemed to refer to the Special Drawing Right as defined by the International Monetary Fund. Conversion of the sums into national currencies shall, in case of judicial proceedings, be made according to the value of such currencies in terms of the Special Drawing Right at the date of the judgement. The value of a national currency, in terms of the Special Drawing Right, of a State Party which is a Member of the International Monetary Fund, shall be calculated in accordance with the method of valuation applied by the International Monetary Fund, in effect at the date of the judgement, for its operations and transactions. The value of a national currency, in terms of the Special Drawing Right, of a State Party which is not a Member of the International Monetary Fund, shall be calculated in a manner determined by that State.
2. Nevertheless, those States which are not Members of the International Monetary Fund and whose law does not permit the application of the provisions of paragraph 1 of this Article may, at the time of ratification or accession or at any time thereafter, declare that the limit of liability of the carrier prescribed in Article 21 is fixed at a sum of 1 500 000 monetary units per passenger in judicial proceedings in their territories; 62 500 monetary units per passenger with respect to paragraph 1 of Article 22; 15 000 monetary units per passenger with respect to paragraph 2 of Article 22; and 250 monetary units per kilogramme with respect to paragraph 3 of Article 22. This monetary unit corresponds to sixty-five and a half milligrammes of gold of millesimal fineness nine hundred. These sums may be converted into the national currency concerned in round

figures. The conversion of these sums into national currency shall be made according to the law of the State concerned.

3. The calculation mentioned in the last sentence of paragraph 1 of this Article and the conversion method mentioned in paragraph 2 of this Article shall be made in such manner as to express in the national currency of the State Party as far as possible the same real value for the amounts in Articles 21 and 22 as would result from the application of the first three sentences of paragraph 1 of this Article. States Parties shall communicate to the depositary the manner of calculation pursuant to paragraph 1 of this Article, or the result of the conversion in paragraph 2 of this Article as the case may be, when depositing an instrument of ratification, acceptance, approval of or accession to this Convention and whenever there is a change in either.

Article 24—Review of Limits

1. Without prejudice to the provisions of Article 25 of this Convention and subject to paragraph 2 below, the limits of liability prescribed in Articles 21, 22 and 23 shall be reviewed by the Depositary at five-year intervals, the first such review to take place at the end of the fifth year following the date of entry into force of this Convention, or if the Convention does not enter into force within five years of the date it is first open for signature, within the first year of its entry into force, by reference to an inflation factor which corresponds to the accumulated rate of inflation since the previous revision or in the first instance since the date of entry into force of the Convention. The measure of the rate of inflation to be used in determining the inflation factor shall be the weighted average of the annual rates of increase or decrease in the Consumer Price Indices of the States whose currencies comprise the Special Drawing Right mentioned in paragraph 1 of Article 23.
2. If the review referred to in the preceding paragraph concludes that the inflation factor has exceeded 10 per cent, the Depositary shall notify States Parties of a revision of the limits of liability. Any such revision shall become effective six months after its notification to the States Parties. If within three months after its notification to the States Parties a majority of the States Parties register their disapproval, the revision shall not become effective and the Depositary shall refer the matter to a meeting of the States Parties. The Depositary shall immediately notify all States Parties of the coming into force of any revision.
3. Notwithstanding paragraph 1 of this Article, the procedure referred to in paragraph 2 of this Article shall be applied at any time provided that one-third of the States Parties express a desire to that effect and upon condition that the inflation factor referred to in paragraph 1 has exceeded 30 per cent since the previous revision or since the date of entry into force of this Convention if there has been no previous revision. Subsequent reviews using the procedure described in paragraph 1 of this Article will take place at five-year intervals

starting at the end of the fifth year following the date of the reviews under the present paragraph.

Article 25—Stipulation on limits

A carrier may stipulate that the contract of carriage shall be subject to higher limits of liability than those provided for in this Convention or to no limits of liability whatsoever.

Article 26—Invalidity of contractual provisions

Any provision tending to relieve the carrier of liability or to fix a lower limit than that which is laid down in this Convention shall be null and void, but the nullity of any such provision does not involve the nullity of the whole contract, which shall remain subject to the provisions of this Convention.

Article 27—Freedom to contract

Nothing contained in this Convention shall prevent the carrier from refusing to enter into any contract of carriage, from waiving any defences available under the Convention, or from laying down conditions which do not conflict with the provisions of this Convention.

Article 28—Advance payments

In the case of aircraft accidents resulting in death or injury of passengers, the carrier shall, if required by its national law, make advance payments without delay to a natural person or persons who are entitled to claim compensation in order to meet the immediate economic needs of such persons. Such advance payments shall not constitute a recognition of liability and may be offset against any amounts subsequently paid as damages by the carrier.

Article 29—Basis of claims

In the carriage of passengers, baggage and cargo, any action for damages, however founded, whether under this Convention or in contract or in tort or otherwise, can only be brought subject to the conditions and such limits of liability as are set out in this Convention without prejudice to the question as to who are the persons who have the right to bring suit and what are their respective rights. In any such action, punitive, exemplary or any other non-compensatory damages shall not be recoverable.

Article 30—Servants, agents—Aggregation of claims

1. If an action is brought against a servant or agent of the carrier arising out of damage to which the Convention relates, such servant or agent, if they prove that they acted within the scope of their employment, shall be entitled to avail themselves of the conditions and limits of liability which the carrier itself is entitled to invoke under this Convention.

2. The aggregate of the amounts recoverable from the carrier, its servants and agents, in that case, shall not exceed the said limits.
3. Save in respect of the carriage of cargo, the provisions of paragraphs 1 and 2 of this Article shall not apply if it is proved that the damage resulted from an act or omission of the servant or agent done with intent to cause damage or recklessly and with knowledge that damage would probably result.

Article 31—Timely notice of complaints

1. Receipt by the person entitled to delivery of checked baggage or cargo without complaint is *prima facie* evidence that the same has been delivered in good condition and in accordance with the document of carriage or with the record preserved by the other means referred to in paragraph 2 of Article 3 and paragraph 2 of Article 4.
2. In the case of damage, the person entitled to delivery must complain to the carrier forthwith after the discovery of the damage, and, at the latest, within seven days from the date of receipt in the case of checked baggage and fourteen days from the date of receipt in the case of cargo. In the case of delay, the complaint must be made at the latest within twenty-one days from the date on which the baggage or cargo have been placed at his or her disposal.
3. Every complaint must be made in writing and given or dispatched within the times aforesaid.
4. If no complaint is made within the times aforesaid, no action shall lie against the carrier, save in the case of fraud on its part.

Article 32—Death of person liable

In the case of the death of the person liable, an action for damages lies in accordance with the terms of this Convention against those legally representing his or her estate.

Article 33—Jurisdiction

1. An action for damages must be brought, at the option of the plaintiff, in the territory of one of the States Parties, either before the court of the domicile of the carrier or of its principal place of business, or where it has a place of business through which the contract has been made or before the court at the place of destination.
2. In respect of damage resulting from the death or injury of a passenger, an action may be brought before one of the courts mentioned in paragraph 1 of this Article, or in the territory of a State Party in which at the time of the accident the passenger has his or her principal and permanent residence and to or from which the carrier operates services for the carriage of passengers by air, either on its own aircraft, or on another carrier's aircraft pursuant to a commercial agreement, and in which that carrier conducts its business of carriage of

passengers by air from premises leased or owned by the carrier itself or by another carrier with which it has a commercial agreement.

3. For the purposes of paragraph 2,
 - (a) “commercial agreement” means an agreement, other than an agency agreement, made between carriers and relating to the provision of their joint services for carriage of passengers by air;
 - (b) “principal and permanent residence” means the one fixed and permanent abode of the passenger at the time of the accident. The nationality of the passenger shall not be the determining factor in this regard.
4. Questions of procedure shall be governed by the law of the court seised of the case.

Article 34—Arbitration

1. Subject to the provisions of this Article, the parties to the contract of carriage for cargo may stipulate that any dispute relating to the liability of the carrier under this Convention shall be settled by arbitration. Such agreement shall be in writing.
2. The arbitration proceedings shall, at the option of the claimant, take place within one of the jurisdictions referred to in Article 33.
3. The arbitrator or arbitration tribunal shall apply the provisions of this Convention.
4. The provisions of paragraphs 2 and 3 of this Article shall be deemed to be part of every arbitration clause or agreement, and any term of such clause or agreement which is inconsistent therewith shall be null and void.

Article 35—Limitation of actions

1. The right to damages shall be extinguished if an action is not brought within a period of two years, reckoned from the date of arrival at the destination, or from the date on which the aircraft ought to have arrived, or from the date on which the carriage stopped.
2. The method of calculating that period shall be determined by the law of the court seised of the case.

Article 36—Successive carriage

1. In the case of carriage to be performed by various successive carriers and falling within the definition set out in paragraph 3 of Article 1, each carrier which accepts passengers, baggage or cargo is subject to the rules set out in this Convention and is deemed to be one of the parties to the contract of carriage in so far as the contract deals with that part of the carriage which is performed under its supervision.

2. In the case of carriage of this nature, the passenger or any person entitled to compensation in respect of him or her can take action only against the carrier which performed the carriage during which the accident or the delay occurred, save in the case where, by express agreement, the first carrier has assumed liability for the whole journey.
3. As regards baggage or cargo, the passenger or consignor will have a right of action against the first carrier, and the passenger or consignee who is entitled to delivery will have a right of action against the last carrier, and further, each may take action against the carrier which performed the carriage during which the destruction, loss, damage or delay took place. These carriers will be jointly and severally liable to the passenger or to the consignor or consignee.

Article 37—Right of recourse against third parties

Nothing in this Convention shall prejudice the question whether a person liable for damage in accordance with its provisions has a right of recourse against any other person.

Chapter IV Combined carriage

Article 38—Combined carriage

1. In the case of combined carriage performed partly by air and partly by any other mode of carriage, the provisions of this Convention shall, subject to paragraph 4 of Article 18, apply only to the carriage by air, provided that the carriage by air falls within the terms of Article 1.
2. Nothing in this Convention shall prevent the parties in the case of combined carriage from inserting in the document of air carriage conditions relating to other modes of carriage, provided that the provisions of this Convention are observed as regards the carriage by air.

Chapter V Carriage by air performed by a person other than the contracting carrier

Article 39—Contracting carrier—Actual carrier

The provisions of this Chapter apply when a person (hereinafter referred to as “the contracting carrier”) as a principal makes a contract of carriage governed by this Convention with a passenger or consignor or with a person acting on behalf of the passenger or consignor, and another person (hereinafter referred to as “the actual carrier”) performs, by virtue of authority from the contracting carrier, the whole or part of the carriage, but is not with respect to such part a successive carrier within the meaning

of this Convention. Such authority shall be presumed in the absence of proof to the contrary.

Article 40—Respective liability of contracting and actual carriers

If an actual carrier performs the whole or part of carriage which, according to the contract referred to in Article 39, is governed by this Convention, both the contracting carrier and the actual carrier shall, except as otherwise provided in this Chapter, be subject to the rules of this Convention, the former for the whole of the carriage contemplated in the contract, the latter solely for the carriage which it performs.

Article 41—Mutual liability

1. The acts and omissions of the actual carrier and of its servants and agents acting within the scope of their employment shall, in relation to the carriage performed by the actual carrier, be deemed to be also those of the contracting carrier.
2. The acts and omissions of the contracting carrier and of its servants and agents acting within the scope of their employment shall, in relation to the carriage performed by the actual carrier, be deemed to be also those of the actual carrier. Nevertheless, no such act or omission shall subject the actual carrier to liability exceeding the amounts referred to in Articles 21, 22, 23 and 24. Any special agreement under which the contracting carrier assumes obligations not imposed by this Convention or any waiver of rights or defences conferred by this Convention or any special declaration of interest in delivery at destination contemplated in Article 22 shall not affect the actual carrier unless agreed to by it.

Article 42—Addressee of complaints and instructions

Any complaint to be made or instruction to be given under this Convention to the carrier shall have the same effect whether addressed to the contracting carrier or to the actual carrier. Nevertheless, instructions referred to in Article 12 shall only be effective if addressed to the contracting carrier.

Article 43—Servants and agents

In relation to the carriage performed by the actual carrier, any servant or agent of that carrier or of the contracting carrier shall, if they prove that they acted within the scope of their employment, be entitled to avail themselves of the conditions and limits of liability which are applicable under this Convention to the carrier whose servant or agent they are, unless it is proved that they acted in a manner that prevents the limits of liability from being invoked in accordance with this Convention.

Article 44—Aggregation of damages

In relation to the carriage performed by the actual carrier, the aggregate of the amounts recoverable from that carrier and the contracting carrier, and from their serv-

ants and agents acting within the scope of their employment, shall not exceed the highest amount which could be awarded against either the contracting carrier or the actual carrier under this Convention, but none of the persons mentioned shall be liable for a sum in excess of the limit applicable to that person.

Article 45—Addressee of claims

In relation to the carriage performed by the actual carrier, an action for damages may be brought, at the option of the plaintiff, against that carrier or the contracting carrier, or against both together or separately. If the action is brought against only one of those carriers, that carrier shall have the right to require the other carrier to be joined in the proceedings, the procedure and effects being governed by the law of the court seized of the case.

Article 46—Additional jurisdiction

Any action for damages contemplated in Article 45 must be brought, at the option of the plaintiff, in the territory of one of the States Parties, either before a court in which an action may be brought against the contracting carrier, as provided in Article 33, or before the court having jurisdiction at the place where the actual carrier has its domicile or its principal place of business.

Article 47—Invalidity of contractual provisions

Any contractual provision tending to relieve the contracting carrier or the actual carrier of liability under this Chapter or to fix a lower limit than that which is applicable according to this Chapter shall be null and void, but the nullity of any such provision does not involve the nullity of the whole contract, which shall remain subject to the provisions of this Chapter.

Article 48—Mutual relations of contracting and actual carriers

Except as provided in Article 45, nothing in this Chapter shall affect the rights and obligations of the carriers between themselves, including any right of recourse or indemnification.

Chapter VI Other provisions

Article 49—Mandatory application

Any clause contained in the contract of carriage and all special agreements entered into before the damage occurred by which the parties purport to infringe the rules laid down by this Convention, whether by deciding the law to be applied, or by altering the rules as to jurisdiction, shall be null and void.

Article 50—Insurance

States Parties shall require their carriers to maintain adequate insurance covering their liability under this Convention. A carrier may be required by the State Party into which it operates to furnish evidence that it maintains adequate insurance covering its liability under this Convention.

Article 51—Carriage performed in extraordinary circumstances

The provisions of Articles 3 to 5, 7 and 8 relating to the documentation of carriage shall not apply in the case of carriage performed in extraordinary circumstances outside the normal scope of a carrier's business.

Article 52—Definition of days

The expression "days" when used in this Convention means calendar days, not working days.

- (b) the carriage of persons, cargo and baggage for its military authorities on aircraft registered in or leased by that State Party, the whole capacity of which has been reserved by or on behalf of such authorities.

- (b) relates to an object of which the chargor, conditional seller or lessor has power to dispose;
- (c) enables the object to be identified in conformity with the Protocol; and
- (d) in the case of a security agreement, enables the secured obligations to be determined, but without the need to state a sum or maximum sum secured.

Chapter III **Default remedies**

Article 8—Remedies of chargee

1. In the event of default as provided in Article 11, the chargee may, to the extent that the chargor has at any time so agreed and subject to any declaration that may be made by a Contracting State under Article 54, exercise any one or more of the following remedies:

6. Where the sums collected or received by the chargee as a result of the exercise of any remedy set out in paragraph 1 or 2 exceed the amount secured by the security interest and any reasonable costs incurred in the exercise of any such remedy, then unless otherwise ordered by the court the chargee shall distribute the surplus among holders of subsequently ranking interests which have been registered or of which the chargee has been given notice, in order of priority, and pay any remaining balance to the chargor.

Article 13—Relief pending final determination

1. Subject to any declaration that it may make under Article 55, a Contracting State shall ensure that a creditor who adduces evidence of default by the debtor may, pending final determination of its claim and to the extent that the debtor has at any time so agreed, obtain from a court speedy relief in the form of such one or more of the following orders as the creditor requests:

 - (b) possession, control or custody of the object;
 - (c) immobilisation of the object; and
 - (d) lease or, except where covered by sub-paragraphs (a) to (c), management of the object and the income therefrom.

2. In making any order under the preceding paragraph, the court may impose such terms as it considers necessary to protect the interested persons in the event that the creditor:
 - (a) in implementing any order granting such relief, fails to perform any of its obligations to the debtor under this Convention or the Protocol; or
 - (b) fails to establish its claim, wholly or in part, on the final determination of that claim.
3. Before making any order under paragraph 1, the court may require notice of the request to be given to any of the interested persons.

2. The Registrar shall not be liable under the preceding paragraph for factual inaccuracy of registration information received by the Registrar or transmitted by the Registrar in the form in which it received that information nor for acts or circumstances for which the Registrar and its officers and employees are not responsible and arising prior to receipt of registration information at the International Registry.

Chapter VIII

Effects of an international interest as against third parties

Article 29—Priority of competing interests

1. A registered interest has priority over any other interest subsequently registered and over an unregistered interest.
2. The priority of the first-mentioned interest under the preceding paragraph applies:
 - (a) even if the first-mentioned interest was acquired or registered with actual knowledge of the other interest; and
 - (b) even as regards value given by the holder of the first-mentioned interest with such knowledge.

3. The buyer of an object acquires its interest in it:
 - (a) subject to an interest registered at the time of its acquisition of that interest; and
 - (b) free from an unregistered interest even if it has actual knowledge of such an interest.
4. The conditional buyer or lessee acquires its interest in or right over that object:
 - (a) subject to an interest registered prior to the registration of the international interest held by its conditional seller or lessor; and
 - (b) free from an interest not so registered at that time even if it has actual knowledge of that interest.
5. The priority of competing interests or rights under this Article may be varied by agreement between the holders of those interests, but an assignee of a subordinated interest is not bound by an agreement to subordinate that interest unless at the time of the assignment a subordination had been registered relating to that agreement.
6. Any priority given by this Article to an interest in an object extends to proceeds.
7. This Convention:
 - (a) does not affect the rights of a person in an item, other than an object, held prior to its installation on an object if under the applicable law those rights continue to exist after the installation; and
 - (b) does not prevent the creation of rights in an item, other than an object, which has previously been installed on an object where under the applicable law those rights are created.

Article 30—Effects of insolvency

1. In insolvency proceedings against the debtor an international interest is effective if prior to the commencement of the insolvency proceedings that interest was registered in conformity with this Convention.
2. Nothing in this Article impairs the effectiveness of an international interest in the insolvency proceedings where that interest is effective under the applicable law.
3. Nothing in this Article affects:
 - (a) any rules of law applicable in insolvency proceedings relating to the avoidance of a transaction as a preference or a transfer in fraud of creditors; or

- (b) any rules of procedure relating to the enforcement of rights to property which is under the control or supervision of the insolvency administrator.

Chapter IX

Assignments of associated rights and international interests; rights of subrogation

Article 31—Effects of assignment

1. Except as otherwise agreed by the parties, an assignment of associated rights made in conformity with Article 32 also transfers to the assignee:
 - (a) the related international interest; and
 - (b) all the interests and priorities of the assignor under this Convention.
2. Nothing in this Convention prevents a partial assignment of the assignor's associated rights. In the case of such a partial assignment the assignor and assignee may agree as to their respective rights concerning the related international interest assigned under the preceding paragraph but not so as adversely to affect the debtor without its consent.
3. Subject to paragraph 4, the applicable law shall determine the defences and rights of set-off available to the debtor against the assignee.
4. The debtor may at any time by agreement in writing waive all or any of the defences and rights of set-off referred to in the preceding paragraph other than defences arising from fraudulent acts on the part of the assignee.
5. In the case of an assignment by way of security, the assigned associated rights revert in the assignor, to the extent that they are still subsisting, when the obligations secured by the assignment have been discharged.

Article 32—Formal requirements of assignment

1. An assignment of associated rights transfers the related international interest only if it:
 - (a) is in writing;
 - (b) enables the associated rights to be identified under the contract from which they arise; and
 - (c) in the case of an assignment by way of security, enables the obligations secured by the assignment to be determined in accordance with the Protocol but without the need to state a sum or maximum sum secured.

2. An assignment of an international interest created or provided for by a security agreement is not valid unless some or all related associated rights also are assigned.
3. This Convention does not apply to an assignment of associated rights which is not effective to transfer the related international interest.

Article 33—Debtor’s duty to assignee

1. To the extent that associated rights and the related international interest have been transferred in accordance with Articles 31 and 32, the debtor in relation to those rights and that interest is bound by the assignment and has a duty to make payment or give other performance to the assignee, if but only if:
 - (a) the debtor has been given notice of the assignment in writing by or with the authority of the assignor; and
 - (b) the notice identifies the associated rights.
2. Irrespective of any other ground on which payment or performance by the debtor discharges the latter from liability, payment or performance shall be effective for this purpose if made in accordance with the preceding paragraph.
3. Nothing in this Article shall affect the priority of competing assignments.

Article 34—Default remedies in respect of assignment by way of security

In the event of default by the assignor under the assignment of associated rights and the related international interest made by way of security, Articles 8, 9 and 11 to 14 apply in the relations between the assignor and the assignee (and, in relation to associated rights, apply in so far as those provisions are capable of application to intangible property) as if references:

- (a) to the secured obligation and the security interest were references to the obligation secured by the assignment of the associated rights and the related international interest and the security interest created by that assignment;
- (b) to the chargee or creditor and chargor or debtor were references to the assignee and assignor;
- (c) to the holder of the international interest were references to the assignee; and
- (d) to the object were references to the assigned associated rights and the related international interest.

Article 35—Priority of competing assignments

1. Where there are competing assignments of associated rights and at least one of the assignments includes the related international interest and is registered, the provisions of Article 29 apply as if the references to a registered interest were

references to an assignment of the associated rights and the related registered interest and as if references to a registered or unregistered interest were references to a registered or unregistered assignment.

2. Article 30 applies to an assignment of associated rights as if the references to an international interest were references to an assignment of the associated rights and the related international interest.

Article 36—Assignee’s priority with respect to associated rights

1. The assignee of associated rights and the related international interest whose assignment has been registered only has priority under Article 35(1) over another assignee of the associated rights:
 - (a) if the contract under which the associated rights arise states that they are secured by or associated with the object; and
 - (b) to the extent that the associated rights are related to an object.
2. For the purposes of sub-paragraph (b) of the preceding paragraph, associated rights are related to an object only to the extent that they consist of rights to payment or performance that relate to:
 - (a) a sum advanced and utilised for the purchase of the object;
 - (b) a sum advanced and utilised for the purchase of another object in which the assignor held another international interest if the assignor transferred that interest to the assignee and the assignment has been registered;
 - (c) the price payable for the object;
 - (d) the rentals payable in respect of the object; or
 - (e) other obligations arising from a transaction referred to in any of the preceding sub-paragraphs.
3. In all other cases, the priority of the competing assignments of the associated rights shall be determined by the applicable law.

Article 37—Effects of assignor’s insolvency

The provisions of Article 30 apply to insolvency proceedings against the assignor as if references to the debtor were references to the assignor.

Article 38—Subrogation

1. Subject to paragraph 2, nothing in this Convention affects the acquisition of associated rights and the related international interest by legal or contractual subrogation under the applicable law.
2. The priority between any interest within the preceding paragraph and a competing interest may be varied by agreement in writing between the holders of

the respective interests but an assignee of a subordinated interest is not bound by an agreement to subordinate that interest unless at the time of the assignment a subordination had been registered relating to that agreement.

Chapter X
