Examples

Example 1

The order authorises Kāinga Ora to set a targeted rate to fund roading within a project area.

The local authority for the district in which the project area is located may set its own targeted rate to fund roading in a part of its district that is outside the project area.

Example 2

A wastewater system serves the entire district of a local authority.

The order authorises Kāinga Ora to set a targeted rate to fund the upgrade of the part of the wastewater system that serves the project area.

The local authority may set its general rate at a level that enables it to fund the general maintenance and operation of the wastewater system across its entire district, including the part of the system that serves the project area.

- (3) For the purposes of subsection (2)(b), it is sufficient evidence that 2 or more rating units of Māori freehold land are derived from the same original block of Māori freehold land if the rating units share a name in common according to the permanent record of the Māori Land Court.
- (4) If a local authority is not satisfied that the units are derived from, or are likely to have been derived from, the same block of Māori freehold land, the local authority—
 - (a) may apply to the Registrar of the Māori Land Court for a determination as to whether the rating units are derived from the same original block of Māori freehold land; and

- (b) must do so on the request of the person actually using the units.
- (5) In this section, **block** has the meaning set out in section 4 of Te Ture Whenua Maori Act 1993.

- (b) targeted rates that are set on a uniform basis and are calculated in accordance with section 18(2) or clause 7 of Schedule 3.
- (3) Subsection (2) does not apply to targeted rates that are set solely for water supply or sewage disposal.

Compare: 1988 No 97 s 25

22 Defence land

- (1) This section applies to land owned or used by the Crown as an air force base, army camp, naval establishment, or other defence area within the meaning of section 2(1) of the Defence Act 1990.
- (2) The total amount of any rates assessed under section 13(2) or section 16 must not exceed the amount of rates that would otherwise have been assessed if the rates for the district had been calculated on the land value only.

C = Uniform targeted rates for water supply or sewage disposal	21(3)	2,000	[2,000]	[20.10]%
D = All other rates		5,000	5,000	50.25%
E = Total rates	21(1)	9,950	7,950	100.00%
Percentage of total revenue from all rates				
(A + B) / E <= 30%		29.6%	37.1%
