- (3) Where before the commencement of this Act any licence has been struck off the register under the provisions of section 188 of the Mining Act 1926, and after the commencement of this Act the licence is restored to the register under the provisions of that section, the provisions of this Act shall apply with respect to the licence as if it had been registered in the office of the Mining Registrar at the commencement of this Act.
- (4) The provisions of this Act shall apply with respect to every licence granted after the commencement of this Act pursuant to—

- (a) subsection (1) of section 6 of the Mining Amendment Act 1953; or

3 Mining Registrar to investigate title to licences

- (1) As soon as conveniently may be after the commencement of this Act, every Mining Registrar shall make such inquiry as shall be necessary for the purpose of ascertaining, with respect to every licence registered at the commencement of this Act in any register kept by him under the Mining Act 1926, whether or not at the time of the inquiry, in his opinion,—
 - (a) the licence is current:
 - (b) the licence is liable to forfeiture under paragraph (e) of section 190 of the Mining Act 1926 or has been abandoned within the meaning of paragraph (e) of section 194 of that Act:
 - (c) any person, other than the registered licensee or a tenant of the registered licensee or a person occupying the same with the consent of the registered licensee, is in occupation of the land comprised in the licence or of any part of that land.
- (2) Where on any such inquiry the Registrar is satisfied with respect to any licence that at the time of the inquiry—
 - (a) it is current; and
 - (b) it is not liable to forfeiture and has not been abandoned as aforesaid; and

- (c) no person, other than the registered licensee or a tenant of the registered licensee or a person occupying the same with the consent of the registered licensee, is in occupation of the land comprised in the licence or of any part of that land,—

then, subject to the provisions of section 5, the Registrar shall issue in respect of the licence a certificate in the form in Schedule 1.

- (3) Where on any such inquiry the Mining Registrar is satisfied that the licence is current at the time of the inquiry but is liable to forfeiture or has been abandoned as aforesaid and that no person, other than the registered licensee or a tenant of the registered licensee or a person occupying the same with the consent of the registered licensee, is in occupation of the land comprised in the licence or of any part of that land, the Registrar shall apply to the Warden under the Mining Act 1926 for a decree of forfeiture or a certificate of abandonment, as the case may be, in respect of the licence. Where the Warden refuses to grant such a decree or certificate, then, subject to the provisions of section 5, the Mining Registrar shall issue in respect of the licence a certificate in the form in Schedule 1.
- (4) Where under subsection (3) the Warden grants a decree of forfeiture or a certificate of abandonment with respect to any licence, the Mining Registrar shall give notice in writing thereof to the Commissioner of Crown Lands.

4 Land occupied by person other than registered licensee

- (1) Where on any inquiry under section 3 the Mining Registrar is satisfied with respect to any licence that at the time of the inquiry—
 - (a) it is current; and
 - (b) it is not liable to forfeiture under paragraph (e) of section 190 of the Mining Act 1926 and has not been abandoned within the meaning of paragraph (e) of section 194 of that Act; and
 - (c) some person, other than the registered licensee or a tenant of the registered licensee or a person occupying the same with the consent of the registered licensee, is in occupation of the land comprised in the licence or of any part of that land,—

he shall forthwith apply to the Warden to make such order with respect to the licence as the Warden thinks necessary in the circumstances of the case, either—

- (d) confirming the title of the registered licensee to the licence; or
- (e) cancelling the licence and granting to the licensee a new licence of the same kind as the existing licence of part of the land comprised in the existing licence; or
- (f) cancelling the licence and granting to any person occupying the land comprised in the existing licence or any part of that land a new licence

of the same kind as the existing licence of the whole or such part as the Warden thinks fit of the land comprised in the existing licence; or

- (g) cancelling the licence.
- (2) On any application under subsection (1), the Warden may make any order specified in paragraphs (d) to (g) of that subsection or such other order as he considers just and equitable in the circumstances of the case.
- (3) Any new licence granted under the provisions of subsection (2) shall be for the unexpired term of the cancelled licence, at the rent payable under the cancelled licence at the date of the cancellation, and otherwise upon the conditions of the cancelled licence:
- provided that the term of every renewal to which the licensee is entitled under the new licence shall be the same as the term of every renewal to which the licensee under the cancelled licence was entitled.
- (4) A new licence may be granted under the provisions of subsection (2), notwithstanding anything in section 6 of the Mining Amendment Act 1953 or in section 2 of the Mining Amendment Act 1961.
- (5) Notice of an application to the Warden under this section shall—
- (a) in the case of a licence of unalienated Crown land (not being Maori ceded land), be served by the Mining Registrar on the Commissioner of Crown Lands, on the person in occupation of the land or of any part thereof, and also on such other persons and in such manner as the Warden directs;
 - (b) in the case of a licence of other land, be served by the Mining Registrar on the person in occupation of the land or of any part thereof and also on such other persons and in such manner as the Warden directs.
- (6) Without limiting the powers of the Warden to make any order under subsection (2), the Warden may under that subsection grant a new licence to any person occupying the whole or part of the land comprised in an existing licence, if he is satisfied that—
- (a) the occupier would, if the land were freehold land subject to the Land Transfer Act 2017, be entitled if application were made under the Trusts Act 2019 to an order vesting in him the whole or part of the land; or
 - (b) the occupier had been in possession of the land comprised in the licence, or part of that land, as the case may be, for a period of not less than 12 years and that his possession had been adverse to the title of the registered licensee; or
 - (c) it is just and equitable on any ground whatsoever that a licence be granted to the occupier of the whole or part of the land.
- (7) On any application to the Warden under subsection (1), the Warden may receive as evidence any statement, document, information, or matter that may

in his opinion assist him to deal effectually with the application, whether or not the same would be otherwise admissible in a court of law.

- (8) On any application to the Warden under subsection (1), the Warden may make such inquiries, interview such persons, and take such other steps as he considers necessary or expedient for the purpose of resolving by the agreement of all the persons concerned any question arising in the proceedings.
- (9) Where a licence in respect of which an application is made to the Warden under subsection (1) confers on the licensee a right of renewal and the licence expires before the making of an order under subsection (2), the licence shall be deemed to continue in force until the expiration of the time for appealing against the decision of the Warden or, in the event of an appeal against that decision, until the appeal has been determined. Where as a result of the decision of the Warden or, as the case may be, the decision on appeal a new licence is to be granted, that licence shall be for the same term as the renewal term provided in the expired licence and at the same rent and otherwise on the same conditions as the expired licence.
- (10) The provisions of this Act shall apply with respect to every licence granted under this section as if it were registered at the commencement of this Act, and, subject to the provisions of section 5, the Mining Registrar shall, without further inquiry, issue in respect of the licence a certificate in the form in Schedule 1.
- (11) Notwithstanding anything in the Mining Act 1926, the consent of the Minister of Energy shall not be required to the grant of any licence under this section.
- (12) Where a new licence is issued under this section to the licensee under a former licence or to an equitable owner of a former licence, the licence (whether it is in respect of the whole or part of the land in the former licence) shall be deemed to be subject to all registered encumbrances, liens, and other interests to which the former licence was subject at the date of the granting of the new licence, and for the unexpired term of the former licence shall be entitled to the benefit of all interests to which the former licence was entitled at that date, and all such encumbrances, liens, and other interests shall be preserved in the order of their existing priority.
- (13) Where a new licence is issued under this section to a person other than the licensee under a former licence or an equitable owner of a former licence, the new licence (whether it is in respect of the whole or part of the land in the former licence) shall be subject to such (if any) of the registered encumbrances, liens, and interests to which the former licence was subject at the date of the granting of the new licence as are specified in the order granting the new licence, and for the unexpired term of the former licence shall be entitled to the benefit of all interests to which the former licence was entitled at that date, and all such encumbrances, liens, and other interests shall be preserved in the order of their existing priority.

Section 4(6)(a): amended, on 30 January 2021, by section 161 of the Trusts Act 2019 (2019 No 38).

Section 4(6)(a): amended, on 12 November 2018, by section 250 of the Land Transfer Act 2017 (2017 No 30).

Section 4(11): amended, on 1 April 1978, by section 23 of the Ministry of Energy Act 1977 (1977 No 33).

5 Description of land and diagrams

- (1) Before the Mining Registrar issues a certificate in the form in Schedule 1 with respect to any licence, the Chief Surveyor of the land district in which the land comprised in the licence is situated shall make such investigations as he thinks necessary for the purpose of determining whether or not in his opinion the description of the land comprised in the licence and any diagram of the land endorsed on or attached to the original licence or duplicate original licence or certified copy licence, as the case may be, registered in the office of the Mining Registrar are reasonably sufficient to identify the land.
- (2) Where the Chief Surveyor is satisfied that the description and diagram as aforesaid are reasonably sufficient to identify the land, he shall endorse on or attach to the original licence or duplicate original licence or certified copy licence, as the case may be, registered in the office of the Mining Registrar, so as to be identifiable therewith, a certificate to that effect.
- (3) Where the Chief Surveyor is not so satisfied, he shall prepare and endorse on or attach to the original licence or duplicate original licence or certified copy licence, as the case may be, registered in the office of the Mining Registrar a description of the land or a diagram thereof, or both, reasonably sufficient in his opinion to identify the land, together with a certificate that the description and diagram are reasonably sufficient to identify the land.
- (4) For the purposes of this section, the Chief Surveyor may, by notice in writing served on the licensee, call upon him to produce for inspection by the Chief Surveyor any plan, search notes, or other document in his possession or under his control evidencing or tending to evidence in any manner the description, boundaries, extent, or position of the land comprised in the licence.
- (5) Subject to the provisions of sections 10 and 22, the description and diagram of the land comprised in any licence as certified by the Chief Surveyor under this section shall for the purposes of this Act and the Land Transfer Act 2017 be deemed to be the correct description of the land for which the licence was granted.

Section 5(5): amended, on 12 November 2018, by section 250 of the Land Transfer Act 2017 (2017 No 30).

6 Power to compel production of licences, etc

- (1) Where on making an inquiry under section 3 with respect to any licence the Mining Registrar is satisfied that—

- (a) the original licence is not filed in the office of the Mining Registrar and no duplicate original or certified copy of the licence is filed in that office; or
- (b) the original of any instrument referred to in paragraph (c) of subsection (1) of section 9 is not filed in the office of the Mining Registrar and no duplicate original or certified copy of the instrument is filed in that office; or
- (c) no sketch plan or diagram reasonably sufficient to identify the land is held in the office of the Mining Registrar,—

the Mining Registrar may require any person having in his possession or under his control the original licence or instrument, as the case may be, or any duplicate original or certified copy of the licence or instrument, or any written or printed document evidencing or tending to evidence in any manner the licence or instrument, or any sketch plan or diagram or other document evidencing or tending to evidence in any manner the boundaries or extent or position of the land, to produce the same within a reasonable time to be fixed by a notice requiring that production and indicating the particular documents or kind of documents or plans or diagrams required, and to deposit the same in the office of the Mining Registrar for such time as may be necessary to enable the Mining Registrar to make copies thereof.

- (2) The Mining Registrar may make a copy of any such document or plan or diagram and certify it as being a true copy thereof.
- (3) The Mining Registrar may require any person of any of the classes hereinafter mentioned to give any information, explanation, or evidence, in writing upon oath or otherwise, concerning the licence or instrument, or to attend at the time specified in the notice at the office of the Mining Registrar nearest to the place where that person resides, and give to the Mining Registrar that information, explanation, or evidence orally upon oath or otherwise. The classes of persons referred to in this subsection are the following:
 - (a) any person appearing from the register kept in the office of the Mining Registrar to be the owner of, or of any estate or interest in, the licence or claiming to be the owner of the licence or of any estate or interest therein:
 - (b) any person being the solicitor or agent of, and acting on behalf of, any of the aforesaid persons.
- (4) If upon a requisition in writing made by the Mining Registrar for any purpose mentioned in the foregoing provisions of this section any person without reasonable cause refuses or neglects to comply with the requisition, he commits an offence, and is liable on conviction to a fine not exceeding \$10 for every day during which the refusal or neglect has continued.

Section 6(4): amended, on 1 July 2013, by section 413 of the Criminal Procedure Act 2011 (2011 No 81).

7 Provisions as to lost or destroyed licences

- (1) Where on making an inquiry under section 3 with respect to any licence the Mining Registrar is satisfied that—
- (a) the licence is current; and
 - (b) the original of the licence is not filed in the office of the Mining Registrar and no duplicate original or certified copy of the licence is filed in that office; and
 - (c) the Mining Registrar is satisfied that by reason of the loss or destruction of the original licence and of all duplicate originals and certified copies of the licence a duplicate thereof cannot be issued under the provisions of subsection (2) of section 433 of the Mining Act 1926,—

the Mining Registrar shall serve notice on the person appearing to him to be the licensee requiring him within 3 months after service on him of the notice to apply to the Warden for the grant of a licence of the land comprised in the original licence, and advising him that if he fails to do so the licence will be cancelled at the expiration of that period.

- (2) Notwithstanding anything in section 6 of the Mining Amendment Act 1953 or in section 2 of the Mining Amendment Act 1961, the Warden, on the application of the person appearing to him to be the licensee, made within 3 months after service on that person of the notice referred to in subsection (1), or within such further period as the Warden in any special case may allow, may grant to that person a new licence of the land comprised in the original licence for the unexpired term of the original licence, at the rent payable under the original licence at the date of the application, and otherwise upon the conditions of the original licence:

provided that the term of every renewal to which the licensee is entitled under the new licence shall be the same as the term of every renewal to which the licensee under the original licence was entitled.

- (3) Subject to the provisions of subsection (2), if no such application is made within the said period of 3 months, the licence shall be deemed to be cancelled at the expiration of that period, and the Mining Registrar shall make an entry in his register that the licence has been cancelled under this subsection:

provided that, if under subsection (2) the Warden extends the time within which an application may be made under that subsection, the licence shall thereupon be deemed to be revived.

- (4) If on any such application the Warden refuses to grant a new licence, the original licence shall thereupon be deemed to be cancelled. The Registrar of the Warden's Court shall notify the Mining Registrar of the refusal of the Warden to grant a new licence, and the Mining Registrar shall make an entry in his register that the licence has been cancelled under this subsection.

- (5) Where a licence in respect of which an application is made to the Warden under subsection (2) confers on the licensee a right of renewal and the licence expires before the making of an order under that subsection, the licence shall be deemed to continue in force until the expiration of the time for appealing against the decision of the Warden or, in the event of an appeal against that decision, until the appeal has been determined. Where as a result of the decision of the Warden or, as the case may be, the decision on appeal a new licence is to be granted to the applicant, that licence shall be for the same term as the renewal term provided in the expired licence and at the same rent and otherwise on the same conditions as the expired licence.
- (6) Every new licence granted under this section shall be deemed to be subject to all registered encumbrances, liens, and other interests to which the original licence was subject at the date of the granting of the new licence, and for the unexpired term of the original licence shall be entitled to the benefit of all interests to which the former licence was entitled at that date, and all such encumbrances, liens, and other interests shall be preserved in the order of their existing priority.
- (7) Notwithstanding anything in the Mining Act 1926, the consent of the Minister of Energy shall not be required to the grant of a licence under this section.
- (8) The provisions of this Act shall apply with respect to every licence issued under this section as if it were registered at the commencement of this Act, and, subject to the provisions of section 5, the Mining Registrar shall, without further inquiry, issue in respect of the licence a certificate in the form in Schedule 1.

Section 7(7): amended, on 1 April 1978, by section 23 of the Ministry of Energy Act 1977 (1977 No 33).

8 Appeal against Warden's decision

Any person aggrieved by a decision of the Warden under section 4 or section 7 may appeal against that decision to the High Court. The provisions of the Mining Act 1926, as far as they are applicable and with the necessary modifications, shall apply with respect to every such appeal as if it were an appeal to which section 366 of that Act applied.

Section 8: amended, on 1 April 1980, pursuant to section 12 of the Judicature Amendment Act 1979 (1979 No 124).

9 Mining Registrar to forward licences, etc, to District Land Registrar

- (1) Where a certificate in the form in Schedule 1 has been issued in respect of any licence under section 3, the Mining Registrar shall forward to the Registrar-General of Land—
 - (a) the licence or, as the case may require, the duplicate original or certified copy thereof filed in the office of the Mining Registrar; and

- (b) the certificate in the form in Schedule 1 issued in respect of the licence; and
- (c) all original instruments, duplicate original instruments, or certified copies of instruments held in the office of the Mining Registrar pursuant to the Mining Act 1926 or any former Mining Act, being current transfers or transmissions or leases or mortgages or encumbrances or other dispositions of or dealings with the licence or any interest therein or any part thereof:

provided that, where any such document is also a grant of a mining privilege that is not a licence within the meaning of this Act or is also a disposition of or dealing with any such mining privilege, the Mining Registrar, instead of forwarding to the Registrar-General of Land the document filed in the office of the Mining Registrar, shall forward a copy thereof certified by him to be a true copy.

- (2) Where the Mining Registrar has, under the provisions of subsection (1), forwarded to the Registrar-General of Land any original licence or duplicate original licence or certified copy of a licence,—
 - (a) he shall give to the licensee written notice thereof and of the provisions of sections 15 and 16, and also, in the case of a licence comprising any unalienated Crown land (not being Maori ceded land), of section 18; and
 - (b) he shall give written notice thereof to the Commissioner of Crown Lands and to every person having any estate or interest in the land comprised in the licence that is evidenced by the licence or by any memorial endorsed thereon.

Section 9(2): amended, on 12 November 2018, by section 250 of the Land Transfer Act 2017 (2017 No 30).

10 Registration of licences under Land Transfer Act

- (1) Despite anything in the Land Transfer Act 2017, the Registrar-General of Land must, without fee, issue a record of title under that Act for every licence forwarded to him or her by the Mining Registrar under the provisions of section 9.
- (2) Every licence brought under the Land Transfer Act 2017 pursuant to this Act shall continue to be subject to all registered encumbrances, liens, and other interests subsisting at the date when the licence is brought under that Act, and shall continue to be entitled to the benefit of all interests to which the licence was entitled at that date; and all such encumbrances, liens, and other interests shall be preserved in the order of their existing priority, and shall thereafter, notwithstanding variation in form, be dealt with as if the same or corresponding interests had been originally created under the Land Transfer Act 2017; and every dealing therewith shall imply all powers, conditions, and covenants incidental to dealings in the like form with land under the Land Transfer Act 2017.

- (3) Where any licence has been brought under the Land Transfer Act 2017 pursuant to this Act, all dealings with or transmissions of the licence shall be made in a form acceptable for registration under the Land Transfer Act 2017, and shall in all respects be subject thereto:

provided that any instrument (being a dealing with or transmission of any such licence) that might have been registered in the office of the Mining Registrar under the provisions of the Mining Act 1926 and the regulations thereunder if this Act had not been passed may, if the instrument bears date before, or within 6 months after, the date on which the licence is brought under the Land Transfer Act 2017 pursuant to this Act, be registered under the Land Transfer Act 2017, notwithstanding that it is not an instrument in one of the forms prescribed by the last-mentioned Act.

- (4) If the Registrar-General of Land has created a record of title for a licence of land that is not properly defined by survey or cannot for any other reason be fully described, the Registrar-General may record in the record of title that the title is qualified as described in section 17(1)(a) of the Land Transfer Act 2017.

- (5) *[Repealed]*

- (6) No person claiming any estate or interest in any licence by virtue of any instrument that might have been registered against that licence under the Mining Act 1926 or any former Mining Act shall have any claim or action against the Crown by reason of the deprivation of that estate or interest consequent upon the bringing of that licence under the Land Transfer Act 2017 pursuant to this Act, unless that instrument had been so registered or unless the Mining Registrar has been served personally with notice in writing of the estate or interest claimed, or has had actual personal knowledge thereof, and has omitted to recognise the same.

- (7) Subject to the provisions of this Act, the provisions of the Land Transfer Act 2017, as far as they are applicable and with the necessary modifications, shall apply with respect to any licence brought under that Act as if the licence were a lease of land subject to that Act.

11 New licences issued on subdivision of land in existing licence

Where after the commencement of this Act new licences are issued under the provisions of section 4 of the Mining Amendment Act 1941 on a subdivision of the land comprised in any licence, then—

- (a) in any case where at the time of the issue of the new licences the original licence had not been registered under the Land Transfer Act 2017 pursuant to this Act,—

- (2) Subject to the provisions of sections 21 and 23, the proprietor of any residence area grant (not being a grant of land that is subject to the Westland and Nelson Coal Fields Administration Act 1877) shall be entitled at any time before 1 April 1968 to acquire the fee simple of the land comprised in the grant at a purchase price fixed by the Director-General of Lands.
- (3) The provisions of subsections (4) to (8) of section 18 shall apply with respect to the acquisition under this section of the fee simple of the land comprised in a residence area grant as if references in those subsections to a licence and to the licensee were references to a residence area grant and to the proprietor of a residence area grant, respectively.

- (b) the land comprised in any residence area grant is subject to the Westland and Nelson Coal Fields Administration Act 1877,—

provided that the rental value of the land for the purposes of the renewable lease and of each renewal thereof and the rent payable thereunder shall be fixed by the Director-General of Lands.

- (7) Where before the commencement of this Act the proprietor for the time being of a residence area grant has (whether as of right or not) subdivided the land comprised in the grant and has transferred to any other person his interest in part of the land comprised in the grant, that person shall be deemed for the purposes of this section to be the proprietor of a residence area grant in respect of that part of the land as if such a grant had been duly made to him, and shall be entitled to exercise the powers conferred by subsections (2) and (4) in respect of that part accordingly.
