- (2) If necessary, to give effect to an agreement relating to a Treaty settlement or the NHNP Act, the Crown must—
 - (a) take all necessary steps within the Crown's authority to introduce a Bill to the House of Representatives that—

Requiring authorities

12 Provisions relating to requiring authorities

- (2) However, subclause (1) does not prevent an applicant that is a network utility operator as defined in section 2(1) of the Resource Management Act 1991 from making a new application for approval as a requiring authority under that Act.
- (3) If an application has been approved under section 513 of the Natural and Built Environment Act 2023, the following provisions apply:

Compliance and enforcement

13 Provisions relating to compliance and enforcement

- (1) If a consent authority has not determined an application for a resource consent under section 104 of the Resource Management Act 1991 lodged before the commencement date, the consent authority may—
 - (a) consider any non-compliance by the applicant as if section 104 included section 286(5) of the Natural and Built Environment Act 2023 in respect of the applicant's non-compliance; and
 - (b) require the applicant to provide financial assurance as if section 104 of the Resource Management Act 1991 included sections 674 to 691 of the Natural and Built Environment Act 2023, and as if the consent authority were the NBE regulator.

- (4) Proceedings commenced in the Environment Court or the District Court under section 661 of the Natural and Built Environment Act 2023 (which relates to the suspension or revocation of a resource consent), but not determined before the commencement date, may be determined as if that Act had not been repealed and any orders made by the court have full effect accordingly.
- (5) An abatement notice served under section 322 of the Resource Management Act 1991 before the commencement date must be treated as if that section included section 649(1)(d) or (e) of the Natural and Built Environment Act 2023 and that notice remains as valid as when it was made and may be enforced as an abatement notice under the Resource Management Act 1991.
- (6) Without limiting anything in the Legislation Act 2019, any action taken or proceedings commenced before the commencement date in respect of an offence

under section 701(1)(c) of the Natural and Built Environment Act 2023 (which relates to the offence of contravening a condition of a resource consent) may be completed or determined as if that Act had not been repealed.

- (7) In relation to any breach or alleged breach of the Resource Management Act 1991 committed between 24 August 2023 and the commencement date, section 338(4) of that Act (which relates to the limitation period for offences) applies as if “12 months” were read as “2 years”.
- (8) A local authority may require a person to pay any reasonable costs of, or incidental to, monitoring or enforcing the person’s compliance with the Natural and Built Environment Act 2023 (such as the costs of its investigations, inspections, monitoring, and actions required to avoid, minimise, or remedy adverse effects of the person’s activities) incurred by the authority as an NBE regulator between 24 August 2023 and the commencement date, as if section 722 of that Act had not been repealed.
- (9) In this clause, **NBE regulator**—
 - (a) means a local authority and the EPA, when acting under this Part; and
 - (b) includes any public service agency empowered under any Act to exercise or perform any functions, powers, or duties of an NBE regulator under this Part.

Affected resource consents

14 Provisions relating to affected resource consents

- (1) This clause applies to an application for an affected resource consent (as that term was defined in clause 38 of Schedule 12 of the Resource Management Act 1991) applied for under section 88 or 124 of that Act on or after 24 August 2023 and before the commencement date.
- (2) If the consent authority has not notified the applicant of its decision on the application in accordance with sections 114 and 115 of the Resource Management Act 1991 before the commencement date, the consent authority must determine the duration of the consent in accordance with that Act.
- (3) If the application for an affected resource consent was applied for under section 124 of the Resource Management Act 1991 (as was provided for in clause 41 of Schedule 12 of that Act) on or after 24 August 2023 and before the commencement date, and the consent authority has not notified the applicant of its decision on notification in accordance with section 95 of the Resource Management Act 1991 before the commencement date, sections 95A to 95G of that Act apply to that decision.
- (4) Subject to subclauses (2) and (3), the application must be determined in accordance with Part 6 of the Resource Management Act 1991.
