Explanatory note

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations, which come into force on 1 January 2020, amend the Climate Change (Stationary Energy and Industrial Processes) Regulations 2009 (the **principal regulations**). These regulations replace table 10 in Schedule 2 of the principal regulations to—

- update the default emissions factors for classes of mined or purchased natural gas to take account of changes in gas emissions; and
- add the Radnor gas field to the classes of natural gas defined by reference to the field at which they are mined.

Regulatory impact assessment

The Ministry for the Environment produced a regulatory impact assessment on 15 August 2019 to help inform the decisions taken by the Government relating to the contents of this instrument.
