### Statement of reasons

**Note: the following statement of reasons should be read in conjunction with the statement(s) of reasons appended to:**

- **Financial Markets Conduct (Financial Reporting and Other Relief—COVID-19) Exemption Notice 2020**

This notice comes into force on 31 March 2020 and is revoked on 30 March 2025.

The notice exempts certain custodians of eligible restricted schemes from the requirement in regulation 87 of the Financial Markets Conduct Regulations 2014 (the **Regulations**) to obtain an assurance engagement from an auditor that covers the assurance engagement matters specified in regulation 88 of the Regulations.

A scheme is an eligible scheme for the exemption if, during the relevant period,—

- its custodian is a body corporate that directly holds all of the scheme property; and
- the custodian or all of the custodian's directors are trustees of the scheme; and
- all administration of the scheme with respect to the holding of scheme property, in addition to all keeping of scheme property records under section 158(1) of the Financial Markets Conduct Act 2013 (the **Act**), is contracted to a single, New Zealand-based administration manager at any given time; and

- no more than 5% of the scheme property consists of investments falling outside particular New Zealand, Australian and European asset classes.

In order for the custodian to benefit from the exemption, each administration manager with respect to the holding of scheme property during the relevant period must—

- provide the custodian with regular reports; and
- obtain an assurance engagement from an auditor that covers certain matters similar to those specified in regulation 88 of the Regulations; and
- prepare a certificate confirming various details regarding the administration manager's role, the scheme's bank accounts, and the investment of scheme property.

The assurance report and certificate must be provided to the custodian and copies must be forwarded to the Financial Markets Authority (the **FMA**), and to the scheme manager if different from the custodian.

If the assurance report is qualified, the custodian will not be able to rely on the exemption for the scheme again until certain steps have been taken to resolve the reasons for the qualification or the custodian has complied with regulation 87 of the Regulations for a subsequent period.

The FMA, after satisfying itself as to the matters set out in section 557 of the Act, considers it appropriate to grant the exemption because—

- all restricted scheme custodians are required under the Act and the Regulations to obtain custodian assurance engagements; and
- where the performance of all administration functions and relevant record-keeping functions with respect to the holding of scheme property is contracted to an administration manager, the custodian assurance engagement is in practice supplemented by an assurance engagement obtained by the administration manager that assesses functions performed by the administration manager; and
- in that case, the information contained in the administration manager's assurance engagement report about the controls in place to protect scheme property, accompanied by the certificate required by the exemption, is sufficient to provide reasonable assurance regarding custody of the scheme's property, and so the benefits of requiring the custodian to obtain a custodian assurance engagement are outweighed by the costs; and
- the exemption is conditional on a copy of the administration manager's assurance engagement report and certificate being given to the FMA; and
- as such, the FMA is satisfied that the granting of the exemption is desirable in order to promote the purposes of the Act. Specifically, it will ensure that appropriate governance arrangements apply to financial products that allow for effective monitoring and reduce governance risks, while avoiding unnecessary compliance costs; and
- given that the exemption is only available in relation to a class of restricted schemes for which the benefits of obtaining a custodian assurance engagement

are outweighed by its costs, the FMA is satisfied that the exemption is not broader than is reasonably necessary to address the matters that gave rise to it.
