In lieu of paying compensation the Board may purchase land injuriously affected by its operations.

6. The Board may, on any land vested in it, construct such roads, streets, drains, sewers, and watercourses as it may deem necessary, and, on such construction in compliance with the requirements of any local authority within whose jurisdiction such roads or streets may be situate, may dedicate such roads or streets as public roads or streets, and such roads or streets shall thereupon become roads or streets of the local authority in whose district they are situate.
