PART 13

TRANSITIONAL PROVISIONS

*Risk Management Programmes*

5     **161. Existing businesses have until 1 November 2002 to register risk management programme**—(1) Except as provided in **section 164** in the case of certain fishing vessels, nothing in **Parts 1 to 10** requires any existing animal product business to operate under a registered risk management  
10 programme at any time before 1 November 2002.

(2) Despite **subsection (1)**, once an existing business that was subject to the Meat Act regime or the Apiaries Act regime as at the commencement of **Part 2** has had a risk management programme registered under that Part in respect of all or any  
15 part of its business operations—

(a) **Part 2** and all the other relevant provisions of **Parts 1 to 10** apply, and will continue to apply, in respect of those operations; and

(b) Those operations must continue to be carried out in  
20 accordance with **Part 2** and all other relevant requirements of **Parts 1 to 10**, without the opportunity to revert to being subject to the Meat Act regime or the Apiaries Act regime.

25     **162. Application for registration should be made at least 3 months before 1 November 2002**—(1) Where an animal product business has applied for registration of a risk management programme at least 3 months before 1 November 2002, the Director-General must take all reasonable steps to ensure that registration of the programme  
30 can occur before 1 November 2002, provided the programme was properly submitted in a reasonable form.

(2) Nothing in **subsection (1)** requires the Director-General to register a risk management programme before 1 November 2002 in any case where—

35     (a) The risk management programme was not properly submitted in accordance with **sections 15 to 18**, or is seriously deficient; or

*New (Unanimous)*

(b) Any delay in registration of the programme is primarily attributable to any act or omission of the person submitting the programme for registration.

**163. New businesses**—Except in the case of a fishing vessel to which **section 164** applies, any business or operations that start as a new animal product business after the commencement of **Part 2** are subject to that Part, and must operate under a registered risk management programme in accordance with that Part.

**164. Certain foreign-owned fishing vessels have 12-month period in which to register risk management programme**—(1) This section applies to animal product operations carried out on foreign-owned New Zealand fishing vessels (as defined in section 2 (1) of the Fisheries Act 1983) of a kind that are exempt from licensing under the Fish Export Processing Regulations 1995 by virtue of regulation 21 (1) of these regulations.

(2) Nothing in **Parts 1 to 10** requires any such operations to be carried out under a registered risk management programme at any time before the expiry of the period of 12 months following the commencement of **Part 2**, but, after the expiry of that period, such operations may be carried out only to the extent that—

(a) The operations are covered by an appropriate risk management programme registered under **Part 2**, or a regulated control scheme made under **Part 3**; or

(b) The operations are specifically exempted (whether individually or as a class) from the requirement to have a risk management programme.

**165. Meat Act and Apiaries Act regimes cease to apply to operations covered by registered risk management programme or regulated control scheme**—Where any operation of an animal product business subject to the Meat Act regime or the Apiaries Act regime has become subject to a risk management programme registered under **Part 2 of the Animal Products Act 1998** or a regulated control scheme made under **Part 3 of that Act**, or is specifically exempted by or under **that Act**,

*New (Unanimous)*

whether individually or as a class, from the requirement to be carried out under a registered risk management programme, then—

- 5 (a) Nothing in those regimes applies to that operation once the risk management programme is registered or the regulated control scheme or exemption takes effect, except to the extent that—
- 10 (i) Regulations made under **section 174** or **section 221** specifically apply any requirement of or under the relevant regime to such an operation; or
- (ii) Part IIIA of the Meat Act 1981 continues to apply in respect of cost recovery matters (but subject to **section 173A**); and
- 15 (b) **Parts 1 to 10** apply in respect of the operation accordingly; and
- (c) As specified in **section 161 (2) (b)**, an operation may not revert to being subject to the Meat Act regime or the Apiaries Act regime once it has been subject to a
- 20 registered risk management programme.

*Regulated Control Schemes*

**166. Regulated control schemes**—(1) Any regulated control scheme imposed under **Part 3** takes effect and applies according to its tenor on and from the date specified in the

25 regime.

(2) Where there is any conflict between the provisions of a regulated control scheme and those of the Meat Act regime or the Apiaries Act regime, the provisions of the regulated control scheme prevail.

30 *Animal Product Standards and Specifications*

**167. Animal product standards and specifications**—

(1) Subject to **subsection (2)**, any animal product standards and specifications made under **Part 4** take effect and apply according to their tenor.

35 (2) Such animal product standards and specifications do not apply in respect of any animal product businesses or operations that are still subject to the Meat Act regime or the Apiaries Act regime by reason of not being covered by a registered risk management programme or a regulated control scheme (or a

*New (Unanimous)*

specific exemption from the requirement to have a risk management programme), unless the standards or specifications specifically state that they apply to businesses or operations subject to the Meat Act regime or the Apiaries Act regime (as the case may be). 5

*“Regulated Animal Product” Equivalence*

**167A. Equivalence of animal product produced under either regime**—For the purposes of **Parts 1 to 10**, any animal product that is produced under and in compliance with the Meat Act regime (or, as the case may be, the Apiaries Act regime) is to be treated as equivalent to animal product, at the comparable stage of processing, produced under and in compliance with **Parts 2 to 4**. 10

*Export of Animal Products* 15

**168. Exporters must register within 6-month transitional period**—(1) Nothing in **Parts 1 to 10** requires any person to be registered as an exporter under **Part 5** until the expiry of the period of 6 months commencing on **1 November 1999**, and no person commits an offence against **those Parts** by reason merely of a failure to register as an exporter before the expiry of that period. 20

(2) Despite **subsection (1)**, a person may not apply for, or be issued, an official assurance under **Part 5** unless the person is registered as an exporter under that Part (or is deemed to be registered under **subsection (3)** of this section, or is exempt from registration under **section 48**). 25

(3) For the 6-month period commencing on **1 November 1999**, the following persons are deemed to be registered as exporters under **Part 5**, but their registration ceases on the expiry of **30 April 2000** unless they earlier register under **that Part**: 30

(a) Persons who, as at **31 October 1999**, held a current licence granted or renewed under the Fish Export Licensing Regulations 1982:

(b) Persons who, as at **31 October 1999**, held a current export licence issued or renewed under section 22 of the Meat Board Act 1997: 35

*Cost Recovery*

**172. Fees, charges, and levies**—(1) The fees and charges  
specified in **Schedule 5** are payable in respect of the matters  
specified in that schedule, until superseded by regulations  
10 made under **Part 8** or under **section 174** (and also subject to  
**section 173A**).

(2) The levies specified in **Schedule 6** are payable in respect of  
the matters specified in that schedule by persons operating  
under a registered risk management programme in respect of  
15 operations under that programme, until superseded by  
regulations made under **Part 8** or under **section 174** (and also  
subject to **section 173A**).

(3) The fees, charges, and levies specified in **Schedules 5 and 6** are  
payable—

20 (a) On the making of the relevant application or on  
performance of the relevant service, as the case may  
require; or

(b) Within 10 days, or within such longer period as the  
Director-General may allow, after receipt of a  
25 demand for the appropriate amount from the  
Director-General.

(4) For the purposes of providing a transition to the charging  
of fees, charges, and levies by regulations made under **Part 8**,  
regulations made under that Part, or under **section 174**, may  
30 repeal or amend any fee or charge or levy specified in **Schedule 5**  
or **Schedule 6**, or any matter in respect of which a fee or charge or  
levy is specified in those schedules.

(5) Where there is any shortfall or over-recovery of costs for  
any industry sector in respect of any period at whose expiry a  
35 fee, charge, or levy specified in **Schedule 5** or **Schedule 6** ceases to  
apply by reason of being superseded by regulations made  
under **Part 8** or **section 174**, that shortfall or over-recovery may be  
taken into account in setting, under **Part 8** or **section 174**, the  
relevant fee, levy, or charge that is to apply for any subsequent

*New (Unanimous)*

period to that industry sector or any relevant part of that industry sector.

(6) The Director-General may grant an exemption from, or waive or refund, any fee, charge, or levy specified in **Schedule 5 or Schedule 6**, in whole or in part, in any particular case or class of cases. 5

(7) Except as otherwise specifically provided in those schedules in relation to fees and levies determined on an hourly basis or on the basis of the number of animals involved in a relevant activity, the amounts specified in **Schedules 5 and 6** are inclusive of goods and services tax. 10

**173. Part IIIA of Meat Act 1981 continues to apply until regulations otherwise provide, etc—**(1) Part IIIA of the Meat Act 1981 (as amended by **Part 14** of this Act) continues to apply to plants under the Meat Act regime until the close of **31 October 2002** in respect of the recovery of inspection costs, but subject to **section 173A** and to regulations made under **Part 8** or under **section 174**. 15

(2) For the purposes of providing a transition to the charging of fees, charges, and levies by regulations made under **Part 8**, regulations made under **that Part** or under **section 174** may repeal or amend all or any of the provisions of Part IIIA of the Meat Act 1981, and any related provisions of that Act. 20

(3) Any such regulations may make different provision for different animal material or products or classes or description of animal material or product, and provide for a graduated transition of different animal material or products, or classes or description of animal material or products, from the charging regime in Part IIIA of the Meat Act 1981 to the charging regime under **Part 8 of this Act**. 25 30

(4) For the purpose of avoiding any shortfall or over-recovery of costs in respect of any season or period at whose expiry the cost recovery regime under Part IIIA of the Meat Act 1981 will cease in respect of any plant or plants,— 35

(a) The Director-General may negotiate with the manager of the plant for a variation in charges in relation to the plant; and

*New (Unanimous)*

**173A. Avoidance of application of 2 separate cost recovery regimes in respect of single plant—**

(1) The purpose of this section is to avoid, as far as practicable, the application of 2 separate cost recovery regimes in respect of a  
30 single plant (a “double-regime plant”) that is both—

(a) Subject to cost recovery by way of contract under Part IIIA of the Meat Act 1981 in respect of any part of its operations; and

(b) Also subject to cost recovery under the **Animal Products Act 1998** in respect of any other part of its operations  
35 (other than cost recovery in respect of any regulated control scheme).

(2) For the purposes of this section, any contract under Part IIIA of the Meat Act 1981 may, by agreement between the  
40 Director-General and the plant manager, provide that the costs

*New (Unanimous)*

to be recovered in respect of operations at a double-regime plant are to be recovered—

(a) By applying the cost recovery regime of the Animal Products Act **1998** (including **Schedules 5 and 6**) to the whole of the animal product business at the plant (with any appropriate modifications that may be needed to provide for the application of comparable costs); or

(b) By applying the cost recovery regime of Part IIIA of the Meat Act 1981 to the whole of the animal product business at the plant (except to the extent of any fees and charges payable under **Part 1 of Schedule 5**);—

(c) The contract must specify any modifications that may be necessary to allow for the proper application of those fees, charges, or levies (such as deeming services provided by the Ministry under the Meat Act 1981 to be equivalent to verification or other services or related functions performed by the Ministry under the Animal Products Act **1998**); and

(d) The contract then has effect according to its tenor, and the fees, charges, and levies concerned (including any amendments of those fees, charges, and levies) apply in relation to the plant (with the necessary modifications) as if it were subject to the cost recovery provisions of the Animal Products Act **1998**.

(4) Where under **subsection (2) (b)** the contract applies the cost recovery regime of Part IIIA of the Meat Act 1981 to all the animal product business operations of a double-regime plant,—

- (5) For the purpose of facilitating agreement under this section, the Director-General must notify the 2 options set out in subsection (2) to any person who applies for registration of a risk management programme that will cover operations at a double regime plant, and give the applicant (or plant manager, if different) at least 20 working days within which to specify which option the applicant prefers (if any).
- (6) If the Director-General and the plant manager fail to agree on an option set out in subsection (2) within such time after the expiry of the period of 20 working days as the Director-General may allow,—
- (a) No such option will apply; and  
(b) The 2 separate cost recovery regimes relate to the operations subject to them at the plant concerned according to their tenor.
- (7) The provisions of a contract to which this section relates may at any time be modified, or reversed to change to the other cost recovery regime, by agreement between the Director-General and the plant manager.
- (8) This section ceases to apply to any plant, and the cost recovery regime of the Animal Products Act 1998 applies to the whole animal product business at the plant,—

35 (b) On 31 October 2002; or
