

CHILDREN'S HEALTH CAMPS BOARD DISSOLUTION BILL

AS REPORTED FROM THE HEALTH COMMITTEE

COMMENTARY

Recommendation

The Health Committee has examined the Children's Health Camps Board Dissolution Bill and recommends that it be passed with the amendments shown in the bill.

Conduct of the examination

The Children's Health Camps Board Dissolution Bill was referred to the Health Committee on 30 June 1999. The closing date for submissions was 30 July 1999. We received and considered seven submissions from interested groups and individuals. We heard three submissions orally. Hearing evidence took one hour and twelve minutes and consideration took thirty minutes.

We received advice from the Ministry of Health.

This commentary sets out the details of our consideration of the bill and the major issues we addressed.

Background

The aim of children's health camps is to promote and protect the health and development of children and young people (aged between 5 and 13 years). The services are designed to address multiple difficulties and needs including health, emotional, mental and/or behavioural disturbances. There are currently seven permanent health camps established in New Zealand. Children may be referred solely for health specific conditions or for multiple difficulties or non-health related reasons.

The Children's Health Camp Movement has taken part in the health sector reforms to ensure that modern child health care and development services are delivered. However, expansion has been frustrated by the inflexible legislative framework set out in the Children's Health Camps Act 1972. In 1994 the Ministry of Health (the ministry) commissioned a review of the Act to identify options for

reform. A private charitable trust structure was the option preferred by the Children's Health Camps Board (the Board) and was supported by the ministry. The Board has subsequently developed a Trust Deed which sets out the charitable purposes of the Children's Health Camps—The New Zealand Foundation for Child and Family Health and Development (the Foundation), acknowledges their commitment to the Treaty of Waitangi, defines the membership of the Foundation, accountability for the governance and management of the Foundation, and the role of local camp committees. The Trust Deed was signed on 31 March 1999, the Foundation was registered on 25 May 1999 and the initial Foundation Board members have been selected.

Purpose

The bill aims to revoke the Children's Health Camps Act 1972, and instead provide for the incorporation of the Board as a private charitable trust. The present governance and administrative structure of the children's health camps is prescribed by the 1972 Act. It defines the powers, functions and composition of a national Board, and local camp and district committees. The Act restricts the scope of services to residential care, and has outdated provisions for referral and admission to camps.

A charitable trust framework provides the necessary flexibility for the organisation to continue to support improved health, social and behavioural outcomes through innovative services for children whose circumstances put them at risk. The bill provides for the transfer of the Board's assets and liabilities to the new Foundation.

Committee's consideration and recommended amendments

Redrafting of provisions

We recommend the replacement of clause 1(2), clauses 2 to 11, and the schedules. The reasons for substituting these new provisions are primarily technical in nature. Substituting the new provisions facilitates the use of capitals for the terms "Camp Committee", "District Committee", "Foundation" and "Fund". The use of capitals is consistent with the usage of these terms in the Children's Health Camps Act 1972. The changes also enable the correction of an obsolete reference to District Land Registrars, the addition of further consequential amendments to the Health (Retention of Health Information) Regulations 1996, and the addition of some items to schedule 1 (which deals with repeals). Other more substantive changes are discussed below.

Date the legislation comes into force

Clause 1 provides that the legislation comes into force on the day after it receives the Royal assent. The Children's Health Camps Board submitted that as the annual reporting year for the Board is from 1 April to 31 March, it would be appropriate for it to come into force on 1 April 2000, so that the Act takes effect from the start of their new financial year.

We support the Board in its preference for the bill to come into effect on 1 April 2000 and recommend the bill be amended accordingly.

Definition of "Foundation"

Clause 2 defines the terms used in the bill. This includes the definition of "Foundation". However, as the Trust Deed has been signed by all the Foundation Board members, the definition of "Foundation" needs to be changed to refer to

the charitable trust established by deed dated 31 March 1999. We recommend new clause 2 incorporate this amendment.

Date final report from the Board is due

New clause 6 provides that as soon as reasonably possible after the commencement date, the Board must complete its final report. The bill required that the report describe the Board's operations for the period beginning on 1 July immediately preceding the commencement day of the Foundation. The Board requested that the period for which it must write its final report instead commence on 1 April immediately before the commencement day, in order to be consistent with the Board's financial year. We agree and recommend new clause 6 incorporate this amendment.

Protection of the children's health camps emblem

New clause 14 preserves the emblem of the King George the Fifth Memorial Children's Health Camps Federation as the emblem of the Foundation. The clause prohibits the use of the emblem for commercial purposes without prior consent. The bill prescribes a fine not exceeding \$200 for every person who breaches this provision. However, we consider that a fine of this size is an inadequate deterrent. Accordingly, new clause 14 increases the size of a fine for this offence to a sum not exceeding \$2000.

Trust Deed

As the Trust Deed has now been signed, new clauses 10 and 11 have been recommended to provide a link between the bill and the provisions contained in the Trust Deed. New clause 10 provides that the appointment and terms of office for Foundation trustees must comply with the deed. New clause 11 lists a number of provisions which must be contained within the deed.

Funding of health camp schools

Representatives from the Otaki Children's Health Camp Committee and the Otaki Health Camp School Board of Trustees were concerned that funding from the Ministry of Education for health camps schools may be reduced. The schools are co-located with each of the seven health camps. The schools and co-located camps provide programmes that complement each other, ensuring the children consistent input throughout their time at camp.

While we acknowledge that this issue is outside the scope of the bill we were also concerned at the suggestion that resourcing may be reduced for the schools. We consider that a reduction in funding for the schools would have serious implications for children attending health camps. Accordingly we requested a written assurance from the Ministry of Education that it would continue to fund the health camp schools. The Ministry of Education has provided written assurance that, if any change is proposed, it will consult with the Children's Health Camps Foundation about the nature and timing of those changes. However, the Ministry of Education cannot give an undertaking that current structures and levels of resourcing will remain unchanged, as methods of education provision and levels of resource provision are a matter for Government policy. We note that the submitters were supportive of the intent of the bill despite their concerns about funding.

Conclusion

We support the purpose and intent of the bill to allow the Board a more flexible governance framework within which to manage its affairs in a responsible, efficient manner. The bill will enable the children's health camps to focus their

services more intensively on children and their families in local community and home settings. This focus is consistent with the priorities detailed in the child health and Strengthening Families strategies. We consider that the charitable purposes of the trust established are consistent with the philosophy of the Children's Health Camps movement, which we fully support, and with improving outcomes for children.
