

RESERVES AND OTHER LANDS DISPOSAL BILL

EXPLANATORY NOTE

THIS Bill deals with various matters relating to Crown land, reserves, and other land held for public purposes.

Clause 1 specifies the Short Title.

Clause 2: In 1919 the land to which this clause relates, situated in the Opotiki County, was provisionally set aside on a plan of subdivision as a road reserve. Under the law then in force, a subsequent transfer to the Crown was necessary to give effect to the reserve. This was never done, and the registered proprietor died in 1954. The effect of the clause is to vest the land in the Opotiki County Council as a road reserve. The trustees of the estate of the proprietor have consented to the transaction.

Clause 3: By virtue of the Westland and Nelson Coal Fields Administration Act 1877, the income from the land to which this clause relates (being the Westport Colliery Reserve) is an endowment for the improvement of the Port of Westport. The land is leased to various tenants under the provisions of that Act. The effect of the clause is to extinguish the endowment and, subject to the rights of existing lessees, to repeal section 17 of the 1877 Act (which applies to the leasing of the land) and confer on lessees the rights to renew their leases under the Land Act 1948, and also options to purchase in accordance with that Act.

Clause 4: By virtue of the Westport Harbour Act 1884, the income from the land to which this clause relates (being Crown land known as the Buller Coal Field Reserve) is an endowment for the Westport Harbour purposes. The effect of the clause is to extinguish the endowment.

Clause 5: The land to which this clause relates (being part of Maud Island in the Marlborough Sounds) is a Sounds Foreshore Reserve subject to section 17 of the Reserves and Other Lands Disposal Act 1955, which confers (inter alia) rights of access on the public. The effect of the clause is to exclude the application of that section. This is desired for the better protection of flora and fauna on the land.

Clause 6: This clause relates to the Cromwell Aerodrome Reserve. It corrects misdescriptions of the land in section 4 of the Reserves and Other Lands Disposal Act 1974, which created the reserve.

Clause 7: This clause relates to the Westland National Park. A portion of the Park has been formed and sealed as part of State Highway No. 6, without proper authority. The effect of the clause is to exclude that portion from the Park.

Clause 8: This clause relates to the Mount Aspiring National Park. A portion of that Park has been formed and sealed as part of State Highway No. 6 without proper authority. The effect of the clause is to exclude this portion, and a second area which includes the site of the Aspiring Hut and is not in any case a readily identifiable part of the Park, from the Mount Aspiring National Park.

Clause 9: The purpose of this clause is to revoke the setting apart as State forest of the various parcels of land specified in the clause.

Clause 10: This clause relates to land in Rotorua which consists partly of a portion of the Pukeroa Domain and partly of a hospital reserve. The land is subject to the control of the Minister of Tourism, but is in fact used by the Waikato Hospital Board for the purposes of the King George V Memorial Hospital. The effect of the clause is to revoke the vesting of control of the land in the Minister of Tourism, to make all of the land a recreation reserve, and to incorporate it in an existing lease to the Waikato Hospital Board of similar land under section 23 of the Reserves and Other Lands Disposal Act 1940.

Clause 11: This clause relates to a portion of the Waiohine Valley Road. Following a realignment of that road many years ago, parts of the road that were no longer needed were incorporated in certificates of title of adjacent land, and other land was incorporated in the road. These measures were never formally authorised. The effect of the clause is to close the parts of the road that are no longer required, and to validate the issue of the certificates of title in respect of those parts. It also provides that the areas that were incorporated into the road shall be deemed to have been duly declared to be road.

Clause 12: This clause relates to land vested in the Canterbury Provincial Buildings Board. Its effect is to empower the Board, subject to the consent of the Minister of Finance, to borrow money on the security of the land.

Clause 13: This clause relates to land in New Plymouth held in trust for botanic garden and public recreation purposes. The land was intended to form part of Pukekura Park, but has never been used as such and is not suitable for the purpose. It is at present leased to various tenants. The effect of the clause is to empower the New Plymouth City Council, which holds the land, to offer to lessees options to purchase the land leased by them, subject to the proceeds being applied for the purposes of the Taranaki Botanic Garden Act 1876.

Clause 14: This clause relates to a flora and fauna reserve and a wildlife sanctuary at Farewell Spit. The status of the areas was established specially by the Reserves and Other Lands Disposal Act 1938. Farewell Spit is designated for international purposes as a wetland of international importance; the effect of the clause is, for the better control of the 2 areas, to declare them to be not subject to the 1938 Act.

Clause 15: This clause relates to the Tokaora road reserve in southern Taranaki. The area concerned was held in trust by the Hawera County Council for those purposes, but following the deviation of the road and the exhausting of a metal pit on the land, it was considered that the reserve had ceased to be useful. Consequently the County Council entered into 2 contracts for its sale. In pursuance of the contracts, one parcel has already been transferred to the purchaser and the Council has obtained a clear title to the

other parcel. The actions of the Council were undertaken without proper legal authority, and the effect of the clause is to validate and authorise the transactions.

Clause 16: This clause relates to endowment lands of the University of Otago which are administered on behalf of the university by the Land Settlement Board and are presently leased to various persons. The university desires, in order to obtain funds for capital projects, to offer lessees the right to purchase the freehold estates in their lands. The effect of the clause is to empower the sale of the lands to the lessees, either for cash or on deferred payment licences, in accordance with the conditions set out in the clause.

Clause 17: This clause relates to land of the Te Puna-Topu-O-Hokianga Trust. The Trust wishes to lease the land to the Crown to be used as a reserve under the Reserves and Domains Act 1953 for a term of 999 years, but the maximum term that is permitted under the existing law is 42 years. The effect of the clause is to authorise the longer term. The lease will be surrendered if it ceases to be required as a reserve, and the approval of the Maori Land Court will be required to the other conditions of the lease.

Clause 18 requires District Land Registrars to do everything necessary to implement the provisions of the Bill.

Hon. V. S. Young
