

STATISTICS BILL

EXPLANATORY NOTE

THIS Bill consolidates and amends the Statistics Act 1955.

Clause 1 relates to the Short Title to the Bill.

Clause 2 defines terms used in the Bill. The term "Minister" is redefined on the assumption that a portfolio of statistics will be created.

PART I

OFFICIAL STATISTICS

Clause 3 provides that official statistics shall be collected to provide information required by the Executive Government of New Zealand, Government Departments, local authorities, and businesses, for the purposes of making policy decisions and to facilitate the appreciation of economic, social, demographic, and other matters of interest to the said Government, Government Departments, local authorities, businesses, and to the general public. The clause also provides that, in order to co-ordinate as effectively as possible, and to render most useful, official statistics produced, and to avoid unnecessary duplication of requests for information, all official statistics shall be subject to the provisions of this Part of this Bill, except where an exemption is specifically made by regulations made under the Bill or by the Minister in writing.

Clause 4 prescribes in detail the matters which may be covered by official statistics.

Clause 5 imposes a duty on the permanent head or principal administrative officer of each Government Department to inform the Statistician of details of official statistics for which his Department is responsible. Provision is made for the waiver or relaxation of this requirement.

Clause 6 requires the approval of the Minister in respect of all statistical surveys and alterations thereof. Provision is made for the Minister to waive or relax this requirement. The position of existing official statistics is not affected unless and until the Minister decides otherwise.

Clause 7 provides for the periodic review by the New Zealand Statistician of the collection, compilation, analysis, abstraction, and publication of official statistics prepared by his own Department and by other Government Departments.

No. 170—1

Price 25c

Clause 8 provides that statistics may be collected by means of the statistical procedure known as sampling, in place of a full enumeration, where the use of that method is considered appropriate.

Clause 9 makes provision for the joint collection of statistics by the New Zealand Statistician and other Government Departments or local authorities.

Clause 10 provides that the Statistician may hold meetings, and set up committees, of statisticians, suppliers or users of statistics, and other interested parties. The Statistician is required, at least every 5 years, to convene a meeting of users of official statistics to review user needs for such statistics.

Clause 11 declares that it shall be the duty of all persons who undertake to collect or compile official statistics to comply with the provisions of Part I of the Bill and of such other clauses of the Bill as are applicable to them.

PART II

DEPARTMENT OF STATISTICS AND NEW ZEALAND STATISTICIAN

Clause 12 provides that there shall be a Department of State to be called the Department of Statistics.

Clause 13 provides for the appointment under the State Services Act 1962 of the New Zealand Statistician who shall be the administrative head of, and control, the Department of Statistics, and have such functions, duties, and powers as are conferred or imposed on him by the Bill or any other Act.

He must however collect and produce, or cease collection and production of, statistics of a kind contemplated by the Bill if directed by the Minister so to do, but in such a case, if without such a direction he would not have produced or ceased production of those statistics, he may publish without comment that the statistics have been collected and published, or that collection and publication has ceased, at the direction of the Minister.

Clause 16 provides that the Statistician shall, as soon as practicable after the close of each financial year, furnish to the Minister a report on the administration of the Bill during the financial year. The report must be laid by the Minister before Parliament.

Clause 17 provides for the appointment of the Deputy New Zealand Statistician, and specifies the circumstances in which he may exercise the powers, duties, and functions of the New Zealand Statistician.

Clause 18 provides that there shall from time to time be appointed under the State Services Act 1962 such other employees of the Department as may be required for the purpose of carrying out the provisions of the Bill.

Clause 19 makes provision for the appointment of such enumerators, sub-enumerators, interviewers, agents, and other persons as may be necessary to collect for the Department such statistics and information as are authorised by the Bill.

Clause 20 provides that any document purporting to be signed by or on behalf of the Statistician and giving notice that any employee of the Department named therein is acting under the authority of the Statistician or setting forth any instructions to any employee of the Department named therein shall, unless the contrary is proved, be sufficient evidence of that authority or those instructions, and that the document was signed or addressed as it purports to be.

Clause 21 provides for the making of statutory declarations of secrecy by employees of the Department and employees of other Government Departments engaged in the collection and processing of official statistics.

PART III

Clause 35 gives the Statistician and any employee of the Department authorised by him the right to enter any factory, farm, mine, workshop, office, or place of business for the purpose of making inquiries or observations necessary for obtaining authorised statistics. The Statistician and any such employee are also authorised to require any person who, by reason of his office, would normally be expected to have the custody of any books of account, vouchers, documents, or other business records to produce the same for inspection. It is a defence for the person to prove that he did not have the custody of the same at the time of the requisition and did not subsequently acquire the custody thereof.

Clause 36 provides that, where necessary to determine precisely the specifications of goods the price or description of which is material to the exercise of his duties under the Bill, the Statistician may make test purchases of the goods.

Clause 37 sets out a detailed code providing for security of information in connection with statistical information supplied to the Statistician.

Clause 38 provides that, except in respect of a prosecution under this Bill, no return made pursuant to this Bill and no copy of a schedule or return in the possession of the respondent shall be disclosed or used as evidence in any proceedings whatever, and no person who has completed a statutory declaration under the Bill shall be compellable in any proceedings whatever to give oral testimony regarding the return or to produce any return, document, or record with respect to any information obtained in the course of administering the Bill.

(3) At a suitable time after the Proclamation made under
35 subsection (2) of this section the Statistician shall publish, by advertisement in such newspapers as may appear to the Statistician to be sufficient for notifying the public of New Zealand, the date of the census, the place where advice and guidance related to the census may be sought, and the names
40 and addresses of enumerators and sub-enumerators in the vicinity from whom schedules may be obtained if they have not been delivered.

Cf. 1955, No. 45, s. 21

24. Particulars to be collected at census—(1) At every census of population and dwellings particulars relating to all of the following matters shall be obtained from every occupier or person in charge of a dwelling:

and to retain any schedule until it is collected from him by the sub-enumerator for his district or in accordance with an arrangement of which he has been notified, and the fact that any schedule was not delivered at his dwelling shall be no

26. Duty of occupier and other persons abiding in dwelling—(1) It shall be the duty of every occupier or

40 properly endorsed on the envelope and he has been unable after reasonable endeavours to have these particulars completed by the respondent.

(4) Where a dwelling is occupied by 2 or more persons jointly, the duty imposed on the occupier or person in charge as to the furnishing of the particulars of the dwelling schedule for the census of population and dwellings shall lie upon the occupiers or persons in charge severally, save that the performance of the duty of the occupier or person in charge by one of the joint occupiers or persons in charge shall discharge the obligation of the other or others. 5

(2) Delivery at any dwelling or part of a dwelling of any schedule purporting to be issued under this Act, and having thereon a notice requiring that it be filled in and signed
30 within a stated time by the occupier of that dwelling or part of a dwelling, or in his absence by some other member of the household, shall, as against the occupier, be a sufficient requirement so to fill in and sign the schedule, and if so required in the notice, to post the schedule within a stated time to the
35 Department, whether or not the occupier is specifically named in the schedule or personally served therewith.

(3) Delivery at the factory, farm, mine, workshop, office, or place of business or other activity of any person, or his agent, or the occupier thereof of any schedule purporting to be

(5) If the Statistician publishes by advertisement in the *Gazette*, and in such newspapers as may appear to the Statistician to be sufficient for notifying the persons concerned, a list of any classes or descriptions of undertakings in relation to which returns will be required for the purposes of a particular census under this Act, it shall be the duty of the person in charge of each undertaking of any such class or description as aforesaid, who has not received a schedule under section 30 of this Act, to inform the Statistician within such period, being not less than 21 days after the date of publication of the advertisement, as may be specified therein, that such an undertaking as aforesaid exists, and to give the Statistician such prescribed particulars of the undertaking as may be so specified.

32. Furnishing of information required in schedules—Every person from whom particulars for the purposes of any statistical inquiry may lawfully be required pursuant to this Act shall, to the best of his knowledge, when required so to do by the Statistician, or by any employee of the Department authorised in writing by or on behalf of the Statistician, fill in and supply, in accordance with the instructions contained in or accompanying or having reference to any schedule, the particulars specified in that schedule, and, where the form of the schedule contains any certificate or declaration by the person filling in the schedule, shall complete and sign that certificate or declaration in accordance with those instructions.

(2) Where any person is prosecuted for failure to produce any books of account, vouchers, documents, or other business records when required so to do under paragraph (b) of sub-

(2) Notwithstanding anything in any other Act, no person, other than an employee of the Department who has made the statutory declaration specified in section 21 of this Act, shall be permitted to see any completed or partly completed individual schedule or any answer to any question put, except for the purposes of a prosecution or a proposed prosecution for an offence against this Act. 10

(3) It shall be a principle to be followed in the publication of statistics to arrange, wherever possible, statistical tables in such a manner as to prevent any particulars published in the tables from being identifiable by any person (other than the person by whom the particulars were supplied) as particulars relating to any particular person or undertaking, unless that person or the owner of that undertaking has consented to their publication in that manner, or has already permitted their publication in that manner, and for that purpose the Statistician shall make such office rules as he considers necessary. 15 20 25

(4) No part of a completed individual schedule, and no individual answer to any question put for the purposes of this Act, shall be separately published or be communicated to any undertaking or to any person other than an employee of the Department who has made the said statutory declaration: 30

Provided that the Statistician may authorise the following information to be disclosed:

- (5) Notwithstanding subsection (4) of this section,—
- (a) The particulars of any information collected jointly with a Government Department or local authority pursuant to an agreement under section 9 of this Act and information collected under any enactment other than this Act and processed by the Department of Statistics may be communicated to the Government Department or local authority which was a party to the collection of the information:
- 10
- (b) When an appropriate officer of another Government Department requests information from individual schedules for bona fide research or statistical purposes pursuant to the functions and duties of that Government Department under any Act, the Statistician may agree to such an arrangement subject to the names and addresses of the persons who have supplied the information being deleted from the schedules and the Statistician taking such steps as are necessary to ensure that—
- 15
- (i) The schedules are used solely for research or statistical purposes, and to this end the Government Department concerned shall be governed by any direction from the Statistician pursuant to this section:
- 20
- (ii) The security of the information is not impaired:
- 25
- (iii) The published results do not divulge any more information than the Statistician could publish pursuant to this Part of this Act:
- 30
- (iv) The persons involved in the research or statistical projects make the statutory declaration specified in section 21 of this Act:
- 35

(c) Documents relating to individual schedules which have been the subject of an agreement between the Statistician and the Chief Archivist and classified as historical documents may be released to the Archivist by the Statistician after a period of 100 5 years.

(6) In respect of the statistical information which the Statistician collects pursuant to this Act, where such information from individual schedules, worksheets, or any other confidential source is to be copied or recorded by means of 10 cards, tapes, discs, wires, films, or any other method, whether using encoded or plain language symbols for the processing, storage, or reproduction of particulars, the Statistician is hereby empowered to take and shall take such steps as are necessary to ensure that the security provisions in this Act are 15 complied with.

Cf. 1955, No. 45, s. 18

38. Information is privileged—Except in respect of a prosecution under this Act, no return made pursuant to this Act and no copy of a schedule or return in the possession of 20 the respondent shall be disclosed or used as evidence in any proceedings whatever, and no person who has completed a statutory declaration under section 21 of this Act shall be compellable in any proceedings whatever to give oral testimony regarding the return or to produce any return, document, or record with respect to any information obtained in 25 the course of administering this Act, except in the manner provided by this Act.
