(3) At such public sitting the Licensing Authority shall hear all evidence tendered and representations made which it deems relevant to the subject-matter of the application, save that at any time during such sitting it may decide not to receive further evidence or representations.

(4) Any such sitting may, in the discretion of the Licensing Authority, be adjourned from time to time and from place to place.

26. (1) In considering any application for a passenger-service license the Licensing Authority shall generally have regard to—

Matters to be considered before determining applications for licenses.

(a) The extent to which the proposed service is necessary or desirable in the public interest; and

(b) The needs of the district or districts as a whole in relation to passenger-transport,—

and if it is then of opinion that the proposed service is unnecessary or undesirable it shall refuse to grant a license.

(2) If after having had regard to the matters mentioned in the last preceding subsection the Licensing Authority proposes to give further consideration to the application, it shall take into account—

(c) The financial ability of the applicant to carry on the proposed service, and the likelihood of his carrying it on satisfactorily:

(d) Time-tables or frequency of the proposed service:

(e) The fares proposed to be charged or made for the carriage of passengers:

(f) The transport services of any kind, whether by land or water, already provided in respect of the localities to be served and in respect of the proposed routes:

(g) The transport requirements of such localities, including such requirements in respect of the carriage of mails:

(h) The vehicles proposed to be used in connection with the service:

(i) The conditions of roads and streets to be traversed on the route or routes, and any restrictions of load or speed, or other lawful restrictions affecting vehicles of the type or class proposed to be used, including restrictions arising out of the classification of roads and streets under section one hundred and sixty-six of the Public Works Act, 1928:

(j) Any evidence and representations received by it at the public sitting, and any representations otherwise made by the Government Railways Board, local authorities, or other public bodies, or any persons carrying on transport services of any kind (whether by land or water) likely to be affected, and

any representations contained in any petition presented to it signed by not fewer than twenty-five adult residents of any locality proposed to be served :

Provided that before taking into consideration any adverse representations made otherwise than at the public sitting the Licensing Authority shall give the applicant and all other persons likely to be affected a reasonable opportunity to reply to such representations. 5

(3) The Central Authority in considering any application shall also take into account any representations made to it by the Licensing Authority of any district through any part of which the service is to be carried on. 10

(4) Notwithstanding anything contained in the foregoing provisions of this section, no Licensing Authority otherwise empowered in that behalf by this Act shall grant any passenger-service license authorizing the holder thereof to carry passengers whose journey both begins and ends within any district the Licensing Authority of which is a Metropolitan Authority unless such Metropolitan Authority consents to the granting of such license. 15

Preference for applications by Government and local authorities and other public bodies in certain cases.

27. Every application by or on behalf of the Government, or the Government Railways Board, or a local authority, or other public body for a passenger-service license shall be given preference over all other applications for such licenses if— 20

(a) There is no existing transport service over the route or routes mentioned in such application ; and 25

(b) The proposed service is in extension of an existing transport service carried on by the applicant (whether such existing service is carried on by passenger-service vehicles or not), or, where the applicant is a local authority or other public body carrying on a transport service, is a new service to be carried on wholly within the district of such local authority or other public body ; and 30

(c) The Licensing Authority is satisfied that the proposed service will not unfairly compete with an existing service to the same locality or localities by another route ; and 35

(d) The Licensing Authority is satisfied that the proposed service will be satisfactory, having regard to time-tables, frequency of service, and otherwise, and that the proposed fares are reasonable.

Granting or refusal of license.

28. (1) Save as otherwise provided in this section, and subject to appeal as hereinafter in this Act provided, the Licensing Authority may, after duly considering an application therefore, grant or refuse a passenger-service license. 40

(2) A passenger-service license shall not be refused if the applicant satisfies the Licensing Authority that the application is for a license for a service solely in substitution for an existing tramway service which the applicant has been duly authorized to discontinue. 45

(3) A passenger-service license shall not be refused in any case where the applicant (having made his application before the appointed day) satisfies the Licensing Authority—

(a) That at the passing of this Act and at the date of his application the applicant was carrying on, pursuant to a 50

1135

license under the Motor-omnibus Traffic Act, 1926, the service in respect of which the application is made ; or

- 5 (b) That on the *first* day of April, nineteen hundred and *thirty-one*, and continuously thereafter until the date of his application, the applicant was, otherwise than pursuant to a license under the Motor-omnibus Traffic Act, 1926, lawfully carrying on the service in respect of which the application is made, and that such service was not carried on in competition with a licensed motor-omnibus service ;
- 10 or
- (c) That the applicant, being a person lawfully carrying on a passenger-service in competition with a licensed motor-omnibus service, had established such passenger-service before the passing of the Motor-omnibus Traffic Act, 1926, and had continuously carried on such service from its establishment until the date of his application ; or
- 15 (d) In the case of an application for a license in respect of a seasonal service, that the applicant lawfully and continuously carried on substantially the same service during the two seasons immediately preceding the appointed day, or where that day falls in such a season that the applicant is then uninterruptedly carrying on such service and substantially so carried it on during the whole of the immediately preceding season :

25 Provided that no such service shall be deemed to have ceased to be continuously carried on by reason of any interruption by flood, closing of roads or streets, or any other cause whatever beyond the control of the applicant.

30 (4) Notwithstanding anything contained in the *two last preceding* subsections the Licensing Authority in granting a license to any person in respect of a service mentioned therein shall have the same power of imposing terms and conditions as it has under this Act with respect to any other passenger-service.

35 29. Every passenger-service license shall be—

- (a) A continuous license—meaning thereby a license in respect of a service to be carried on throughout the year, whether daily or on specified days of every week, or otherwise at regular intervals, or a license in respect of special events recurring at intervals during the year ; or
- 40 (b) A seasonal license—meaning thereby a license in respect of a service to be carried on only during a period or periods of the year specified in the license ; or
- (c) A temporary license—meaning thereby a license for a service to be carried on for a specified period of not more than
- 45 seven days or a license for any specified special occasion or occasions.

- (g) Such other matters and conditions as may be prescribed by regulations under this Act, or as the licensing authority thinks proper.

(2) Where desirable in the public interest the Licensing Authority may so fix the fares and time-tables as to prevent wasteful competition with alternative forms of transport of any kind (if any), and may impose such conditions as it thinks fit to ensure that passengers shall not be taken up or shall not be set down, except at specified points, or shall not be taken up or shall not be set down between specified points. **15**
