2. The Council may pursuant to a special order in that behalf grant to the company a right or easement for such period not exceeding fifty years and on such terms and conditions as the Council may think fit authorizing the company to construct and from time to time to replace and on the completion of such construction to keep and maintain an overhead bridge from the aforesaid Block 80 over and across Queen Street aforesaid to the aforesaid Block 81, together with such piers or supports therefor in the said street as the Council shall approve, and also to equip and use the said bridge (whether original or substituted) when completed.
