Mr. ISITT, in Committee, to move the following new clause:—

Special provisions
as to appeals by
teachers.

A. On any appeal under section eighteen of the Military Service Act, 1916, by or on behalf of any person, being a professor or lecturer in any university or college, or a teacher in any educational institution (whether under State control or not), on the ground that the calling-up of the appellant for military service under that Act is contrary to the public interest, the Military Service Board hearing the appeal shall allow the same unless it is satisfied that the calling-up of the appellant will not adversely affect the efficiency of such university, college, or institution as aforesaid, or be detrimental to the welfare of the pupils or students in attendance thereat.
