

consent authority, when considering an application for resource consent for a controlled or restricted discretionary activity in the area to consider the relevant objectives as if they were matters specified in the plan or proposed plan over which the local authority has reserved its control or has restricted the exercise of its discretion. These amendments are to ensure that consideration of the objectives is limited to those that are relevant to the particular consent application.

The other amendment to subclause (1) introduces a new paragraph (b) which requires the consent authority to consider the objectives having regard to any relevant policies in the regional and district plans. This amendment will help ensure that the relationship between the objectives of the Bill and the policies in the statutory plans is explicit. It will therefore provide additional clarity in the application and interpretation of clause 13.
