P. G. MILLEN,
 Clerk of the Executive Council.

EXPLANATORY NOTE

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations vary the fees for the examination of drawings of specified boilers, pressure vessels, and pressurised piping systems by providing a new scale of fees payable where the capacity or internal volume of the boiler, vessel, or piping system exceeds 10 m³. The scale now has steps at 50 m³, 100 m³, and 1000 m³ and the rate per cubic metre reduces as the size of the boiler, vessel, or piping system increases. The previous fee for examination of drawings of boilers, vessels and piping systems was at a single rate for every cubic metre of capacity or volume in excess of 10 m³.

Issued under the authority of the Regulations Act 1936.
