EXPLANATORY NOTE

[This note is not part of the regulations, but is intended to indicate their general effect.]

These regulations make miscellaneous amendments to the Board of Trade (Wheat and Flour) Regulations 1944.

Regulation 2 amends the definition of f.a.q. milling wheat. Previously any such wheat was required to be not less than 61 lb. to the bushel measure. In future the Committee will prescribe the appropriate weight in cases where that is considered necessary.

Regulation 3 increases, by $\frac{1}{4}$ d. a bushel, broker's commission on f.a.q. milling wheat.

Regulation 4 provides for a time limit within which claims in respect of damage to crops shall be lodged by growers.

Regulations 5, 6, and 7 provide for a quota of flour to be allocated to the Committee itself. Previously a monthly quota of flour permitted to be sold was allocated to each mill. A quota will be allocated to the Committee and in turn made available to millers as the situation demands.

Regulation 8 raises, by 1d. a ton, the limit of the levy on flour payable to the Committee.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 25 March 1954.

These regulations are administered in the Department of Industries and Commerce.
