EXPLANATORY NOTE

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations amend the Dangerous Drugs Regulations 1951.

Regulations 2, 3, 4, and 8 add a new and alternative form of drug register, which may be used by all licensees.

Regulation 5 amends the provisions of the principal regulations as to the entries to be made in the Ward Book on receipt of supplies from the hospital store or dispensary.

Regulation 6 brings the principal regulations into line with the Food and Drug Regulations 1946 and the Poisons (General) Regulations 1937 by revoking the provision requiring chemists to report to a Medical Officer of Health any prescriber who defaults in giving prompt written confirmation of prescriptions given orally for dangerous drugs.

Regulation 7 adds the names of certain drugs and preparations to the list of dangerous drugs to which the Dangerous Drugs Act 1927 and the principal regulations apply.

The effect of regulation 9 is that the preparations mentioned in that regulation are partially exempted from the operation of the regulations, once those drugs are in the hands of chemists, doctors, dentists, veterinary surgeons, hospitals, or approved institutions for the care of the sick or aged.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 14 February 1957.
