EXPLANATORY NOTE

This note is not part of the direction, but is intended to indicate its general effect.

This direction provides for deletions from and additions to the list of pharmaceutical requirements in Part II of the Drug Tariff 1979. Deleted items do not in all cases disappear from the list, as they are sometimes added again in a varied form. Some of the items added are:

Trade Name	Official Name
Adalat capsules (Retail Pharmacy—specialist)	Nifedipine capsules
Canesten solution	Clotrimazole solution
Selexid tablets (Hospital Pharmacy)	Pivmecillinam hydrochloride tablets

The direction makes 3 other amendments to the Tariff. First, it revokes the provision enabling a separate payment to be made in respect of special containers (such as ointment tubes and dropper bottles). Secondly, it allows for doses of oral liquid pharmaceutical requirements to be made up to quantities that are multiples of 5 ml. Thirdly, the penalty for late claims is increased from 10 percent to 20 percent.

Issued under the authority of the Regulations Act 1936.
Date of notification in *Gazette*: 19 February 1981.
This notice is administered in the Department of Health.
