EXPLANATORY NOTE

This note is not part of the direction, but is intended to indicate its general effect.

This direction makes 3 changes to the provisions of the Drug Tariff 1984.

First, it provides for contractors to be reimbursed with the cost of a full tube, or number of tubes, of an ointment or cream packed in a collapsible tube, if the amount prescribed does not coincide with that of an original pack or number of original packs. Secondly, it requires that orders for supplies of buprenorphine hydrochloride on a bulk supply order or a practitioner's supply order are to be made on the special controlled drugs forms supplied by the Department of Health.

Thirdly, the direction provides for deletions from and additions to the list of pharmaceutical requirements in Part II of the Schedule to the Drug Tariff 1984. Deleted items do not in all cases disappear from the list, as they are sometimes added again in a varied form. Some of the items added are:

<i>Trade Name</i>	<i>Official Name</i>
