DAVID CAYGILL,
Minister of Health.

EXPLANATORY NOTE

This note is not part of the direction, but is intended to indicate its general effect.

This direction has 2 broad effects.

First, clauses 5, 8, and 9, which come into force on 1 February 1989, require a reduction of the payment by the Department to contractors of \$5 per prescription item, or \$2 in the case of prescriptions for those classes of person referred to in regulation 4 or regulation 5 of the Social Security (Medical Fees) Regulations 1986. There will be complete exemptions where a person has already obtained a maximum of 25 prescription items in a calendar year, or a "family group" has obtained 40 prescription items in a calendar year. A "family group" must include children who are eligible for the family benefit. Prescribed contraceptives will attract the \$2 reduction.

Secondly, with effect from 1 January 1989, it makes minor amendments to, and also provides for deletions from and additions (including laxatives and antihistamines) to the list of pharmaceutical requirements in Part II of the Schedule to the Drug Tariff 1987. Some deleted requirements have not disappeared, as they have been added again in a varied form.

Some requirements added are:

<i>Trade Name</i>	<i>Official Name</i>
Androcur	Cyproterone acetate
Axid	Nizatidine capsules
Imovane	Zopiclone
Mycostatin Pastilles	Nystatin
Tilcotil suppositories	Tenoxicam
Zovirax tablets 400 mg	Acyclovir.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 1 December 1988.

This direction is administered in the Department of Health.
