## EXPLANATORY NOTE

*This note is not part of the notice, but is intended to indicate its general effect.*

This notice relates to the allocation of squid quotas to commercial fishermen for squid taken by any method outside the Southern Islands Area. Of the total allowable catch of 21 823 tonnes, 18 949 tonnes has already been allocated, and under this notice a further 1558 tonnes is allocated.

The allocation to Skeggs is increased by 1183 tonnes from 1543 tonnes to 2726 tonnes.

A new allocation of 375 tonnes is made to United Fisheries Limited.

As the total allowable catch was increased by 1183 tonnes by the Fisheries (1986-87 Commercial Quotas) Regulations 1986, Amendment No. 1 (S.R. 1987/110), the effect of these allocations on the unallocated quota available for competitive fishing is to reduce that unallocated quota by 375 tonnes, from 1691 tonnes to 1316 tonnes.

There is no change to the allocation of quota for the Southern Islands Area.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 9 April 1987.

This notice is administered in the Ministry of Agriculture and Fisheries.
