EXPLANATORY NOTE

[*This note is not part of the regulations, but is intended to indicate their general effect.*]

These regulations declare Lake Waingata to be a fisheries experimental water, and are made under section 91A of the Fisheries Act 1908 (as enacted by section 4 of the Fisheries Amendment Act 1953), which provides that, on the application of the acclimatization society concerned, a water may be set aside as a fisheries experimental water, and thereupon special conditions may apply.

These regulations prohibit fishing in the lake except pursuant to a special permit issued by the Secretary for Marine, or by the Hobson Acclimatization Society acting on behalf of the Secretary, and then only upon the special conditions set out in the permit.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 7 October 1954.

These regulations are administered in the Marine Department.
