- (4) The Waimakariri River above Hamilton's Hut approximately one third of a mile above Woodstock, or any tributary of that part of that river:

*Faunistic Reserve*

- (f) Lake Marion and tributaries of Lake Marion are hereby declared a faunistic reserve, and the special provisions of regulation 98 of the Freshwater Fisheries Regulations 1951 shall apply to those waters accordingly.

6. The Freshwater Fisheries Regulations (North Canterbury) Modification Notice 1961\* is hereby revoked.

Dated at Wellington this 30th day of July 1963.

R. G. GERARD, Minister of Marine.

## EXPLANATORY NOTE

*This note is not part of the notice, but is intended to indicate its general effect.*

Except as varied by Modification Notices of local application, the Freshwater Fisheries Regulations 1951 provide, *inter alia*, that—

- (a) The *limit bag*, which is the maximum number of acclimatised fish that may be taken by one person in one day computed from midnight to midnight, shall be 50:
- (b) The *size limit*, which is the minimum size of fish that may lawfully be taken, measured from tip of nose to tip of tail, shall be 6 in. for trout and salmon. Undersized fish must be released unharmed and are not reckoned in the limit bag:
- (c) Only artificial or natural fly, insect, worm, crustacea, or fish are lawful lures or baits for acclimatised fish. Shellfish (mollusca) and fish roe are illegal. Not more than two lures or baits may be used. Artificial flies, which include feathered lures, must have only one hook. In waters restricted to fly no weight or loaded lure is permitted. Any weight must be fixed above any lure or bait and, with artificial minnow (which includes spoon), at least 15 in. above:
- (d) The duration of the *open season* for acclimatised fish is from 1 October to 30 April.

This notice modifies the provisions of the general regulations in the North Canterbury Acclimatisation District by limiting the number of salmon or trout that may be taken in specified waters, increasing the size limit in certain waters, restricting the lures and methods of fishing that may be used in certain waters, and restricting the operation of the open season in certain waters.

The notice also declares Lake Marion and its tributaries to be a faunistic reserve where the provisions of regulation 98 of the Freshwater Fisheries Regulations 1951 shall apply

---

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 1 August 1963.

These regulations are administered in the Marine Department.
