EXPLANATORY NOTE

This note is not part of the notice, but is intended to indicate its general effect.

Except as varied by Modification Notices of local application, the Freshwater Fisheries Regulations 1951 provide, *inter alia*, that—

- (a) The *limit bag*, which is the maximum number of trout or salmon that may be taken by 1 person in 1 day computed from midnight to midnight shall be 50:
- (b) The *size limit*, which is the minimum size of trout or salmon that may lawfully be taken, measured from tip of nose to tip of tail, shall be 15 cm. Undersized fish must be released unharmed and are not reckoned in the limit bag:
- (c) Only artificial or natural fly, insect, worm, crustacea, or fish are lawful lures or baits for acclimatised fish. Shellfish (mollusca) and fish roe are illegal. Not more than 2 lures or baits may be used. Artificial flies, which include feathered lures, must have only 1 hook. In waters restricted to fly no weight or loaded lure is permitted. Any weight must be fixed above any lure or bait and, with artificial minnow (which includes spoon), at least 38 cm above:
- (d) The duration of the *open season* for acclimatised fish is from 1 October to 30 April.

This notice modifies the provisions of the general regulations in the North Canterbury Acclimatisation District by limiting the number of salmon or trout that may be taken, increasing the size limit, restricting the methods of fishing that may be used in certain waters, restricting the operation of the open season in certain waters and extending the open season in other waters.

The notice also declares Lake Marion and its tributaries to be a faunistic reserve where the provisions of regulation 98 of the Freshwater Fisheries Regulations 1951 (which prohibit all fishing) shall apply.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 26 June 1975.

This notice is administered in the Ministry of Agriculture and Fisheries.
