Dated at Wellington this 21st day of June 1979.

DUNCAN MACINTYRE,

In the place of the Minister of Agriculture and Fisheries.

EXPLANATORY NOTE

This note is not part of the notice, but is intended to indicate its general effect.

Except as varied by Modification Notices of local application, the Freshwater Fisheries Regulations 1951 provide, *inter alia*, that—

- (a) The *limit bag*, which is the maximum number of trout or salmon that may be taken by 1 person in 1 day computed from midnight to midnight, shall be 50:
- (b) The *size limit*, which is the minimum size of fish lawfully takeable, measured from tip of nose to tip of tail, shall be 15 cm for trout and salmon. Undersized fish must be released unharmed and are not reckoned in the limit bag:
- (c) Only artificial or natural fly, insect, worm, crustacea, or fish are lawful lures or baits for acclimatised fish. Shellfish (mollusca) and fish roe are illegal. Not more than 2 lures or baits may be used. Artificial flies, which includes feathered lures, must have only 1 hook. In waters restricted to fly, no weight or loaded lure is permitted. Any weight must be affixed above any lure or bait and, with artificial minnow (which includes spoon), at least 38 cm above:
- (d) The duration of the *open season* for acclimatised fish is from 1 October to 30 April.

This notice modifies the provisions of the general regulations in the Otago Acclimatisation District by reducing the limit bag, increasing the size limit, restricting the methods that may be used in certain waters, dispensing with a close season in certain waters, and prohibiting fishing in certain places during the open season.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 28 June 1979.

This notice is administered in the Ministry of Agriculture and Fisheries.
