

THE FOREST PRODUCE IMPORT AND EXPORT REGULATIONS 1966

BERNARD FERGUSSON, Governor-General

ORDER IN COUNCIL

At the Government House at Wellington this 20th day of July 1966

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL

PURSUANT to the Forests Act 1949, His Excellency the Governor-General, acting by and with the advice and consent of the Executive Council, hereby makes the following regulations.

REGULATIONS

PART I—PRELIMINARY

1. (1) These regulations may be cited as the Forest Produce Import and Export Regulations 1966.

(2) These regulations shall come into force on the 1st day of December 1966.

(3) These regulations are arranged in Parts as follows:

Part I—Preliminary.

Part II—Inspection of forest produce being imported.

Part III—Treatment of injurious imported forest produce and quarantine.

Part IV—Inspection of forest produce to be exported.

Part V—Offences and penalties.

Part VI—Miscellaneous provisions.

2. (1) Subject to the provisions of subclause (2) of this regulation and unless the context otherwise requires, in these regulations words and expressions defined in the Forests Act 1949 shall have the meanings so defined.

(2) In these regulations, unless the context otherwise requires,—

“Conservator” means,—

(a) In relation to any imported forest produce, the Conservator of Forests for the conservancy in which is situated the port or other place of entry of the forest produce; and

(b) In relation to any forest produce which is to be exported, the Conservator of Forests for the conservancy in which is situated the port or other place from which the forest produce is to be exported:

“Exporter” includes the owner, or consignor, or the agent for the owner or consignor, of any forest produce which it is intended to export:

“Exotic timber” means timber of a tree of a species which is not a native of New Zealand:

“Forest produce” means timber, timber produce, the produce of trees, and dunnage; but does not include any living tree or plant or any part thereof suitable for propagation or any tree seed or wood wool:

“Import” includes introduction within the outer limits of the territorial sea of New Zealand; and, in relation to any forest produce, the period of importation implied by the word “import” shall include the period between the time of the arrival of the forest produce within the outer limits of the territorial sea of New Zealand and the time when the importer disposes of the forest produce by any means whatsoever:

“Importer”, in relation to any forest produce which is imported or is intended to be imported into New Zealand, means the owner, consignee, or agent for the owner or consignee of the forest produce:

“Indigenous timber” means timber of a species which is native to New Zealand:

“Infection” means any sign of any insect, fungus, bacterium, or virus in any of the life stages of those organisms that may be injurious to or cause an unhealthy condition in any tree, tree seed, timber, or timber product:

“Quarantine ground” includes any place or area in which forest produce may be detained by direction of a Quarantine Officer:

“Quarantine Officer” means a person appointed to act as a Quarantine Officer under regulation 3 hereof:

“Wooden cable drum” means any reel or drum wholly or partly constructed of wood used or intended for the transport or storage of cable or wire rope; and includes all cores, sides, battens, stands, braces, stops, and other accessories and parts attached to or accompanying any such reel or drum.

(3) In these regulations a reference to a numbered form is a reference to the form so numbered in the First Schedule to these regulations.

3. The Minister may from time to time appoint any Forest Officer or other suitable person to act as a Quarantine Officer for the purposes of these regulations, and every Quarantine Officer so appointed shall have all the powers and authorities conferred on him by the Forests Act 1949 and these regulations.

4. Any Quarantine Officer may at any time enter into any conveyance, or upon any wharf, airport, land, or premises, or board any ship or aircraft wheresoever in New Zealand or within the outer limits of the territorial sea of New Zealand for the purposes of these regulations and of inspecting any forest produce; and may take all such steps and have all such powers and authorities as are necessary to enable him to enforce these regulations and prevent the introduction or spread of any infection.

PART II—INSPECTION OF FOREST PRODUCE BEING IMPORTED

5. Every importer of any forest produce into New Zealand shall, immediately upon the importation, produce or notify the same to a Quarantine Officer for inspection.

6. A Quarantine Officer shall inspect for the purposes of these regulations all forest produce imported into New Zealand.

7. (1) If upon such inspection the forest produce is (in the opinion of the Quarantine Officer) free from bark and every infection and the Quarantine Officer is satisfied that the forest produce may be imported by the importer without danger of introducing into New Zealand any infection, he shall authorise the importer to take delivery thereof; and if the forest produce concerned is dunnage shall sign a certificate to the importer and to the Collector of Customs in Form 1.

(2) If upon such inspection the forest produce or any part thereof is found not to be free (in the opinion of the Quarantine Officer) from bark and every infection, or if the Quarantine Officer is not satisfied that the forest produce can be delivered to the importer without danger of introducing into New Zealand any infection, the Quarantine Officer may, by giving notice in Form 2 or Form 3, whichever is appropriate, require the importer to—

- (a) Deposit the forest produce in a quarantine ground for observation, treatment, or disinfection; or
- (b) Treat or disinfect the forest produce in such manner and for such period of time as the Quarantine Officer may direct in order to free the forest produce from every infection; or
- (c) Treat the forest produce by heat fumigation or such other treatment as may be prescribed by the Quarantine Officer, or to reship, destroy, or otherwise dispose of the forest produce to the satisfaction of the Quarantine Officer, if in the opinion of that officer the forest produce cannot effectively be treated or disinfected or if after being so treated or disinfected the forest produce is not (in the opinion of the Quarantine Officer) free from bark and every infection.

(3) Notwithstanding anything contained in subclause (2) of this regulation, it shall be lawful to import bark expressly for medicinal or manufacturing purposes, or on peeler logs or on turpentine piles (when specified by the importer), or on manufactured articles:

Provided that such forest produce shall be subject to normal inspection and, if a Quarantine Officer so requires, to treatment as provided in subclause (2) of this regulation.

(4) Except as provided in subclause (3) of this regulation, the importation of bark, or of forest produce or packing materials with bark attached, is absolutely prohibited.

8. (1) No person shall import into New Zealand any wooden cable drum unless—

- (a) It is completely free from bark and has been certified by a government authority in the country of export or by the exporting manufacturer, or by the treatment agency employed by the manufacturer, as having been treated in accordance with any of the specifications prescribed in the Second Schedule hereto; and
- (b) A certificate in Form 4 in the First Schedule hereto accompanies the shipping documents of the consignment in which the drum is included.

(2) Notwithstanding anything contained in the foregoing provisions of this regulation, all such cable drums shall be subject to normal inspection and, if a Quarantine Officer so requires, to treatment as provided in subclause (2) of regulation 7 hereof.

(3) Except as provided in subclause (1) of this regulation, no person shall import into New Zealand any wooden or plywood packing case, crate, wooden container, cargo pallet, or packing block unless—

- (a) It is completely free from bark and from visible signs of infection; and
- (b) It is accompanied by a declaration in Form 5 that all timber used for packing was free from bark and visible signs of insect and fungal attack when shipped to New Zealand:

Provided that no declaration shall be required in respect of wood wool, which may be freely used for packing.

(4) All such packing cases, crates, and other wooden containers shall be subject to normal inspection and, if a Quarantine Officer so requires, to treatment as provided in subclause (2) of regulation 7 hereof.

(5) Every wooden cable drum which is not accompanied by a certificate of treatment as required by subclause (1) of this regulation, and every wooden or plywood packing case, crate, or other wooden container which is not accompanied by a declaration from the exporter as required by subclause (3) of this regulation, shall be held in quarantine on arrival at a New Zealand port or airport, and shall be dealt with as required by a Quarantine Officer pursuant to subclause (2) of regulation 7 hereof.

9. No person shall remove any forest produce imported into New Zealand from any wharf, airport, or other place at which it is first landed without the permission of a Quarantine Officer:

Provided that a Quarantine Officer may issue a notice in Form 6 directing the importer to remove the forest produce to a place to be specified in the notice for inspection there by a Quarantine Officer, and the importer shall not utilise the forest produce or remove it from the specified place unless permission to do so has been given by a Quarantine Officer.

10. (1) The costs of inspection of any such forest produce shall be paid on demand by the importer to the Collector of Customs at the rates prescribed in the Third Schedule hereto, and shall be a debt due

to the Crown. The issuing of any certificate or notice under regulation 7 hereof shall be sufficient evidence of the inspection in the absence of proof to the contrary.

(2) No charge shall be payable for the inspection of imported dunnage on board ship.

PART III—TREATMENT OF INJURIOUS IMPORTED FOREST PRODUCE AND QUARANTINE

11. If any person fails to deposit any forest produce in a specified place or arrange treatment in pursuance of a notice given under regulation 7 or regulation 8 hereof, it shall be lawful for any Quarantine Officer to take possession of the forest produce and cause it to be conveyed to and deposited in the specified place or in any quarantine ground, and be treated at the owner's expense.

12. All costs and expenses incurred in the deposit in or transport to a quarantine ground, and in the handling, treatment, and disinfection, and the reshipping, destruction, or other disposal of any forest produce under regulation 7 hereof shall upon demand be payable by the importer to the Conservator and shall be a debt due to the Crown.

13. No person shall enter, or take any vehicle into, a quarantine ground without the permission of a Quarantine Officer.

14. No person shall take forest produce or goods of any description whatsoever into a quarantine ground without the permission of a Quarantine Officer and without compliance with any conditions specified by the Quarantine Officer when granting permission, and if any forest produce or goods other than those permitted by the Quarantine Officer are found on a quarantine ground, the forest produce or goods shall be destroyed, or otherwise dealt with as the Minister directs.

15. All persons employed in any quarantine ground shall obey all orders and carry out all instructions given by any Quarantine Officer, and shall assist in every way in their power to prevent the spread of every infection referred to in regulation 7 hereof.

16. All persons on a quarantine ground shall comply with all directions given by any Quarantine Officer.

17. On the completion of the treatment of the forest produce referred to in regulation 7 hereof, and on being satisfied that the forest produce is in his opinion free from every infection referred to in that regulation, a Quarantine Officer shall give a clearance certificate in Form 7 in respect of the forest produce, which may then be removed from the quarantine ground or place where it has been treated.

18. (1) The importer shall remove the forest produce from the quarantine ground within a period of seven days after he is given a clearance certificate in Form 1 or Form 7, as the case may be.

(2) If the importer fails to remove the forest produce from the quarantine ground within the said period of seven days, the importer shall, on demand, pay the costs of storing the forest produce after the expiry of that period to the Conservator at the rate prescribed in the Third Schedule hereto, and those costs shall be a debt due to the Crown.

(3) If the importer fails to remove the forest produce from the quarantine ground, or fails to pay any costs or expenses incurred in respect of any forest produce, within a period of two months after he is given a clearance certificate in Form 1 or Form 7, the forest produce may (if the Minister so authorises) be sold and the proceeds paid into the Public Account:

Provided that, if the amount realised from the sale is more than the total amount of the costs and expenses payable in respect thereof, the balance of the proceeds after deducting those costs and expenses shall be paid to the importer.

19. No forest produce shall be removed from a quarantine ground or other specified treatment area without the permission of a Quarantine Officer, and any forest produce so removed may be seized and placed in any quarantine ground by any Quarantine Officer.

PART IV—INSPECTION OF FOREST PRODUCE TO BE EXPORTED

20. (1) Any person intending to export any forest produce from New Zealand shall give to the Conservator not less than 10 days' previous notice in writing or by telegram of his intention; and the notice shall contain a full description of the forest produce (including the timber species, grade, quantity, marks, and brands), the name of the ship and the port or airport or other place from which, and the date on which, and the place to which, the forest produce is to be exported.

(2) All forest produce to be exported from New Zealand shall be inspected by a Quarantine Officer.

21. No person shall export any forest produce from New Zealand until a certificate in Form 8 has been applied for by the exporter and issued by a Quarantine Officer and a copy thereof forwarded to the Collector of Customs.

22. (1) All forest produce intended for export from New Zealand shall be produced by the exporter to a Quarantine Officer and at the time of inspection shall be in an exportable condition and comply with the phytosanitary (quarantine) regulations of the importing country.

(2) A Quarantine Officer in the area from which forest produce is to be exported shall inspect the produce and, if in his opinion the produce to be exported complies with the phytosanitary regulations of the importing country, shall issue a certificate in Form 8 stating that the said forest produce has been inspected and is believed to comply with those regulations, and specifying the treatment given to the said forest produce.

23. (1) If upon such inspection as aforesaid any forest produce is (in the opinion of a Quarantine Officer) free from bark (except as provided in subclause (4) of this regulation) and from every infection, or if any forest produce has been treated so as to protect it from infection to the satisfaction of the Quarantine Officer and the Quarantine Officer is satisfied that the forest produce may be exported without danger of introducing into any other country any infection, and (in the case of pinus timber) if in the opinion of the Quarantine Officer the forest produce complies with the provisions of regulation 25 hereof, he shall issue a certificate to the Collector of Customs in Form 8.

(2) If the forest produce or any part of it is not exported by the date specified in the certificate, a Quarantine Officer may cancel the certificate, in which case the Quarantine Officer shall notify the Collector of Customs in Form 9 of the cancellation. If the forest produce or any part of it has in the opinion of the Quarantine Officer become infected by any infection since the granting of the certificate, the certificate shall be cancelled, and the Quarantine Officer shall notify the Collector of Customs in Form 9 of the cancellation.

(3) If upon any such inspection any forest produce is not in the opinion of a Quarantine Officer free from bark (except as provided in subclause (4) of this regulation) and from every infection, or if the Quarantine Officer is not satisfied that the forest produce may be exported without danger of introducing into any other country any infection, or if the forest produce does not otherwise comply with these regulations, the Quarantine Officer shall by notice in writing in Form 10 to the Collector of Customs direct that the forest produce shall not be exported.

(4) Notwithstanding the foregoing provisions of this regulation it shall be lawful for bark to be exported for manufacturing purposes, or exported on logs but such produce shall be subject to normal inspection to ensure freedom from every infection.

24. The Quarantine Officer for the area in which sawn timber which has been kiln dried for export is produced for inspection shall upon request inspect the timber and kiln records and if so satisfied, shall issue a kiln certificate in Form 11 certifying the adequacy of treatment.

25. Except with the consent of the Minister, no person shall export radiata pine or other pinus timber, unless—

(a) In the case of timber which is to be exported to countries in the Pacific areas (excluding Australia)—

(i) It has been treated according to Timber Preservation Authority standards for timber use in New Zealand, or to overseas standards nominated by the purchaser and accepted by the Quarantine Officer; or

(ii) If not preservative treated, it has been dried to a moisture content not more than 24 percent of its oven dried weight:

(b) In the case of timber which is to be exported to any country other than a country to which paragraph (a) of this regulation applies,—

(i) If the timber is to be exported in a green condition, it has been dipped immediately after sawing in an anti-sapstain solution to the satisfaction of a Quarantine Officer; or

(ii) If the timber has not been dipped as provided in subparagraph (i) of this paragraph, the timber has been dried to a moisture content not more than 24 percent of its oven dried weight; or

(iii) If the timber is not to be exported in a green condition as provided in subparagraph (i) of this paragraph or dried as provided in subparagraph (ii) of this paragraph, it has been treated according to Timber Preservation Authority standards for conditions of timber use in New Zealand, or to overseas standards nominated by the purchaser and accepted by the Quarantine Officer.

26. Except with the consent of the Minister, no indigenous timber or product from indigenous timber may be exported unless it is surplus to local requirements and is of a grade and species approved for export.

27. The costs of inspection of forest produce to be exported shall be paid by the exporter to the Collector of Customs at such rates as are prescribed in the Third Schedule hereto and shall be payable on demand and shall be a debt due to the Crown. The issuing of any certificate under regulation 23 or regulation 24 hereof shall be sufficient evidence of the inspection in the absence of proof to the contrary.

PART V—OFFENCES AND PENALTIES

28. (1) Every person commits an offence against these regulations who—

- (a) Imports or attempts to import into New Zealand any forest produce contrary to the provisions of these regulations:
- (b) Exports or attempts to export from New Zealand any forest produce contrary to the provisions of these regulations:
- (c) Removes or attempts to remove any forest produce imported into New Zealand from any wharf, seaport, airport, land, or place specified in regulation 7 hereof, without first having obtained the permission of a Quarantine Officer:
- (d) Takes any forest produce into or from a quarantine ground without the permission of a Quarantine Officer:
- (e) Enters or leaves any quarantine ground without the permission of a Quarantine Officer:
- (f) Obstructs any Quarantine Officer acting under the authority of these regulations:
- (g) Otherwise acts in contravention of, or fails to comply in any respect with, the provisions of these regulations.

(2) Every person who commits an offence against these regulations is liable on summary conviction in the case of an individual to imprisonment for a term not exceeding one month or to a fine not exceeding £100 or to both, and if the offence is a continuing one to a further fine not exceeding £10 for every day during which the offence continues; and in the case of a body corporate to a fine not exceeding £500, and if the offence is a continuing one to a further fine not exceeding £50 for every day during which the offence continues.

PART VI—MISCELLANEOUS PROVISIONS

29. The Crown shall not be liable for any loss or damage suffered by any importer or exporter of forest produce as a result of any delay in inspecting or treating any forest produce.

30. The Forest Produce Import and Export Regulations 1956* are hereby revoked.

Reg. 8 (1)

SPECIFICATIONS FOR TREATMENT OF CABLE DRUMS

(1) Preservative treatment of all wood components with a preservative treatment against attacks by insects and fungi that is by a method and with a preservative acceptable to a Quarantine Officer, being a preservative treatment that conforms to a specification that is authorised or approved by the British Wood Preservers Association, the American Wood Preservers Association, the New Zealand Timber Preservation Authority, or any similar national body; or

(2) Fumigation of wood materials with methyl bromide gas at a concentration of 6 lb per 1,000 cu. ft. (96Mg/L) for 24 hours duration, and a minimum temperature of 10° (C) or 50° (F); or

(3) Heat treatment (or kiln sterilisation) where wood is heated in a kiln to a temperature of not less than 160° (F) or 71° (C) under conditions of maximum humidity (steam atmosphere) and held at that temperature for two hours duration.

THIRD SCHEDULE

Regs. 10 (1), 27

COSTS OF INSPECTING FOREST PRODUCE

THE costs of inspecting forest produce imported into or exported from New Zealand shall be calculated at the rate of 3½d. for each 100 superficial or board feet, except that for forest produce in the form of box shoofs the rate shall be calculated at the rate of 2d. for each 100 superficial or board feet, and for forest produce exported in log form, the rate shall be calculated at the rate of 1s. 3d. per 100 cu. ft. or 1½d. per 100 ft. Haakon Dahl measure.

COSTS OF STORING FOREST PRODUCE

Reg. 18 (2)

THE cost of storing forest produce shall be calculated at the rate of 6d. per day for each 100 superficial or board feet or 6s. per 100 cu. ft.

T. J. SHERRARD,
Clerk of the Executive Council.

EXPLANATORY NOTE

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations consolidate and amend the Forest Produce Import and Export Regulations 1956. They are designed to extend quarantine control, with particular reference to dunnage and cargo on ships in New Zealand waters. The regulations provide for the inspection, treatment, and quarantine of forest produce which is being imported, and for the inspection of forest produce which is being exported. Charges are prescribed for inspecting and storing forest produce.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 21 July 1966.

These regulations are administered in the New Zealand Forest Service.
