

1976/14

THE LEASED CIRCUIT AND LEASED APPARATUS REGULATIONS 1976

DENIS BLUNDELL, Governor-General

ORDER IN COUNCIL

At the Government House at Wellington this 26th day of January 1976

Present:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL

PURSUANT to the Post Office Act 1959, His Excellency the Governor-General, acting by and with the advice and consent of the Executive Council, hereby makes the following regulations.

ANALYSIS

- | | |
|---|---|
| 1. Title and commencement | 19. Remission of charges |
| 2. Interpretation | 20. Supply of leased circuits or apparatus |
| 3. Leased circuits and apparatus subject to regulations | 21. Accommodation for leased apparatus |
| 4. Applications for leased circuits or apparatus | 22. Restriction on use of leased circuits and apparatus |
| 5. Subscriber shall not assign agreement | 23. Supply of electricity |
| 6. Minister may refuse service | 24. Paper and typewriter ribbons |
| 7. Leased circuits or apparatus may be provided | 25. Damage to circuit or apparatus |
| 8. Minimum period of lease | 26. Illegal and improper use of circuit or apparatus |
| 9. Installation charges | 27. Use of privately-owned terminal apparatus |
| 10. Temporary lease | 28. Non-liability for interruption of service |
| 11. Connection and termination arrangements | 29. Minister may terminate a lease |
| 12. Additional circuit charges in certain cases | 30. Removal of leased apparatus |
| 13. Circuits traversing private property | 31. Abatement of rental |
| 14. Liability for payment of charges | 32. Provision and maintenance of special circuits and apparatus not provided for in regulations |
| 15. Payment of charges | 33. Charges |
| 16. Rental periods | 34. General penalty |
| 17. Defaulting subscriber | Schedule |
| 18. Refund of rental for discontinued service | |

1. Title and commencement—(1) These regulations may be cited as the Leased Circuit and Leased Apparatus Regulations 1976.

(2) These regulations shall come into force on the 1st day of April 1976.

2. Interpretation—(1) In these regulations, unless the context otherwise requires:

“The Act” means the Post Office Act 1959:

“Apparatus” means any modem, telephone, teleprinter, or other sending or receiving apparatus and the equipment associated therewith which are provided pursuant to an application and contract:

“Contract” means the agreement which is executed when application is made for a leased circuit or leased apparatus:

“Department” means the Post Office; and includes the Minister, the Director-General, and any officer of the Department:

“Director-General” means the Director-General of the Post Office:

“Leased circuit” means a departmental circuit provided for the exclusive use of a lessee or his employees acting on his behalf and enabling communication between separate premises:

“Minister” means the Postmaster-General; and includes any officer or other person acting under his authority or by his direction:

“Prescribed charge” means the charge stated in the Schedule to these regulations for the service referred to in that Schedule:

“Rental” means the amount which the Minister charges for the leased circuit and any associated apparatus:

“Rental period” means any period for the time being specified under regulation 16 hereof as the period for which rental shall be paid in advance:

“Subscriber” means the person who is recognised by the Minister as the lessee of any leased circuit or apparatus:

“Subscriber’s premises” means any premises in or on which any circuit or apparatus is situated, being premises in the possession or occupation or under the control of the person who is the subscriber in respect of the circuit or apparatus.

(2) Notwithstanding any other provision of these regulations or the provision of any contract or other instrument, a subscriber shall not be entitled or deemed to be in possession of any circuit or apparatus, the property of the Crown, which shall be deemed to remain in the possession of the Crown, but to be the subject of a right in the subscriber to have the use and benefit of the same to the extent and in the manner provided by the contract and by these regulations, and not further or otherwise.

(3) The control and management of all circuits and apparatus being the subject of any contract under these regulations shall be deemed at all times to remain with the Minister irrespective of any right to the possession thereof.

3. Leased circuits and apparatus subject to regulations—All leased circuits and apparatus furnished by the Department except international circuits, shall be subject to these regulations and it shall be a condition implied in every contract for leased circuits or apparatus heretofore or hereafter made by the Department that the contract be so subject. International leased circuits shall be subject to such of the regulations as are specified in the Conditions of Service for each international lease.

4. Applications for leased circuits or apparatus—(1) Applications for leased circuits or apparatus, special services, facilities, or additional equipment shall be made in writing on the form of application and contract supplied in that behalf by the Director-General, or in any other way acceptable to the Director-General.

(2) Any application made on behalf of a partnership or a company shall be signed by one of the partners or by an authorised officer of the company, as the case may require.

5. Subscriber shall not assign agreement—The subscriber shall not, except with the written consent of the Director-General, assign or dispose of the agreement between the subscriber and the Department for the lease of a circuit or apparatus, or assign, dispose of, or part with any advantage under it.

6. Minister may refuse service—The Minister may, in his discretion—

- (a) Refuse an application to lease a circuit or apparatus, or for the transfer of any existing leased circuit or apparatus, or for the construction of any leased circuit or apparatus;
- (b) Instead of refusing absolutely to comply with an application, accede thereto upon such conditions as to security, nature of service (including type of circuit or apparatus) to be afforded, special minimum period of contract, or other conditions as he may think fit.

7. Leased circuits or apparatus may be provided—(1) Post Office circuits or apparatus may be provided and maintained for and on behalf of a person, corporation, or unincorporated body for the purpose of direct communication between separate premises.

(2) Fees for the lease of a circuit shall be payable at the rates prescribed in the Schedule hereto, and for leased apparatus at the rates prescribed in the Telegraph Regulations 1967 and the Telephone Regulations 1976.

(3) Provided that the Director-General may from time to time determine special 2-monthly fees and special conditions in respect of the lease of particular types of circuit or apparatus for the use of certain forms of communication.

(4) The Director-General may provide a leased circuit by whatever means and over whatever route he may consider to be appropriate at the time and may alter such means or route as he sees fit from time to time.

8. Minimum period of lease—The lease of a circuit or apparatus shall be for a minimum period of 6 months and shall continue thereafter until the subscriber gives notice in writing that the lease is to be discontinued or until the Department discontinues the lease in accordance with these regulations:

Provided that the Director-General may in special circumstances set a minimum period of lease greater than 6 months.

9. Installation charges—(1) An applicant for a leased circuit, other than a circuit to be used in association with the telephone service, shall pay the installation charges as prescribed in the Schedule hereto.

(2) For a circuit to be used in association with the telephone service the installation charges as prescribed in the Telephone Regulations shall apply.

(3) For the provision of leased apparatus the installation charges as prescribed in the Telegraph Regulations 1967 and the Telephone Regulations 1976 shall apply.

(4) Installation charges shall be initial charges only, and shall be payable at the time of application and shall apply whether the lease is for permanent or temporary service.

(5) The Minister may, in any circumstances, waive, or reduce the installation charges.

10. Temporary lease—Where the lease of a circuit or apparatus is desired for a shorter term than the minimum period prescribed in regulation 8 hereto, the lease may be granted conditionally on the availability of appropriate circuits or apparatus and on the applicant agreeing in writing to pay the weekly charges as prescribed in the Schedule to these regulations in respect to circuits, or as prescribed in the Telegraph Regulations 1967 and the Telephone Regulations 1976 in respect to apparatus with a minimum charge as for 2 weeks, together with the installation charges prescribed.

11. Connection and termination arrangements—(1) A leased circuit shall be deemed to include the lead-in arrangements and internal wiring to the first point of connection to the terminal apparatus at each separate premises where the circuit is terminated or broken out.

(2) The apparatus connected to the circuit at the applicant's premises may be leased from and maintained by the Department and the cost of installation charged to the applicant or, subject to the approval of the Director-General, some or all of that apparatus may be supplied by the applicant and installed and maintained at his expense.

(3) Any additional inside wiring beyond the first point of connection to the terminal apparatus may be installed and maintained by the Department and the costs of installation charged to the applicant, or that wiring may be installed by the applicant and maintained at his expense.

12. Additional circuit charges in certain cases—(1) If a leased circuit and apparatus or any portion thereof cannot be provided without addition or alteration to the Department's existing telecommunications facilities, the applicant shall be charged with the cost of any labour and incidental expenses involved in establishing additional facilities required solely or primarily to enable the circuit to be provided, or in altering existing facilities to accommodate the circuit, and also with such other initial costs associated therewith as, in the opinion of the Director-General the circumstances may warrant.

(2) Where a leased circuit is required having transmission characteristics or other features not provided for by standard leased circuits as provided for in the Schedule hereto, the applicant shall pay installation and rental charges as specially determined by the Director-General.

13. Circuits traversing private property—Where any portion of a leased circuit additional to the lead-in lies within private property, any poles, wire, underground cable, or other such equipment shall be supplied, erected, and renewed at the cost of the applicant, and he shall be charged with the cost of the labour and incidental expenses involved in the installation and maintenance thereof.

14. Liability for payment of charges—A subscriber is liable for all charges associated with his leased circuit or leased apparatus.

15. Payment of charges—All prescribed 2-monthly charges for leased circuits or apparatus shall be payable in advance on the first day of each rental period specified:

Provided that on the commencement of a service or of any extended or additional service a proportionate part of the 2-monthly charges from the date on which the service is made available to the first day

of the next ensuing rental period shall become payable within 7 days after a written demand for payment has been made upon the subscriber:

Provided also that if during a period for which an instalment of 2-monthly charges has been paid in advance the 2-monthly charges payable in respect of a leased circuit or apparatus are increased, then a proportionate part of the increase computed to the end of that period shall be paid within 7 days after a written demand for payment has been made upon the subscriber.

16. Rental periods—(1) The Director-General shall specify a rental period for each subscriber.

(2) Any rental period may from time to time be varied by determination of the Director-General and in the event of any such variation any necessary adjustments in respect of amounts payable by subscribers may be made.

17. Defaulting subscriber—(1) If any subscriber fails for 7 days after written demand made upon him to pay any charges due by him under these regulations, the Director-General may cause the circuit to be disconnected and any departmental apparatus to be removed.

(2) If a subscriber becomes a defaulter in respect of any charges due under these regulations, he shall not be furnished with a leased circuit or apparatus of any kind until he has discharged any such liability.

(3) If the Director-General is satisfied that any leased circuit or apparatus is being obtained either in his own or any other name by a person who is, in the opinion of the Director-General, a defaulter in connection with any charges due under these regulations he may cause the lease to be terminated.

(4) In the event of any subscriber's leased circuit being disconnected in accordance with subclause (1) of this regulation, the prescribed reconnection fee in addition to all other amounts due shall be payable by the subscriber before the circuit is restored.

(5) In the event of any subscriber's leased apparatus being removed in accordance with subclause (1) of this regulation, a request or application for restoring the apparatus shall be treated as a new application and the prescribed installation charge in addition to all amounts due shall be payable by the subscriber before the apparatus is restored.

18. Refund of rental for discontinued service—Should a subscriber discontinue the lease of a circuit or apparatus during the currency of a period for which rental has been paid in advance, all charges due and unpaid at the time of the relinquishment shall be charged against the assessment for the unexpired period of rental paid in advance. A refund of any residual credit shall be granted if the amount is not less than 50c, but no refund shall be granted in respect of any portion of the minimum period originally provided for in the contract.

19. Remission of charges—The Minister may remit in whole or part any charge or sum payable or paid under these regulations.

20. Supply of leased circuits or apparatus—(1) All circuits or apparatus except where otherwise provided by these regulations shall be supplied, erected, installed, and maintained by the Department, and, except with the authority of the Director-General, no person other than

an employee of the Department provided with proper means of identification shall interfere with, maintain, or make any additions or alterations to any such circuit or apparatus under the Department's control. In the event of any such interference by unauthorised persons, the subscriber concerned shall be liable to have his lease terminated without prejudice to any other liability that may be incurred.

(2) The Minister shall take all reasonable precautions to prevent damage or injury to subscribers or their premises from fire or other cause by reason of the installation of a circuit or apparatus but the Minister shall not be liable for any damage or injury that may arise from the failure of any such precautions.

(3) Employees of the Department showing proper means of identification shall at all reasonable times have access to subscriber's premises for the purpose of inspection of the circuit or apparatus and for the repair, removal, or replacement of any departmental apparatus.

21. Accommodation for leased apparatus—Accommodation for the leased apparatus shall be made available by the subscriber who shall comply with any special requirements notified by the Department concerning the accommodation and the control of environmental conditions in relation to that apparatus.

22. Restriction on use of leased circuits and apparatus—(1) Except in cases in which the preservation of human life or the protection of public property may be involved, or as otherwise provided in these regulations, leased circuits and apparatus shall be used only with respect to the affairs of the subscriber.

(2) The Department may refuse to lease, or withdraw if already leased, any circuit or apparatus to a subscriber whose use of such circuit or apparatus is, in the opinion of the Director-General, inimical to the interests of any telecommunication service operated by the Department.

(3) No sub-letting of leased circuits or associated apparatus is permitted.

(4) The Department may authorise access to a leased circuit and associated apparatus by other users designated by the subscriber under such conditions as may be determined by the Director-General from time to time and in any such case the Director-General may apply a surcharge of 37.5 percent to the circuit charges prescribed in the Schedule hereto.

(5) Where a circuit or apparatus is used by the subscriber for agency-type operations such as data processing or commercial information services the subscriber shall be responsible for all charges due under these regulations but may recover from customers a sum to be the customer's share of the rental charge but the total amount recovered shall not exceed the Post Office charge.

23. Supply of electricity—(1) If and when required to do so by the Director-General, a subscriber shall provide at his own expense in all respects a continuous supply of electricity at the pressure and in the manner required by the Department for the operation of the apparatus or any part thereof.

(2) The subscriber shall pay the costs incurred in making such alterations to the apparatus as are necessary to conform to any change made otherwise than by the Department in the method of applying the

electricity to the apparatus, or in the kind of electric current used, or to prevent harmful effects to the apparatus by electric lines or plant erected on the subscriber's premises.

24. Paper and typewriter ribbons—The paper and typewriter ribbons used on any apparatus leased from the Department shall be at the expense of the subscriber and shall be of a quality, kind, and size for the time being approved by the Department.

25. Damage to circuit or apparatus—(1) In the event of any circuit or apparatus on the premises of a subscriber being lost, destroyed, or damaged through any means whatever (other than fair wear and tear), the subscriber shall pay to the Department, on demand, the cost to the Department of replacement or repair:

Provided that no charge shall be made in respect of any circuit or apparatus accidentally destroyed or damaged by fire, flood, earthquake, or other cause beyond the control of the subscriber.

(2) This regulation shall apply notwithstanding that there has been no negligence on the part of the subscriber or any person for whom he is responsible and notwithstanding that the loss, destruction, or damage may have arisen from some cause not due to the act or fault of the subscriber.

26. Illegal and improper use of circuit or apparatus—(1) A subscriber shall not without the authority of the Department—

- (a) Alter or deface, any apparatus or obliterate or deface any marks, words or numbers thereon; or remove any circuit or apparatus or any part thereof unless supplied as intended to be portable or detachable;
- (b) Make or fix any attachment to any circuit or apparatus or part thereof, or place anything in electrical connection therewith;
- (c) Enclose any apparatus in any cover, case, or cabinet not supplied or approved by the Department;
- (d) Place or use in any manner or position in relation to any circuit or apparatus anything that may in the opinion of the Department have a harmful effect on the circuit or apparatus or on the Department's operations and shall not permit or suffer any other person to do so;
- (e) Adjust, maintain, repair, or modify any circuit or apparatus;
- (f) Use, or permit to be used, the circuit or apparatus for any improper purpose.

(2) On breach of this regulation the Minister may cause the lease to be terminated without prejudice to any other liability that may be incurred.

27. Use of privately-owned terminal apparatus—(1) Privately-owned terminal apparatus may, with the written approval of the Director-General, be attached to leased circuits where such apparatus conforms to specifications prescribed by the Director-General.

(2) The Director-General may at any time withdraw his approval for the attachment of apparatus to a leased circuit or may alter the conditions of such approval.

(3) The apparatus shall be attached to the circuit in the manner required by the Post Office.

(4) The Post Office reserves the right to inspect and test such installations for conformity to the specification requirements.

(5) Responsibility for the maintenance and efficient operation of privately-owned apparatus attached to any leased direct circuit shall rest with the subscriber.

(6) If and when required to do so by the Director-General, a subscriber who uses any privately-owned apparatus shall have the apparatus tested to ensure that it is in good working order.

(7) In the event that any fault reported as arising from the leased circuit service is subsequently found to be caused by the connection of privately-owned apparatus, the subscriber shall be liable for any expenses caused to the Post Office by reason of the fault.

(8) The Minister or any other officer of the Department shall not be liable for any expenses caused to the subscriber by reason of the malfunction of departmental equipment or the actions of departmental staff in the course of their duties.

28. Non-liability for interruption of service—(1) Upon payment of the appropriate charges the Department shall lease a circuit or apparatus and endeavour to maintain them in good working order at all times:

Provided that neither the Minister nor any officer of the Post Office shall incur any liability for or on any account of or in respect of any interruption or any failure of communications by means of the circuit or apparatus.

(2) A subscriber shall not be entitled to any abatement of rental or reimbursement of charges for the use of public telecommunications services because of any interruption or failure referred to in subclause (1) of this regulation.

29. Minister may terminate a lease—The Minister may in his discretion terminate a lease—

- (a) If, in his opinion, the departmental circuits or apparatus are required for a purpose deserving priority to their lease:
- (b) If any person is convicted of a breach of section 108 of the Act or of regulation 26 hereof involving the use of a leased circuit or apparatus belonging to the Post Office:
- (c) If, in his opinion, a leased circuit or apparatus belonging to the Post Office has been used in a manner contrary to section 108 of the Act or to regulation 26 hereof:
- (d) If, in his opinion, a place of business or house or other premises where a leased circuit or apparatus belonging to the Post Office is situated is used for any illegal, immoral, or improper purpose.

30. Removal of leased apparatus—(1) Whenever a lease is terminated pursuant to any of these regulations, it shall be lawful for employees of the Department provided with proper means of identification to enter the premises in which is installed any departmental apparatus and to remove the same from the premises and no liability or claim for damages on the part of any person shall lie against Her Majesty or the Minister or any officer or employee of the Department by reason of such entry or removal, or on any other ground.

(2) Any person who, without lawful justification, refuses to deliver to any employee of the Department any departmental apparatus to the possession of which he is not for the time being entitled, commits an offence against these regulations without prejudice to any other liability that may be incurred.

31. Abatement of rental—In the event of termination of a lease under these regulations the subscriber may be entitled to an abatement of a proportionate part of the rental payable without prejudice to the subscriber's liability for any unpaid rental or other charges due and owing or accruing under these regulations.

32. Provision and maintenance of special circuits and apparatus not provided for in regulations—Nothing in these regulations shall affect the power of the Crown to enter into contracts for the lease of special circuits and apparatus in cases not provided for by these regulations, notwithstanding regulations 6 and 16 hereof.

33. Charges—The charges in respect of matters referred to in these regulations shall be the appropriate charges prescribed in the Schedule hereto and the charges shall be payable in accordance with these regulations and the said Schedule.

34. General penalty—Any person who commits a breach of these regulations for which no other penalty is herein provided shall be liable on summary conviction to a fine not exceeding \$100.

SCHEDULE

CHARGES FOR LEASED CIRCUITS

Reg. 7

Part I

Normal Lease

1. Charges for leased circuits shall consist of *Local Circuit* charges, and, in some cases, *Main Line Circuit* charges.

The designation of circuits or parts of circuits as main line circuits or as local circuits shall be as decided by the Director-General from time to time.

Local Circuits

2. The rate for local circuits shall be \$5.50 per kilometre, or part kilometre, each 2 months, for circuits designated as S1, T1, T2, T3, T4. For circuit categories S2, S3, P1, P2 the rate shall be \$9 per kilometre, or part kilometre, each 2 months. For local circuit parts of other circuits the rate shall be as decided by the Director-General from time to time.

Main Line Circuits

3. Main line circuits shall be of types designated as S1, S2, S3, T1, T2, T3, T4, P1, P2, B1, and B2. The specifications for each type of circuit shall be as decided by the Director-General from time to time.

The rates for main line circuits shall be as follows:

Part III

Regs. 9 and 17

Installation and Reconnection Charges*Installation Charges*

1. Installation charges shall be \$35 for each end of a circuit designated S1, T1, T2, T3, and \$50 for each end of a circuit designated S2, P1, P2. For other circuits installation charges shall be based on the cost of labour and incidental expenses involved in their provision.

Reconnection Charges

2. The reconnection fee shall be \$5.

P. G. MILLEN,
Clerk of the Executive Council.

EXPLANATORY NOTE

This note is not part of the regulations, but is intended to indicate their general effect.

These are new regulations designed to prescribe the charges for all types of leased circuits and the conditions for these and for leased apparatus. Hitherto some of these were covered by the Telephone Regulations 1968, and others were determined by the Minister from time to time. These regulations come into force on 1 April 1976.

Issued under the authority of the Regulations Act 1936.
Date of notification in *Gazette*: 29 January 1976.
These regulations are administered in the Post Office.
