**EXPLANATORY NOTE**

*This note is not part of the order, but is intended to indicate its general effect.*

Sections 31 and 32 of the Marine Pollution Act 1974 fix the limits of liability of shipowners for pollution damage and section 37 (4) requires compulsory insurance of ships of a minimum amount against liability for pollution damage, the amounts in each case being expressed in francs. A franc is defined in section 59 (1) as a unit consisting of 65.5 milligrams of gold of millesimal fineness 900.

This order defines the equivalent in New Zealand currency of the amounts of francs specified in those sections, in substitution for the equivalents defined in the revoked 1975 order.
