EXPLANATORY NOTE

*This note is not part of the order, but is intended to indicate its general effect.*

This order substitutes a new protected area in the Hauraki Gulf and adds a new protected area in Hawke Bay. Anchoring and fishing in protected areas is prohibited.

The revised Hauraki Gulf protected area relates to the protection of the ANZCAN cable. The previous area was approximately 3 nautical miles wide and commenced at harbour limits off Takapuna Beach and Rangitoto Island. The area within harbour limits was protected under other legislation. The new area covers a similar route but is approximately 5 nautical miles wide and includes the area within harbour limits. The area concerned begins at Takapuna Beach near Lake Pupuke and runs out past Rangitoto Island and Tiritiri Matangi Island then generally northwards to the limits of the territorial sea.

The new Hawke Bay protected area relates to the protection of the Hastings sewer outfall. It is an area off the mouth of the Tukituki River starting about 1.2 nautical miles off shore and ending about 1.6 nautical miles offshore. It is about 0.2 nautical miles wide.
