(2) Upon receiving a request in terms of clause (1) hereof, the Minister may make such inquiries as he deems fit, and may then refuse or grant the request for a review of the respective license. If the request is granted, then the Minister shall direct the appropriate Licensing Authority to review the license in terms of clause 18 of the applied provisions.

REGULATION 9.—APPEALS.

(1) Every appeal to the Minister from a decision of a Licensing Authority shall be commenced by petition in form T.L. 30, and shall, with the appropriate fee, be delivered to the Commissioner in duplicate (either personally or by registered letter addressed to the Commissioner) within twenty-one days after the date of the determination appealed against. No appeal shall be deemed to have been duly lodged unless it is accompanied by the respective fee.

(2) A copy of any correspondence or other documents relating to the subject-matter of the appeal and in the possession of the appellant shall be attached to the petition.

(3) Notification of receipt of the petition shall be forwarded by the Commissioner to the Licensing Authority concerned, and the Licensing Authority will thereupon cause to be forwarded to the Minister, through the Commissioner, a copy of any notes of evidence taken by the authority in connection with the subject-matter of the appeal.

(4) The Commissioner shall forward the papers relative to the appeal to the Minister.

(5) The Minister or any person appointed by him to inquire into any appeal (hereinafter referred to as "the examiner") may, in the hearing of an appeal, accept such evidence as he thinks fit, whether such evidence would be legally admissible in judicial proceedings or not.

(6) Save as hereinbefore provided, the Minister or the examiner shall determine his procedure in such manner as he thinks fit.

(7) A copy of the proceedings on appeal and of the decision of the Minister thereon shall as soon as possible after the determination of such proceedings be sent by the Minister to the Commissioner who shall thereupon notify the decision to the Licensing Authority concerned and every other body or person who in the opinion of the Commissioner is directly interested therein.

REGULATION 10.—VEHICLE-INSPECTION CERTIFICATES.

(1) It shall be a condition of every continuous or seasonal license (whether inserted therein or not) that on every goods-service vehicle while being used under the terms of the license there shall after the 31st day of December, 1936, be carried an inspection certificate issued in respect of that vehicle by an Inspector in form T.L. 31, and hereinafter described as a "certificate."

(2) Application for a certificate shall be made in form T.L. 32, and, if possible, at least fourteen days before it is required.

(3) If a period of six months has elapsed since the date recorded on the certificate as being its commencing-date the Commissioner or Inspector may require that the certificate be forwarded or handed to the Inspector; or, if on inspection of the vehicle by an Inspector he considers that it is unfit for service, the Commissioner or Inspector may by notice in writing to the licensee require that the certificate be forwarded or handed by the licensee to the Inspector, and the licensee shall forthwith forward or hand the certificate to the Inspector accordingly. At any time after the making of such requirement or the giving of such notice the Inspector may remove the certificate from the vehicle provided that if the certificate is removed during a journey

authorized by the license it shall not then be a breach of the provisions of clause (1) hereof for the driver of the vehicle to complete the journey and return the vehicle to its place of garage without carrying the certificate.

(4) It shall be an offence under these regulations for the licensee or for any person for the time being in charge of the vehicle to use or permit to be used under the license any vehicle which with its load exceeds the maximum gross weight set out for that vehicle in the respective certificate.

(5) Prior to the delivery of a certificate to the applicant or his agent there shall be payable by the licensee the appropriate fee.

(6) The certificate while in force and use shall be kept in good and legible condition.

(7) The certificate shall on request by an Inspector or Enforcement Officer be produced by the person for the time being in charge of the vehicle for inspection or for removal.

#### REGULATION 11.—ACCOUNTS AND RETURNS.

The Commissioner may require any licensee to keep such records and to maintain such an accounting system as will enable him to make on request of the Commissioner the statistical and financial returns described in form T.L. 33 for the purposes of clause 4 of the applied provisions or any other lawful purpose.

#### REGULATION 12.—DRIVING-HOURS.

(1) It shall be a condition of every license (whether inserted therein or not) that unless otherwise provided in the license the licensee shall not drive or cause or permit any person employed by him or subject to his orders to drive any goods-service vehicle used under the authority of a license—

- (i) For any continuous period of more than five and one-half hours ; or
  - (ii) For continuous periods amounting in the aggregate to more than eleven hours in any period of twenty-four hours ; or
  - (iii) So that the driver has not at least ten consecutive hours for rest in any period of twenty-four hours ; or
  - (iv) So that the driver has not at least twenty-four consecutive hours for rest in any period of seven days.
- (2) For the purposes of the condition set out in the last preceding clause hereof,—
- (a) Any two or more periods of time shall be deemed to be a continuous period unless separated by an interval of not less than half an hour in which the driver is able to obtain rest and refreshment ; and
  - (b) Any time spent by a driver on any work in connection with a goods-service vehicle or the load carried thereby shall be reckoned as time spent in driving.

(3) Nevertheless, a licensee shall not be liable to be convicted for breach of the condition set out in clause (1) of this regulation if he proves to the Court that the contravention was due to unavoidable delay in the completion of any journey arising out of circumstances which he could not reasonably have foreseen.

(4) It shall also be a condition of every license (whether inserted therein or not) that, unless otherwise provided in the license, a time-book in the form or to the effect of the form contained in clause (5) of this regulation, or a combination of time-books to the like effect, shall be kept in respect of every driver and other person (including the licensee) employed on every goods-service vehicle used under authority of such license (any such driver or person being hereinafter referred to as "the employee"). The hours at which every employee commences and ends work on any day and the periods for which such employee ceases work for the purpose of rest and refreshment shall be entered in the time-book from day to day by every employee. At the end of each week the amount of wages paid in each case, or the amount of any drawings by the licensee in lieu of wages in respect of that week, shall also be recorded in the place provided for that purpose. All time-books aforesaid shall be available for inspection by any Enforcement Officer at any reasonable time during a period of six months next ensuing from the date to which they refer.
