EXPLANATORY NOTE

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations change the systems for the control of teachers colleges and the procedures for the admission and selection of students to teachers colleges.

Under the existing regulations (as amended in 1968), authority for the control and management of a teachers college vests in a Teachers College Council or an Education Board. These Boards cease to exist as from the close of 30 September 1989. The effect of the amendment is to vest the control and management of each teachers college in a Teachers College Council.

Under the existing regulations, as made in 1959,—

- (a) Selection Committees appointed by Education Boards select the students who are admitted to teachers colleges for training as primary teachers; and
- (b) Selection Committees appointed by the Director-General of Education select the students who are admitted to teachers colleges for training as secondary teachers.

Until the close of 30 September 1989, the composition of Selection Committees for both classes of student teachers will be determined by the Director-General of Education. After that date, the composition of those Committees will be determined by the Secretary of Education.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 22 September 1989.

These regulations are administered in the Department of Education.
