

**THE WHEAT BOARD REGULATIONS 1965,
AMENDMENT NO. 13**

DAVID BEATTIE, Governor-General

ORDER IN COUNCIL

At the Government Buildings at Wellington this 17th day
of January 1985

Present:

THE HON. G. W. R. PALMER PRESIDING IN COUNCIL

PURSUANT to section 47 of the Wheat Board Act 1965, His Excellency the Governor-General, acting by and with the advice and consent of the Executive Council, hereby makes the following regulations.

REGULATIONS

1. Title and commencement—(1) These regulations may be cited as the Wheat Board Regulations 1965, Amendment No. 13, and shall be read together with and deemed part of the Wheat Board Regulations 1965* (hereinafter referred to as the principal regulations).

(2) These regulations shall come into force on the 1st day of February 1985.

*S.R. 1965/227

- Amendment No. 1: S.R. 1967/165
- Amendment No. 2: *(Revoked by Act 1980/205 (4) (b))*
- Amendment No. 3: S.R. 1968/235
- Amendment No. 4: S.R. 1969/282
- Amendment No. 5: S.R. 1974/8
- Amendment No. 6: *(Revoked by S.R. 1984/8)*
- Amendment No. 7: *(Revoked by S.R. 1977/26-1)*
- Amendment No. 8: *(Revoked by S.R. 1980/25-1)*
- Amendment No. 9: *(Revoked by S.R. 1980/25-1)*
- Amendment No. 10: S.R. 1980/254
- Amendment No. 11: S.R. 1984/8
- Amendment No. 12: S.R. 1984/257

2. Interpretation—(1) Regulation 2 (1) of the principal regulations is hereby amended by revoking the definition of the term “milling standard wheat” (as substituted by regulation 2 of the Wheat Board Regulations 1965, Amendment No. 10), and substituting the following definition:

“Milling standard wheat’ means wheat which—

“(a) Is sound and sweet, free from smut, free from decay, free from damage by insect pests injurious to baking quality, and free from any other blemish or damage; and

“(b) When gristed yields flour with a baking score of 12 or higher as determined by the Mechanical Dough Development testing method equivalent to that used by the Wheat Research Institute in the year 1981; and

“(c) Does not have a sprout index of greater than S1 as determined by the Wheat Research Institute test; and

“(d) Does not contain—

“(i) More than 0.5 percent, by weight, of weed seeds; or

“(ii) More than 4 percent, by weight, of weed seeds and other extraneous matter and broken, immature, or shrivelled grains; or

“(iii) More than 15.5 percent, by weight, of moisture as determined by the Wheat Research Committee Standard Method No. 1 used in conjunction with Falling Number Grinder No. 3303; or

“(iv) More than 5 percent of visibly sprouted grains.”

(2) Regulation 2 of the Wheat Board Regulations 1965, Amendment No. 10 is hereby consequentially revoked.

3. Board may make advance payments—Regulation 9A of the principal regulations (as inserted by regulation 5 of the Wheat Board Regulations 1965, Amendment No. 11) is hereby amended—

(a) By omitting from subclause (2) the words “50 percent”, and substituting the words “75 percent”;

(b) By omitting from subclause (3) (b) the words “14.5 percent”, and substituting the words “20 percent”;

(c) By omitting from subclause (3) (c) the words “18.5 percent”, and substituting the words “24 percent”.

4. Levies—Regulation 33 (1) (b) of the principal regulations (as substituted by regulation 5 of the Wheat Board Regulations 1965, Amendment No. 10) is hereby amended by omitting the words “5 cents”, and substituting the words “10 cents”.

P. G. MILLEN,
Clerk of the Executive Council.

EXPLANATORY NOTE

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations, which come into force on 1 February 1985, amend the Wheat Board Regulations 1965.

Regulation 2 revokes the definition of the term "milling standard wheat", and substitutes a new definition.

Under the new definition wheat will not be milling standard wheat if it contains more than 4 percent, by weight, of weed seeds and other extraneous matter and broken, immature, or shrivelled grains. Under the existing definition (as substituted in 1980) the relevant percentage was 5 percent.

Under the new definition wheat will not be milling standard wheat if it contains more than 15.5 percent, by weight, of moisture as determined by the Wheat Research Committee Standard Method No. 1 used in conjunction with Falling Number Grinder No. 3303.

Under the existing definition (as substituted in 1980) the relevant percentage was 15 percent and the method of determining the moisture content was not specified.

Regulation 3 amends regulation 9A of the principal regulations (which relates to the power of the New Zealand Wheat Board to make advance payments in respect of wheat purchased by it).

Subclause (1) (a) increases the proportion of the contract price that the Board may pay in advance of delivery of the wheat. Under regulation 9A (as made in 1984) that proportion is limited to a maximum of 50 percent. This regulation increases that maximum to 75 percent.

Subclause (1) (b) and (c) increases the maximum rates of interest that the Board may charge in respect of advance payments.

Regulation 4 increases the amount of the administration levy that, after being paid to the New Zealand Wheat Board by growers of wheat, is paid to United Wheatgrowers (N.Z.) Limited.

That levy, as set in 1980, is computed at the rate of 5 cents for every \$100 of the purchase price of the wheat (which price does not include any money payable to the grower by way of storage increment payments). That levy is increased by these regulations to a rate of 10 cents for every such \$100.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 22 January 1985.

These regulations are administered in the Department of Trade and Industry.
