## EXPLANATORY NOTE

*This note is not part of the regulations, but is intended to indicate their general effect.*

These regulations, which come into force on 22 November 1983, vary the wage freeze, which continues until the close of 29 February 1984.

*Regulation 3* makes further provision for the making of an instrument superseding an expired instrument not renewed in the 1981-82 wage round.

*Regulation 4* redefines the exemption that applies under regulation 6A of the principal regulations in respect of instruments relating to workers employed on certain construction work related to the plant for the production of synthetic petroleum at Motonui, North Taranaki.

The regulation provides, in addition, for further exemptions under regulation 6A of the principal regulations.

To be exempt under that regulation an instrument must implement a complete settlement and be an instrument which—

- (a) Is made after the commencement of the principal regulations on 23 June 1982; and
- (b) Is specified in the Fourth Schedule to the principal regulations (as amended by these regulations); and
- (c) Contains terms relating to remuneration, or to both remuneration and reimbursing payments, all of which, after having been referred to the Wage Freeze Authority on the application of the parties, or, if there are not two or more parties, on the application of the employer, have been approved by it.
