EXPLANATORY NOTE

This note is not part of the regulations, but is intended to indicate their general effect.

These regulations prescribe the maximum rate of levy that may be charged on wool pursuant to section 12 of the Wool Industry Act 1944. The rate of levy, in the case of shorn wools, is based on a percentage of the gross return to the grower. The rate of levy in the case of slipe and fellmongered wools is based on the average kilogram price received at auction for greasy wool during the previous wool sale season, and in the case of wool on the skin, is based on an assessed average wool weight per skin.

Issued under the authority of the Regulations Act 1936.

Date of notification in *Gazette*: 27 June 1974.
