Explanatory memorandum

This memorandum is not part of the determination, but is intended to indicate its general effect.

This determination, which is deemed to have come into force on 1 April 2014, increases the rate of the annuity payable to a former Governor-General.

The yearly rate of the annuity is increased from \$13,900 to \$14,300 from 1 April 2014.

This determination continues the past practice of adjusting the annuities consistent with general cost of living movements.

The rate of the annuity is the same regardless of whether the former Governor-General held office for a total period of less than 2 complete years or for a total period of 2 complete years or more. In the latter case, the annuity payable is determined by multiplying the yearly rate by each complete year of the period that the Governor-General held office, but not exceeding 5 years.

Section 9 of the Governor-General Act 2010 (the **Act**) provides that if a former Governor-General dies, the surviving spouse or partner is to be paid an annuity at half of the yearly rate that would have been payable if the person had not died.

Section 8(4) of the Act provides that the annuity is payable from the date that is 6 months after the date on which the person ceased to hold office as Governor-General.

This determination is for a year from 1 April 2014. The determination could not be finalised earlier because of the preparatory work that the Authority was required to

undertake before making the determination. This preparatory work included considering key statistics and other material not available at the time the previous determination expired.

This determination expires on 31 March 2015.

Issued under the authority of the Legislation Act 2012.
