Explanatory note

This note is not part of the order, but is intended to indicate its general effect.

This order, which comes into force on 30 April 2020, amends the Health Act (COVID-19 Alert Level 3) Order 2020 (the **principal order**).

The following changes or clarifications are made to what is permitted as essential personal movement or recreation under the principal order:

- hunting or killing of game birds is prohibited from being undertaken as permitted recreation:
- going to care for pets or other animals is permitted in the same or an adjacent region:
- it is clarified that inspecting a new property includes inspecting a potential new property (though doing so would still need to meet general health and safety requirements for how those inspections are carried out):
- it is clarified that the permission to assist or accompany others when travelling applies only to fellow residents.

The following changes are also made to the list of services in Schedule 2 as follows:

- veterinary services and animal health and welfare services are added as a category A service, so that they can continue to have customers and clients in their premises, as occurred at Alert Level 4:
- it is clarified that civil defence emergency management services provided by the National Emergency Management Agency or a Civil Defence Emergency Management Group are a category A service (as are other emergency services):
- the reference in Part 3 to small passenger services is removed as unnecessary (since these are already covered in Part 1).
