Statement of reasons

This notice, which comes into force on the day after the date of its notification in the *Gazette* and expires on 31 May 2015, provides exemptions from certain provisions of the Securities Act 1978 (the **Act**) and the Securities Regulations 2009 in respect of certain securities that relate to rights to, and the supply of, water on land near Queenstown.

The Securities Commission considers that it is appropriate to grant the exemptions because—

- section 5(1)(b) of the Act exempts offers of land or an interest in land for which a separate certificate of title can be issued from compliance with Part 2 of the Act; and
- the securities offered are equity and participatory securities, being shares in a company that will own, manage, and maintain water facilities for the benefit of all shareholders, and an interest in a water permit. The ability to subscribe for an equity security is dependent on the subscriber already having acquired an in-

terest in the water permit. These securities are ancillary to the ownership of the land and are not intended for the purpose of investment, but rather confer rights to water; and

- the conditions of the exemptions require that potential investors receive important information prior to subscription regarding the intended water facility.
