Schedule 1
Species endangered by trade

s 3(1)

The classes, families, and species listed in this schedule are arranged in descending order by class, then in alphabetical order by order, family, and species. This order of arrangement is adopted in the Convention.

The entries in the column headed “**Exceptions/limitations**” have the effect of—

- (a) excluding nominated populations in the listed species; or
- (b) limiting the applications of the listed species to only those populations nominated; or
- (c) excluding certain species from a generic listing; or
- (d) excluding nominated varieties of specimens of the listed species.

Schedule 2

Species threatened by trade

s 3(1)

The classes, families, and species listed in this schedule are arranged in descending order by class, then in alphabetical order by order, family, and species. This order of arrangement is adopted in the Convention.

The entries in the column headed “**Exceptions/limitations**” have the effect of—

- (a) excluding nominated populations in the listed species; or
- (b) limiting the applications of the listed species to only those populations nominated; or
- (c) excluding certain species from a generic listing; or
- (d) excluding nominated varieties of specimens of the listed species; or
- (e) limiting the application of the listed species to only those categories of specimens nominated.

When a species is included in this schedule, all parts and derivatives of the species are also included in the schedule unless the species is annotated to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in this schedule refers to a footnote that indicates the parts or derivatives of plants that are designated as specimens subject to this Act. The footnotes are at the end of this schedule.

Welwitschiaceae— Welwitschia			
Zamiaceae—Cycads	<i>Zamiaceae</i> spp <i>Hedychium philippinense</i>	Cycads Philippine Garland-flower	#4; except species included in Schedule 1 #4
Zingiberaceae—Ginger lily, Natal ginger	<i>Siphonochilus aethiopicus</i>	Natal Ginger	Only populations of Eswatini, Mozambique, South Africa, and Zimbabwe
Zygophyllaceae— Lignum-vitae	<i>Bulnesia sarmientoi</i> <i>Guaiacum</i> spp	Palo Santo, Verawood Lignum-vitae	#11 #2

Footnotes	
1	All parts and derivatives except— (a) seeds, spores, and pollen (including pollinia); and (b) seedling or tissue cultures obtained <i>in vitro</i> , in solid or liquid media, transported in sterile containers; and (c) cut flowers of artificially propagated plants; and (d) fruits, and parts and derivatives thereof, of artificially propagated plants of the genus <i>Vanilla</i> .
2	All parts and derivatives except— (a) seeds and pollen; and (b) finished products packaged and ready for the retail trade.
3	Whole and sliced roots and parts of roots, excluding manufactured parts or derivatives, such as powders, pills, extracts, tonics, teas, and confectionery.
4	All parts and derivatives except— (a) seeds (including seedpods of Orchidaceae), spores, and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from <i>Beccariothoenix madagascariensis</i> and <i>Dyopsis decaryi</i> exported from Madagascar; and (b) seedling or tissue cultures obtained <i>in vitro</i> , in solid or liquid media, transported in sterile containers; and (c) cut flowers of artificially propagated plants; and (d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus <i>Vanilla</i> (Orchidaceae) and of the family Cactaceae; and (e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera <i>Opuntia</i> subgenus <i>Opuntia</i> and <i>Selenicereus</i> (Cactaceae); and (f) finished products of <i>Aloe ferox</i> and <i>Euphorbia antisyphilitica</i> packaged and ready for retail trade.
5	Logs, sawn wood, and veneer sheets.
6	Logs, sawn wood, veneer sheets, and plywood.
7	Logs, wood chips, powder, and extracts.
8	Underground parts (ie, roots, rhizomes): whole, parts, and powdered.
9	All parts and derivatives except those bearing a label “Produced from <i>Hoodia</i> spp material obtained through controlled harvesting and production under the terms of an agreement with the relevant CITES Management Authority of [Botswana under agreement No. BW/xxxxxx] [Namibia under agreement No. NA/xxxxxx] [South Africa under agreement No. ZA/xxxxxx]”.
10	Logs, sawn wood, veneer sheets, including unfinished wood articles used for the fabrication of bows for stringed musical instruments.

- 11 Logs, sawn wood, veneer sheets, plywood, powder, and extracts. Finished products containing such extracts as ingredients, including fragrances, are not considered to be covered by this annotation.
- 12 Logs, sawn wood, veneer sheets, plywood, and extracts. Finished products containing such extracts as ingredients, including fragrances, are not considered to be covered by this annotation.
- 13 The kernel (also known as endosperm, pulp, or copra) and any derivative thereof.
- 14 All parts and derivatives except—
- (a) seeds and pollen; and
 - (b) seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers; and
 - (c) fruits; and
 - (d) leaves; and
 - (e) exhausted agarwood powder, including compressed powder in all shapes; and
 - (f) finished products packaged and ready for retail trade; this exemption does not apply to wood chips, beads, prayer beads, and carvings.
- 15 All parts and derivatives are included, except—
- (a) leaves, flowers, pollen, fruits, and seeds; and
 - (b) finished products to a maximum weight of wood of the listed species of up to 10 kg per shipment; and
 - (c) finished musical instruments, finished musical instrument parts, and finished musical instrument accessories; and
 - (d) parts and derivatives of *Dalbergia cochinchinensis*, which are covered by annotation # 4; and
 - (e) parts and derivatives of *Dalbergia* spp. originating and exported from Mexico, which are covered by annotation # 6.
- 16 Seeds, fruits, and oils.
- 17 Logs, sawn wood, veneer sheets, plywood, and transformed wood.

Schedule 3

Species exploited by trade

s 3(1)

The classes, families, and species listed in this schedule are arranged in descending order by class, then in alphabetical order by order, family, and species. This order of arrangement is adopted in the Convention.

The countries listed in the column headed “**Exceptions/limitations and countries requiring export permit**” are parties to the Convention that require an export permit to authorise trade in the species listed in this schedule. Trade in those species in relation to other countries that are party to the Convention requires a certificate of origin.

When a species is included in this schedule, all parts and derivatives of the species are also included in the schedule unless the species is annotated to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in this schedule refers to a footnote that indicates the parts or derivatives of plants that are designated as specimens subject to this Act. The footnotes are at the end of this schedule.

Explanatory note

This note is not part of the order, but is intended to indicate its general effect.

This order updates the schedules of the Trade in Endangered Species Act 1989 (the **Act**) that list endangered, threatened, and exploited species. The changes align the schedules with changes that have been made to the Convention on International Trade in Endangered Species of Wild Fauna and Flora (the **Convention**).

Most of the changes come into force on 9 January 2020. Some threatened species of sea cucumbers and cedars are inserted into Schedule 2 of the Act on 28 August 2020. Some exploited species of West Indian cedar are removed from Schedule 3 of the Act on 28 August 2020. The timing of these changes depends on when the related changes to the Convention take effect.

Issued under the authority of the Legislation Act 2019.
Date of notification in *Gazette*: 12 December 2019.

Notes

1 *General*

This is a consolidation of the Trade in Endangered Species Order 2019 that incorporates the amendments made to the order so that it shows the law as at its stated date.

2 *Legal status*

A consolidation is taken to correctly state, as at its stated date, the law enacted or made by the legislation consolidated and by the amendments. This presumption applies unless the contrary is shown.

Section 78 of the Legislation Act 2019 provides that this consolidation, published as an electronic version, is an official version. A printed version of legislation that is produced directly from this official electronic version is also an official version.

3 *Editorial and format changes*

The Parliamentary Counsel Office makes editorial and format changes to consolidations using the powers under subpart 2 of Part 3 of the Legislation Act 2019. See also PCO editorial conventions for consolidations.

4 *Amendments incorporated in this consolidation*
