Supplementary Order Paper

Wednesday, 19 October 2022

Fair Pay Agreements Bill

Proposed amendments

Chris Baillie, in Committee, to move the following amendments:

Clause 92F

In *clause 92F(2)(f)(i)*, replace “local government funding” (page 98, line 11) with “significant local government funding”.

In *clause 92F(2)(f)(ii)*, replace “central government funding” (page 98, line 14) with “significant central government funding”.

Explanatory note

This Supplementary Order Paper amends the Fair Pay Agreements Bill. There is no strong reason for employers to notify government agencies about what is occurring in employment bargaining (unless this is already required in contracts between the employers and government agencies). However, as written, any employer who does any contract work or services for a government agency has to provide updates to that agency, meaning this requirement will become onerous and pointless.
