Explanatory note

This Supplementary Order Paper amends the Pae Ora (Healthy Futures) Bill to strengthen the bill’s adherence to te Tiriti o Waitangi and to ensure equity for Māori can be achieved more effectively. Doing this will give greater effect to the bill’s purpose, which is to protect, promote, and improve the health of all New Zealanders, by providing for Māori in accordance with te Tiriti o Waitangi.

In more detail, the proposed changes would—

- amend the health sector principles for greater alignment with te Tiriti o Waitangi and UNDRIP:
- ensure that health sector leadership and workforce development is te Tiriti-based:
- provide for the development of a Māori commissioning framework for use in the Māori Health Authority’s functions to commission kaupapa Māori and other services:
- require the Māori Health Authority and Health New Zealand to work together in relation to more of Health New Zealand’s functions:
- require Health New Zealand and the Māori Health Authority to determine localities with the agreement of relevant iwi-Māori partnership boards, rather than requiring only consultation with those boards.
