### **Explanatory note**

The purpose of this Supplementary Order Paper is to make amendments to the Gambling Amendment Bill (No 2) as reported from the Government Administration Committee. The proposed amendments relate to the definition of “authorised purpose” for various classes of gambling, and to class 4 gambling profit distribution and operator and venue licensing. The Supplementary Order paper also proposes amendments to the Bill to give territorial authorities greater powers in addressing problem gambling within their communities and increases penalties for certain offences under the Gambling Act 2003.

The amendment to clause 4 of the Bill proposed by the Supplementary Order Paper amends the definition of “authorised purpose” for the various classes of gambling to specifically include the maintenance and development of racing club infrastructure and racecourses, but to specifically exclude the payment of racing stakes. This amendment will ensure that the proceeds of gambling, where distributed to the racing industry, are distributed to those activities in the racing industry that have a genuine need for financial support.

The amendment to clause 22 proposed by the Supplementary Order Paper will add an additional condition that can be imposed by the Secretary of internal Affairs in issuing a class 4 gambling operator’s licence requiring the operator to implement systems to maximise player knowledge about and control over their gambling and to minimise gambling related harm.

The proposed clause 22AA that the Supplementary Order Paper proposes to insert into the Bill inserts new sections 53A and 53B into the Act to address issues relating to the distribution of gaming machine proceeds.

The proposed section 53A caps the level of funding from gaming machine operators that can be distributed to the racing industry. This is to ensure that genuine community interests receive the bulk of the benefits of any additional proceeds from gaming machine gambling. Distribution by any operator to the racing industry is proposed by this section to be capped at 5% of an operator's total distribution.

The proposed section 53B will ensure that the net proceeds of gaming machine gambling are distributed largely to the communities from in which the gambling occurs. Currently there is evidence of gambling proceeds derived from poorer communities being diverted to wealthier communities. Under the new section 53B, 80% of the proceeds from a gaming machine venue within a particular territorial authority district will normally be required to be distributed for the benefit of the communities within the district from which they are derived.

The amendment to clause 28 of the Bill proposed by this Supplementary Order Paper will require the Secretary of Internal Affairs, in issuing a class 4 venue licence to impose conditions requiring gaming machines to be located in particular areas of the venue, including a condition that all gaming machines be located entirely within internal areas of the venue. This will address an issue that has arisen involving some gambling venues, in response to the 2004 amendments to the Smoke-free Environments Act 1990, altering the layout of their premises so gamblers can gamble outside.

The amendment to clause 40 of the Bill proposed by this Supplementary Order Paper provides an additional criterion under which territorial authority consent for a class 4 gambling will be required. That criterion will require the holder of a class 4 venue licence who conducts gambling mainly to distribute net profits to the community to obtain territorial authority consent for renewal of a venue licence if the territorial authority within whose district the venue is located has adopted a class 4 gambling policy under section 101(3)(c) to prohibit, or reduce the number of, class 4 gambling venues in its district or the area of the district within which the venue is located.

The amendment to clause 41 of the Bill proposed by this Supplementary Order Paper is a grace period provision providing that if a class 4 venue consent renewal is refused consequent upon a territorial authority policy to prohibit or reduce the number of class 4 venues, the venue consent operating at the time the application for renewal was made shall continue to apply for a period of 18 months from the date of the decision to decline venue consent. This will permit existing class 4 venues to be disestablished in an orderly manner in the event of venue consent renewal being refused.

The new clause 41A of the Bill proposed by this Supplementary Order Paper will permit territorial authorities to develop class 4 gambling policies to prohibit, or reduce the number of, class 4 gambling venues in its district or the area of their

district or an area of their district and to specify restrictions to prohibit or regulate class 4 venue signage and regulate class 4 venue opening hours.

The substituted clause 42 of the Bill proposed by this Supplementary Order Paper strengthens the consultation process that territorial authorities are required to undertake in developing or reviewing a class 4 venue policy, and requires that territorial authority decisions on class 4 venue policies are made in accordance with section 77 of the Local Government Act 2002.

The new clause 43A of the Bill proposed by this Supplementary Order Paper permits territorial authorities to make bylaws to prohibit or regulate signage that advertises class 4 venues and regulate the hours of operation of class 4 venues. Bylaws may be made for this purpose only if a territorial authority is satisfied that the bylaw is necessary to reduce the harmful effects of gambling within its district. The signage bylaw provisions proposed are analogous to those for brothels under the Prostitution Reform Act 2003.

The amendment to clause 47 of the Bill proposed by this Supplementary Order Paper increases the maximum fine that can be imposed under section 106 of the Act on a corporate society for the unlawful distribution of the net proceeds from class 4 gambling from \$10,000 to \$50,000 to provide greater deterrence.

The amendment to clause 52 of the Bill proposed by this Supplementary Order Paper similarly increases from \$10,000 to \$50,000 the maximum fine that can be imposed upon a key person in relation to a class 4 venue who contravenes section 113 of the Act or upon a key person in relation to an operator's licence or the holder of an operator's licence who knowingly allows a key person in relation to a venue licence to contravene that section.
