

48. This license, and the benefits and obligations hereunder, shall not be assigned without the express consent in writing of the Minister first had and obtained; but such consent shall not be withheld if it is proved to the satisfaction of the Minister that the transferee is financially and otherwise able to carry out the obligations specified in this license.

49. For the purpose of ascertaining whether the conditions of this license are being faithfully complied with by the said Council, the Minister, or any person appointed by him in that behalf, may at all reasonable times enter on the lands and works and inspect the same.

50. From and after the time when the said Council commences to supply energy it shall maintain continuously sufficient power for the use of all the consumers for the time being entitled to be supplied: Provided that, for any purposes connected with the efficient working of the undertaking, the Minister may give permission to the Council to discontinue the supply at such intervals of time and for such periods as he may think expedient. When the supply is so discontinued, public notice shall be given, when practicable, of such discontinuance and of the probable duration thereof.

51. The Minister may at any time order an inspection to be made of the works, lines, and wires of the said Council used for electric lighting and power purposes. If any defect is found to exist it must be remedied forthwith, and if, in the opinion of the Inspecting Engineer, such defect is serious, the Minister may, on receipt of the report, direct the said Council to at once cease transmitting energy either over the whole of its lines and wires, or over any part thereof, as to him may seem fit, until such defect is repaired or remedied. The cost of such inspection shall be borne by the said Council.

52. After the supply of energy has begun, particulars shall be given to the Under-Secretary for Public Works at Wellington of each further proposed extension or alteration of lines or wires.

53. If the said Council makes default in complying with any of the provisions of this license the Minister may, by notice in writing, require the said Council within thirty days to remedy the default specified in that notice; and if it fails to comply with the terms of the notice within the said period it shall be liable to a penalty of £10, to be recoverable by or on behalf of the Minister as a debt due to the Crown; but the Council shall not be held to have committed default for any failure to maintain power continuously if such failure is due to the breakdown of machinery or other accident, unless such breakdown or accident is proved to be due to negligence on the part of the said Council.

The recovery of a penalty under this license shall not affect the liability, if any, of the said Council to make compensation in respect of any damage or injury which may be caused by reason of the default.

54. Notwithstanding anything in the last preceding clause of these conditions, if the Council fails to comply with the terms of any such notice for ninety days after the receipt thereof the Governor in Council may thereupon revoke this license without further notice.

55. Nothing in this license shall be deemed in any way to interfere with, affect, or abridge any rights or powers vested in His Majesty the King, or in the Governor on his behalf, authorizing the construction, management, or working of any public works, nor shall any compensation be payable to or on behalf of the Council for injury done to the works herein authorized by the construction, management, or working of any such public work as aforesaid, or for the loss occasioned thereby, or for the exercise of any such right or power as aforesaid.
