The inclusion of the suburban boroughs tends to lower the rate at Wellington and Dunedin.

									De <b>ath-rat</b> es Popul	per 1,000 of ation.
Auckland City	,			•	• •		••	••	0.93	
, and seven s	uburba	n borough	8.	•	••		••			0.93
Wellington City						••	••		1.14	
and four su	burban	boroughs				••	••	••		1.08
Christchurch City		••			••	••			1.00	2 00
, and five sub	urban	boroughs								1.00
Dunedin City									1.05	
and five sub	urban	boroughs			••		••	••		0.98
Including the suburbs, the rate at	Wellin	gton is the	highest	and at	Auckle	nd the l	owest.			
Compared with July, 1913, the results are,—										1914
Auckland and suburbs	••	••	••			••	••	1.0	00	0.93
Wellington and suburbs	••	••						0.8	35	1.08
Christchurch and suburbs	٠.,		••	••	••	•••	••	0.8		1.00
Dunedin and suburbs	••	••	••	••	••	••	••	1.0		0.98

The total births in the four chief cities and their suburban boroughs amounted to 601, against 608 in June—a decrease of 7. The deaths in July were 304—an increase of 46 as compared with the previous month. Of the total deaths males contributed 172, females 132. Fifty-eight of the deaths were of children under five years of age, being 19.08 per cent. of the whole number; 44 of these were under one year of age.

There were 114 deaths of persons of 65 years and upwards in the four chief cities and their suburban boroughs, as against 90 in June. The following table shows the classification:—

Age.	Auc	Auckland.		Wellington.		church.	Du	nedin.	Total.
