VICTORIA.

BREAKWATER EXTENSION WORKS.—WARRENAMBOOL HARBOUR.—Mariners and others are hereby notified that, in connection with the work of extending the Breakwater Pier, divers will from time to time be engaged working for a distance of about 100 ft. from the outer end of such breakwater.

Mariners are therefore warned to be on the lookout for any floating plant that may be moored off the outer end of the breakwater, and are cautioned to avoid same by giving the outer end of the breakwater a wide berth.

As the jib and gear of the "Titan" crane stationed on the breakwater, and used for handling the concrete blocks, may, when swung out, project about 80 ft. from the pier, mariners are also warned to ascertain the position of such jib when berthing at or leaving the pier.

HOPETOUN CHANNEL.—PORT OF GEELONG.—Mariners and others are hereby notified that the dredger "George Ward Cole" will, on or about the 1st of July proximo, commence dredging in Hopetoun Channel, about 400 ft. east of No. 3 beacon, and will work to west.

The usual signals will be exhibited—viz., during daytime a ball, and during night-time two (2) red lights in a vertical position not less than six (6) feet apart, and an anchor light at stem and stern.

Should the electric lights which will be in use during operations at night harass navigation of the channel such lights will be turned off upon a prolonged blast of the steam whistle being given on the vessel the navigation of which may be impeded.

Caution.—Those in charge of vessels navigating the channel must exercise the utmost caution when approaching the dredger, and engines must be stopped when passing over the chains.

SOUTH AUSTRALIA.

WEST COAST.—FLINDERS, PRICE, AND WHIDBEY (FOUR HUMMOCKS) ISLANDS.—Referring to Notice to Mariners No. 10 of 1914, dated 25th May last, masters of vessels and others are hereby informed that the lights referred to are now exhibited. This affects Admiralty Chart No. 1061.

JAPAN.

HOKKAIDO.—Notice is hereby given that the operation of the explosive fog-signal which was prepared at Fukuyama Lighthouse, Fukuyama Harbour, Province of Oshima, Hokkaido, has been discontinued for the time being.

ROCK TWELVE MILES NORTH-EAST OF KAHURANGI POINT LIGHTHOUSE.

Marine Department,
Wellington, N.Z., 25th August, 1914.

CAPTAIN J. W. H. Holmes, of the s.s. "Mapourika," reports having seen a heavy break approximately 1 mile off shore, and 12 miles 50° (N. 34° E. magnetic) of Kahurangi Point Lighthouse. There was an exceptionally heavy swell on at the time, and he concludes that the break would be over a pinnacle rock with about 3 fathoms of water over it.
