

(b.) In the case of a female student, for a teaching service of not less than three years, to be completed immediately after the close of the training-college course :

Provided that the Director may in special circumstances approve of an extension of time within which the prescribed service shall be completed.

(2.) The term of service as a teacher required by this clause shall include service as a student assistant for the year immediately following the training-college course in a public school to be selected by the Education Board of the district in which the student's home is situated or in some other school approved by the Director. This subclause shall apply only to students who, after one year's service as probationers or pupil-teachers, are admitted to a training college subsequent to the 31st December, 1926.

(3.) No allowances shall be paid to or for any student of Division A, B, or C until the said bond has been executed.

17. (1.) A studentship shall not be tenable with a Junior Scholarship of the University, or a Senior National Scholarship, or any other scholarship unless it is shown to the satisfaction of the Director that the holding of such scholarship would not interfere with the student's training as a teacher.

(2.) None of the allowances named in clauses 11 to 14 hereof shall be payable in the case of any student for a greater period than two years; nor shall any allowance be payable to a student for any period during which he has been in receipt of salary or allowance as a teacher, pupil-teacher, or probationer.

18. The allowances to any student shall not include University college fees in respect of any classes at which the student's attendances and progress have not been satisfactory, and, if such fees have been paid, the amount shall be deducted from any allowances due to him, or be otherwise recoverable from him by the Board.

19. In no case shall the number of students admitted in any year under Divisions B, C, and D conjointly be so great as thereby to make the total number of all students in attendance at the training college more than 250, or such larger number as the Minister may decide.

20. All allowances to students shall, subject to the restrictions named in these regulations, be paid monthly, save that the first payment of a student's allowance may be a quarterly payment.

Curriculum.

21. The curriculum of each training college shall provide for a two-years course of training, and shall be subject to the approval of the Director of Education.

22. (1.) Every training college shall make provision for the following:—

(a.) Instruction in the principles and history of education (including elementary psychology) in school and personal hygiene (inclusive of ambulance work), and in methods of teaching.

(b.) Courses in elementary practical science as suited to the requirements of public schools, namely—

(i.) For men students an approved course of general experimental science, the material for which shall be drawn largely from agricultural sources.

(ii.) For women students an approved course of general experimental science, the material for which shall be connected chiefly with matters relating to home and domestic affairs.

[It is to be understood that the main purpose of the courses named in paragraph (b), and to a material extent the purpose of the courses named in paragraphs (c) and (d), is to train the students in the methods of teaching the subjects named.]

(c.) Courses in—

- (i.) Kindergarten work;
- (ii.) Elementary handwork, especially modelling in plasticine or clay, paper-work, and bricklaying;
- (iii.) Elementary woodwork;
- (iv.) Modelling in cardboard.

(d.) Courses in—

- (i.) Physical instruction (including swimming), which may be arranged with the Director of Physical Instruction;
- (ii.) Singing;
- (iii.) Drawing;
- (iv.) Needlework (for women).
