Notice to Mariners No. 19 of 1931.

Marine Department, Wellington, N.Z., 10th June, 1931.

THE following revision of Admiralty Notice to Mariners No. 12 of 1930, which has been received from the Admiralty, London, is published for general information.

G. C. GODFREY, Secretary.

ADMIRALTY NOTICE NO. 12 OF 1930.

BRITISH OFFICIAL WIRELESS MESSAGES TO MERCHANT SHIPS.

Former Notices.—Nos. 12, 547, and 1717 of 1930 ; hereby cancelled.

Mariners are informed that arrangements have been made for broadcasting by W/T, messages considered to be of sufficient importance to communicate to all British Merchant Ships in any part of the world.

The scheme for broadcasting messages of interest to Merchant Ships under the arrangements promulgated herein will not be in operation continuously. It will, however, be introduced for trial purposes for one week on 1st January and 1st July each year.

During these test periods brief messages will be issued by the Admiralty to all British Merchant Ships, and by the Naval Authorities responsible for the respective areas shown in the Schedule to British Merchant Ships in those areas. These "test" messages will not, however, be broadcast by the 500 kc/s (600 metres) Stations shown in the Schedule, nor will Rugby broadcast on Sundays during the test periods.

Should it be desired to send a message of special importance to British Merchant Ships, at any time outside the periods fixed for trial purposes, the scheme will be brought into operation temporarily for this purpose.

If and when such occasion arises to bring the organization into force, either generally or in any particular area, messages notifying the operation of the scheme will be issued by the Admiralty and/or by the Naval Authority responsible for the area or areas concerned. When such messages are necessary every available means of reaching Merchant Ships will be employed—i.e. the messages will be broadcast not only by Rugby and the other Stations at the times shown in the Schedule, but also where Stations included in the scheme transmit navigational warnings, weather reports, &c., at routine periods, messages notifying the commencement of the scheme will be broadcast during those periods. Such messages will bear the address "All British Merchant Ships" or "British Merchant Ships in.....area," in full; the use of the call signs mentioned in the scheme will commence when the scheme is brought into force.

The procedure outlined in this scheme is not intended to interfere with or replace existing arrangements for broadcasting to Merchant Ships messages concerning navigational dangers, weather reports, or gale warnings. Where routine arrangements exist for broadcasting such messages, those arrangements will continue in force.

The following are the arrangements which have been made for the operation of the scheme :—

1. The world has been divided into certain areas (*vide* chart appended) and collective call signs have been introduced for (i) all British Merchant Ships, and (ii) British Merchant Ships in a particular area. These call signs are as shown in the following table :—

2. Messages under this scheme will be broadcast from :—

- (b) Certain medium and high power W/T Stations abroad operating on waves between 150 kc/s (2,000 metres) and 100 kc/s (3,000 metres) at 0400 and 1600 G.M.T.
- (c) Certain W/T Stations operating commercial traffic on 500 kc/s (600 metres) at any time.

Reports containing particulars of each message received, arranged in the manner shown in the specimen form, should be rendered by operators to the

Masters of their ships, and transmitted by the latter to the Shipowners, who will forward the reports to the Board of Trade, London. Reports from ships registered in Canada should be forwarded to the Canadian Department of Marine. *It is particularly desired that ships listening for, but failing to receive, the test messages, should render blank returns, giving, if possible, any reasons for non-reception.*
