

New Zealand Gazette of the twelfth day of the same month, or any regulations made or to be made in amendment thereof or in substitution therefor (hereinafter collectively referred to as "the regulations"), and which regulations shall be deemed to be incorporated herein, doth hereby grant to the licensee a license to lay, construct, put up, place, or use within the area of supply defined in the Third Schedule hereto the electric lines described in the First Schedule hereto.

FIRST SCHEDULE.

1. UTILIZATION OF THE WATER.

The said water shall be used solely for the purpose of generating electricity, and, except for one head supplied to Hokitika Borough Council, shall be returned to the Kanieri River at or near the power-house where it is utilized.

2. PLANS.

The plans herein described by the letters "P.W.D.," followed by numerical references, are plans which have been deposited in the office of the Minister of Public Works at Wellington.

The licensee shall, before any works hereby authorized are commenced, forward for the approval of the Minister of Public Works (hereinafter referred to as "the Minister")—

- (a) Full detailed drawings and specifications of the diverting weirs;
- (b) Drawings showing how and in what manner the water is diverted;
- (c) Contour-plans showing difference in level of water due to the construction of the headworks;
- (d) Drawings giving full particulars of any tunnels, aqueducts, and pipe-lines used in conveying the water from the headworks to the power-stations.
- (e) Drawings showing the arrangement of the generating, switching, and transforming plant in the power-stations.

3. LOCATION OF HEAD-WORKS.

The said water shall be taken—

- (a) From the said lake at the head-works situated at Kanieri Lake, in Block XI, Kanieri Survey District, at points indicated on the plans marked P.W.D. 48198 and 50108; and
- (b) From the said river at a dam to be constructed near the confluence of Butcher's Creek with the Kanieri River at a point indicated on the plan marked P.W.D. 78925 (sheet No. 14).

4. GENERAL DESCRIPTION OF WORKS.

Subject to the conditions in this license set forth, the licensee is hereby authorized to construct, maintain, and use the following works for the purpose of this license, the position of the said works described in subclauses (a), (b), and (c) hereunder, being indicated on the plans marked P.W.D. 46770, 48198, 50108, and 78925 (sheets Nos. 1 and 18).

- (a) Head-works consisting of weirs and necessary intakes;
- (b) Races, penstocks, and pipe-lines leading from such weirs to the power-houses hereinafter referred to; also tail-races to Kanieri River;
- (c) Power-houses with all necessary equipment including water turbines, generators, transformers, lightning-arrestors, switchboards, switches, exciters, and other appliances for generating electricity;
- (d) Transmission and other lines over the routes shown as follows:—
 - (i) By means of a white line on plan marked P.W.D. 48924;
 - (ii) By means of red and blue lines on the plan marked P.W.D. 46770 with the exception of the blue lines shown in the Westland County area;
 - (iii) On the plan marked P.W.D. 55927, with the exception of the white lines shown to the Mental Hospital and the Kanieri Sawmill;
 - (iv) By means of red and green lines on the plan marked P.W.D. 78925;
- (e) Such further transmission and other lines within the area of supply as may from time to time be required, but any extensions or alterations of lines made pursuant to this paragraph shall be made only after compliance with clauses 21, 22, and 23 of the regulations and subject to clause 9 hereof.

5. MAINTENANCE OF WORKS.

After the said works have been completed, the licensee shall maintain the same in proper working-order during the continuance of this license.

6. DURATION OF LICENSE.

This license shall, unless sooner determined in accordance with the provisions hereinafter expressed, continue in force for a period expiring on the 31st March, 1972. Upon the expiry of the said term, or upon the sooner determination of this license by revocation or otherwise, all rights hereby granted to the licensee or his assigns shall thereupon cease and determine; but such expiration or determination shall not relieve the licensee of any liability theretofore incurred under this license. Such surrender shall be without prejudice to any rights held by the licensee under the Mining Act, 1926, or any similar statute.

7. RENTAL.

The licensee shall, in respect of this license, pay to the Public Works Engineer for the district, or otherwise as the Minister may from time to time require, a rental at the rate of 4s. per annum per kilowatt of maximum output, as recorded by the watthour meter to be installed by the licensee at the power-houses mentioned in clause 4 (c) hereof, payment to be made yearly for the period ending on the 31st day of March in each year, commencing from the day electrical power is first supplied. "Maximum output" means twice the number of units generated in the half-hour during which the number of units generated is a maximum for the year. For this purpose the units generated shall be recorded at the end of each half-hour commencing from noon of each day.

Electrical energy generated under this license and used under the Mining Act, 1926, for the licensee's own use for mining purposes only, and electrical energy so generated and supplied to the Rimu Gold-dredging Company (Limited) for dredges operated by such company shall be separately metered and deducted from the above-mentioned maximum output.

8. DATUM TEMPERATURE.

For the purposes of calculating stresses as provided in clause 108 of the regulations, the datum temperature shall be taken as 12° Fahrenheit.

9. EXTENSIONS.

Notwithstanding anything contained in the regulations incorporated herein, no extensions of lines other than those along the routes herein described shall be deemed to be authorized by this license, but within the boundaries of the special claims of the Rimu Gold-dredging Company (Limited) on Rimu Flat, in the Westland Mining District, such extensions may be made as are necessary or convenient for working the said special claims.

10. GRANTING OF OTHER WATER-RIGHTS.

Nothing herein shall prevent the Governor-General in Council from granting to any person or body corporate other than the licensee a license to take water from the said river or lake, except at the places where the licensee is by this license empowered to take it:

Provided that no such license shall so operate as to reduce the natural fall between the headworks and tail-water, or the volumes of the water which the licensee is by this license authorized to take from the said lake or river.

11. VARIATION IN CONDITIONS OF LICENSE.

The terms and conditions of this license may at any time and from time to time, at the request or with the consent in writing of the licensee, be altered by the Governor-General by Order in Council.

12. SURRENDER OF LICENSE.

The licensee may at any time, with the consent of the Minister, surrender this license, and shall thereupon remove from the ground (if so required by the Minister) all removable equipment, machinery, buildings, poles, transmission-lines, and other plant herein authorized to be installed or provided. If the licensee fails or neglects so to remove the said plant within twelve months after being required so to do, such equipment, machinery, buildings, poles, lines, and other plant shall, without payment of compensation, vest in and become the property of the Crown.

13. SYSTEM OF SUPPLY.

The system of supply shall be as described in paragraphs (a) and (e) of clause 5 of the regulations.

The generating voltage shall be approximately 2,300 volts between phases at a frequency of 50 cycles per second and transformed to 11,000 volts for transmission purposes.
